Commissioner of Insurance

Department Description

The mission of the Louisiana Department of Insurance is to regulate the insurance industry in the state (licensing of producers, insurance adjusters, public adjusters, and insurers), and to serve as advocate for the state's insurance consumers.

In addition, the department supports a variety of policies that assist women and children-such as Family and Medical Leave and Flex time for its employees. Overall, the department believes that when necessary forms of insurance are both available and affordable to the state's citizens, all individuals as well as businesses and industries in the state benefit.

The Department of Insurance operates under two programs: Administration/Fiscal and Market Compliance. Together these programs work collectively to accomplish these goals:

I. To regulate the insurance industry in the state (licensing of producers, insurance adjusters, public adjusters and insurers), and serve as advocate for the state's insurance consumers.

II. Provide necessary administrative and operational support to the entire department, attract insurers to the state in order to promote a more competitive market, and work to stabilize the property insurance market.

Explanatory Note: - A standard company is an insurer that rates a risk up or down from standard rates, depending upon various factors, and uses standard terms and conditions in its policies. It has been difficult for minority/disadvantaged producers to obtain the contract or company appointment that would allow them to sell the standard insurers' products to their clients. We continue with informal counseling and educational/training across the state, as well as with college outreach.

Source of Funding

This program is funded from Fees and Self-generated Revenues, Statutory Dedications and Federal Funds. The Fees and Self-generated Revenues are derived from various fees and licenses authorized by R.S. 22 and the La. Insurance Rating Commission assessment authorized by R.S. 22:1419. The Statutory Dedications are from the Administrative Fund (Health Insurance Portability Administrative Act) comprised of penalties and an assessment not to exceed .0005 of the amount of premiums received in this state by Health insurers during the preceding year ending December 31. Statutory Dedications are also from the Automobile Theft and Insurance

Fraud Prevention Authority Fund; and the Insurance Fraud Investigation Fund from assessments on various policies written in Louisiana. The Federal Funds are provided under the Health Care Financing Research, Demonstration and Evaluations Information Grant made under the authority of Section 4360 of the Omnibus Budget Reduction act of 1990 (Public Law 101-508). (Per R.S. 39:36B.(8), see table below for a listing of expenditures out of each Statutory Dedicated fund.)

Complaints are investigated to determine whether the insurer or producer performed in compliance with the law and terms and conditions of the policy. A consumer may expect payment for an item not covered by the policy or may not be happy with the way a claim was handled, but the company or producer may have acted properly and within the law.

Explanatory Note: Unless approved under the terms of the interstate Insurance Product Compact, all contract/ policy forms must be reviewed/approved by DOI before they can be offered for sale in the state. Delays in the process can result in the state's consumers not having access to those products and to insurers not being able to sell those products. Good efficiency in this area is important to our department-wide efforts to attract more companies to do business in the state.

Explanatory Note: An initial investigation means a complaint is investigated to determine whether a full investigation should be initiated, or if the report should be entered into the database and maintained for possible additional investigation at a later date. Most delays in completion of background checks are the result of insurers or producers not fully completing applications and filings. The fraud division is working with producer and company licensing divisions to educate insurers and producers in this area.

Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other): Not Applicable

Explanatory Note: The department instituted an aggressive program of financial examinations and analyses in response to the company failures that occured iin the 1980's. A field examination takes place on-site. Analysis occurs in the department, using various filings, results of previous and current examinations, complaints and other data to determine whether a company might merit an examination earlier than its scheduled date. A score is developed for each company that will determine its position on the examination schedule. Stautory requirements are the most licensed entities be examined no less frequently than once every five years. We are currently in a posture that allows us to examine earlier remediation or other action. A change in the law allowing insuers to maintain records outside of the state has increased our examination may be conducted in concert with a financial examination or without connection to a financial examination. Complaints may trigger a market conduct examination. A zone examination involving other states in which a comany does business; these exams are fairly rare when the examination and analysis program is working well, which it has several years.

Savings may result when assistance leads to the percentage not covered by Medicare being counted, or a client learning that he/she is eligible for other programs that can lead to Medicaid paying deductibles, premiums or co-payments, or in determining the best supplemental or Medicare HMO coverage for the client's needs. Savings, if any, depend upon the situation of the individual senior being counseled.
