

**CANCER**  
Rev 09/13/2022

**Please review the Website Disclaimer for important information about the contents of this page.**

When a covered individual is diagnosed with cancer, benefits may be provided for hospital confinement, radiation, chemotherapy and surgery, among others. A cancer policy also helps by providing benefits to help with the many non-medical expenses associated with cancer. Benefits may be paid as expense incurred, per diem or a lump sum. Cancer policies may also pay an optional Initial Diagnosis benefit or First Occurrence benefit when a covered individual is first diagnosed as having internal cancer. Some policies may also cover preventative exams.

**When shopping for a Cancer plan, consider asking:**

- How are pre-existing conditions covered?
- How are the benefits paid?
- When does coverage begin?
- Is there a waiting period?
- Does it pay an Initial Diagnosis benefit or First Occurrence benefit?
- Does it cover preventative screenings?
- What are the limits on chemotherapy (Daily or Annual)?

The following companies are currently selling Cancer products:

<a href="#">American Family Life Assurance Co (AFLAC)</a>	Transamerica Life Insurance Co
<a href="#">Colonial Life &amp; Accident</a>	Washington National Insurance Co
<a href="#">National Teachers Associates Life</a>
