

# Reflection Instructions - Connecting with the Mainframe

## Loading Reflection

1. Open an internet browser session and go to the following address:

<http://mvs.doa.louisiana.gov/rweb>

The following screen will appear:

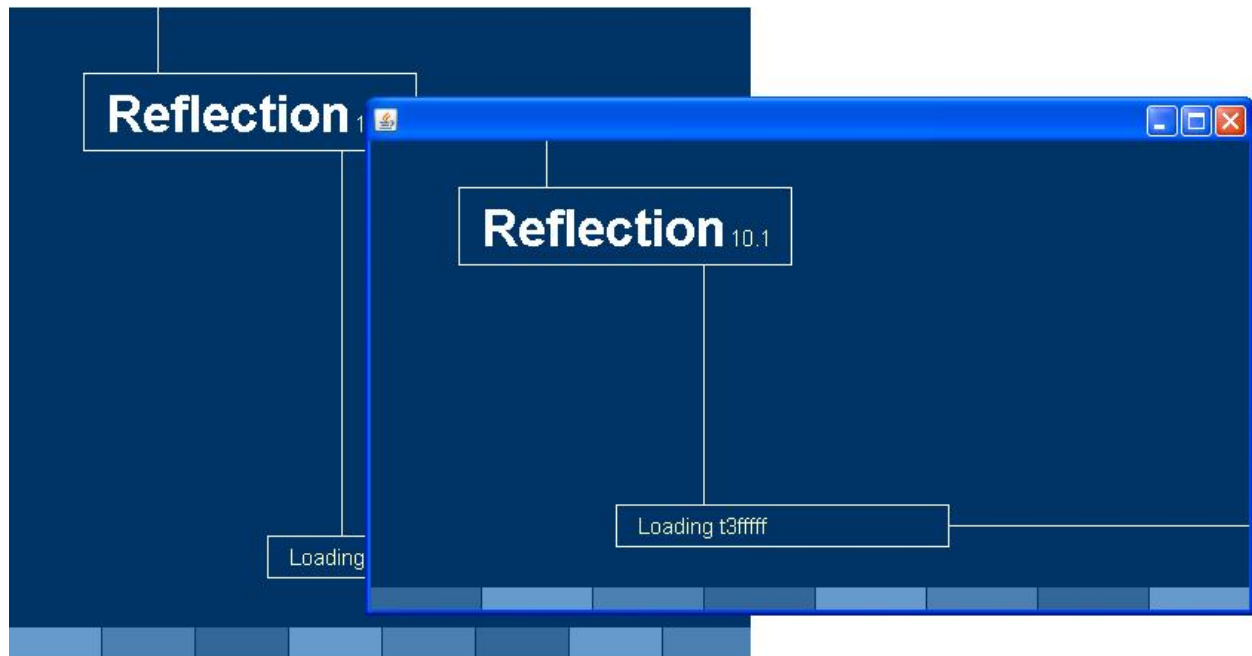

- 
2. When Reflection is loaded for the first time, the following security warning will be displayed:

Please check "Always Trust" and click the RUN button.

## Reflection Instructions - Connecting with the Mainframe

3. The following screen will appear as the applet loads:

4. After the program has loaded, a Sessions window will be displayed and a session for DOA will start automatically:

## **Reflection Instructions - Connecting with the Mainframe**

5. You may minimize the *Sessions* window, but do not close it while any sessions are open.
6. To open additional sessions, return to the *Sessions* window and double-click another session to open it.
