DECLARATION OF EMERGENCY

Office of the Governor Division of Administration Tax Commission

Ad Valorem Taxation (LAC 61:V. 304, 701, 703, 705, 905, 907, 1001, 1007, 1103, 1307, 1503, 2503, 2717, 3101, 3102, 3103, 3105, 3106, and 3107)

The Louisiana Tax Commission exercised the provisions of the Administrative Procedure Act, R.S. 49:953(B), and pursuant to its authority under R.S. 47:1837, adopted the following additions, deletions and amendments to the Real/Personal Property Rules and Regulations. This rule is hereby adopted on the day of promulgation.

This Emergency Rule is necessary in order for ad valorem tax assessment tables to be disseminated to property owners

B. Property Classification Standards

and local tax assessors no later than the statutory valuation date of record of January 2024. Cost indexes required to finalize these assessment tables are not available to this office until late October 2023. The effective date of this Emergency Rule is January 2024.

Pursuant to the Administrative Procedure Act, this Emergency Rule shall be in effect for a maximum of 120 days or until adoption of the Final Rule or another Emergency Rule, whichever occurs first.

C. Electronic Tax Roll Export Specifications

1. For purposes of submission of electronic tax roll data to the Tax Commission on or after January 1, 2024, the parish tax assessors shall not submit any tax roll data that is deemed confidential by law. If an assessor later discovers that confidential information was submitted to the Tax Commission, the assessor shall immediately notify the Tax Commission and resubmit the electronic tax roll data without the confidential information included.

2. Regarding public records requests for assessment information submitted to the Tax Commission prior to January 1, 2024, the Tax Commission shall confer with the parish tax assessor(s) that submitted the assessment information sought. The parish tax assessor(s) that submitted the assessment information sought by the public records request shall promptly respond to the Tax Commission and inform the Tax Commission whether any of the assessment information sought by the public records request is deemed confidential by law. The parish tax assessor(s) that submitted the assessment information sought by the public records request shall designate the assessment information that is deemed confidential by law. Such information is not a public record and will not be conveyed or transferred to any individual or entity.

Chapter 7. Watercraft

§701. Guidelines for Ascertaining Fair Market Value of Watercraft

- Α. ...
- B. Valuation

1. Fair market value is the valuation standard for watercraft. When using the cost approach, the assessor shall estimate the fair market value of each vessel having situs in the assessor's parish through use of the information provided to the assessor on LAT Form 11. Taxpayers shall report the cost of the vessel.

2. The same procedure shall be used as for other forms of machinery and equipment. That is, cost of the vessel will be brought up to current value through use of the appropriate index and depreciated based on the effective age of the vessel. The appropriate cost index, percent good factors and composite multipliers appear in Tables 703.A.1, 703.B.1 and 705.A.1. The composite multipliers are only to be used when the cost of the vessel is self-reported. When the cost of the vessel is not available, or the assessor finds the information to be unreliable, the assessor may utilize the base cost and depreciation schedules found in Tables 703.A.2, 703.B.2 and 705.A.2. Obsolescence may be applied according to days worked as per Table 706. Consideration of additional obsolescence may be granted upon showing evidence of loss, substantiated by the taxpayer in writing.

3. - 4. ...

C. Vessel Types and Definitions

1. - 22. ...

22. Offshore Support Vessel (OSV/Supply): An Offshore Support Vessel (OSV/Supply) is an ocean-going vessel used for transporting cargo, goods, supplies, and crew,

as well as for carrying out offshore exploration and production across oil platforms. These provide transportation for workers and products to and from drilling locations.

23. - 33. ...

AUTHORITY NOTE: Promulgated in accordance with La. Const. of 1974, Article VII, §18 and §21, R.S. 47:1837 and R.S. 47:2323.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Tax Commission, LR 8:102 (February 1982), amended LR 10:922 (November 1984), LR 12:36 (January 1986), LR 15:1097 (December 1989), LR 16:1063 (December 1990), LR 20:198 (February 1994), amended by the Department of Revenue, Tax Commission, LR 24:479 (March 1998), amended by the Office of the Governor, Division of Administration, Tax Commission, LR 44:579 (March 2018), LR 50:

Chapter 9. Oil and Gas Properties

§905. Reporting Procedures

A. - A.1.j. ...

B. Surface Equipment

1. See guidelines adopted by the Louisiana Tax Commission regarding the use of Table 907.D-7 regarding depreciable life and Table 907.C-4 regarding depreciation rate. The detail of typical equipment included in the production train need not be listed on or with the LAT-12. For additional or ancillary equipment not considered as part of the production train, various sizes, items, etc. may not be commingled into one category or value. Property must be grouped, totaled and included in summary according to the following property classes:

2. - 6.b. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:1837 and R.S. 47:2323.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Tax Commission, LR 8:102 (February 1982), amended LR 19:212 (February 1993), amended by the Department of Revenue, Tax Commission, LR 24:480 (March 1998), LR 49:1048 (June 2023), LR 50:

§907. Valuation of Oil, Gas, and Other Wells

Α. ...

B. The presence of oil or gas, or the production thereof, is to be included in the year-by-year discounted cash flow (DCF) model described below and as adopted by the Louisiana Tax Commission to determine the fair market value of an oil or gas well and its associated leasehold equipment for ad valorem tax purposes in Louisiana.

1. Production Forecast—oil and gas or other hydrocarbon production history for the well, lease or facility represented by the LUW (Lease, Unit, or Well) code is to be analyzed by the assessor for relevant trends and patterns established as of January 1 of the current tax year, using Decline Curve Analysis or other accepted empirical method. A commensurate forecast of future production, or production potential, attributable to only the working interest owner(s), is to be made by the assessor as of January 1 of the current tax year. This production forecast will consist of a Start Rate as of January 1 (daily average barrels or mcf) and up to five exponential percentage decline rates for designated periods of time in the DCF. Alternatively, a hyperbolic forecast formula may be used when appropriate.

2. Price Forecast—the forecasted oil and gas or other hydrocarbon production amounts for the well, lease or facility represented by the LUW code, attributable to the working interest owner(s), are to be factored by an oil or gas

or other hydrocarbon price forecast as of January 1 of the current tax year as annually determined by the Tax Commission to result in a forecasted gross revenue stream attributable to the working interest owner(s). This price forecast is based on the following guidelines:

a. the forecasted oil and gas or other hydrocarbon price forecast shall begin with the immediately previous calendar year's monthly average price (starting price) received by the working interest owner(s) for the oil and gas or other hydrocarbons produced and sold from the lease or facility represented by the LEW code on the open market to an unaffiliated third party or otherwise at a market-oriented rate. The source of this starting price shall correspond to severance tax data as reported by the operator to the Louisiana Department of Revenue;

i. this previous year average price may vary by property;

ii. if oil and gas or other hydrocarbons were either not produced or not sold for one or more months of the previous calendar year, the average price for which similar oil and gas from comparable interests was selling during that month is to be used;

b. the previous year average price is to be increased or decreased, whichever is appropriate, for year 1 of the discounted cashflow analysis with a Price Adjustment Factor which will be commensurate with the percentage increase or decrease, respectively, as indicated by the forecasted price in the Energy Information Administration (EIA) January STEO (Short-Term Energy Outlook) report for the current tax year, relative to the actual price shown for the immediately previous calendar year in the same publication. These two prices can be referenced in the report's Table 2. Energy Prices:

i. for oil, reference "West Texas Intermediate Spot Average" (dollars per barrel);

ii. for natural gas, reference "Henry Hub Spot" (dollars per million Btu);

iii. this price adjustment factor is to be used in the appraisal of each property, to the extent the property's forecasted cash flow extends to year 1;

c. the year 1 price used in the DCF appraisal is to be either increased or decreased, whichever is appropriate, in four more or less equal percentage increments to a year 5 price considered to be representative to a long-term average price available for the sale of oil and gas from the property as calculated with reference to the last 20 years of historical oil and gas price data from the Energy Information Administration (EIA);

i. the long-term average price is to be calculated after removal of outlier prices, if any, within the 20-year range, defined as any historical price outside of one standard deviation from the simple average. ii. these percentages are to be used in the appraisal of each property, to the extent the property's forecasted cash flow extends to either years 2, 3, 4, or 5.

d. the year 5 price used in the DCF appraisal is to be held flat for all years thereafter in the DCF, to the extent the property's forecasted cash flow extends past year 5;

e. the five oil and gas price forecast percentages discussed above, along with the zero percent escalation for any years in the DCF past year 5, together constitute the "price forecast scenario" as established by the Tax Commission and are to be used in the DCF appraisal of each property. This oil and gas price forecast scenario will be published on the LTC website.

3. Expense Forecast—in the DCF appraisal of the property, the forecasted gross revenues attributable to the working interest owner(s) are to be reduced for the allowance of reasonable and defendable direct costs of operation, as well as, all applicable state and local tax burden, to result in a forecasted net income stream attributable to the working interest owner(s) of the specific property being appraised. This cost allowance should represent the amount and timing of recurring expense, including overhead, along with any applicable non-recurring (capital) expense(s), typical to the area and similar operations and not necessarily the exact expenses incurred in any previous year, deemed reasonable and necessary for the property to achieve the forecasted oil and gas production amounts:

a. an assessor should make effort to obtain and consider actual historical expenses being incurred by the operator as documented on expense statements required to be provided to the assessor pursuant to §903.C. Absent this information, an assessor may assume a minimal amount and/or otherwise rely on their own judgement using best information available;

b. the increase or decrease of direct operating expense allowance in the cash flow appraisal will correspond to the increase or decrease in forecasted price, as established by the Tax Commission;

c. the percentage increase or decrease for each forecasted year of the cash flow appraisal will be calculated at 1/3 of the percentage increase or decrease in price for that year relative to the previous year price, referencing the price of the property's primary hydrocarbon being produced;

d. the provision for increase or decrease of the direct operating expense allowance does not pertain to separate allowance, if any, of capital expense(s) in the property's cash flow appraisal.

4. Discount Rate—the forecasted net income amounts in the property's DCF appraisal are to be discounted (reduced) to present day worth by application of a discount factor for each year of the forecasted cash flow commensurate with an appropriate discount rate:

a. the discount rate may vary by property;

b. base discount rates to account for the time cost of money and general industry risk are to be established by the Tax Commission. These discount rates separately extend to oil wells vs. gas wells and are shown in Table 907.C-2. This is a minimum rate whereas the assessor may use a higher rate to account for additional property-specific risks and/or other considerations as appropriate for the determination of each property's market value;

c. these discount rates applies only to the forecasted net income of the DCF appraisal. A separate discount rate is

established by the Louisiana Tax Commission to be applicable to valuation of the oil and gas wells' associated leasehold equipment (production train) and is shown in Table 907.C-2.

C. In the event the DCF appraisal results in a zero economic life and/or zero or negative discounted net income, a minimum amount of value will be established for the leasehold equipment (production train) associated with the oil and gas well(s) represented by the DCF, applying the appropriate schedule value in Table 907.C-3 to the average production depth of the wells represented by the DCF.

1. In the event the DCF appraisal results in a positive value but less than the minimum equipment value as derived using Table 907.C-3, the assessed value will be based on the minimum equipment value as established by Table 907.C-3.

2. Oil and Gas Well Discount Rates

Table 907.C-2 Oil and Gas Well Discount Rates				
Primary Product	Discount Rate (%)			
Oil Well	15%			
Gas Well	15%			
Leasehold Equipment	6%

NOTE: For any serial number categories not listed above, use year well completed to determine appropriate percent good. If

spud date is later than year indicated by serial number; or, if serial number is unknown, use spud date to determine appropriate percent good.

D. Surface Equipment

1. Listed below is the cost-new of major items used in the production, storage, transmission and sale of oil and gas. Any equipment not shown shall be assessed on an individual basis.

2. All surface equipment, including other property associated or used in connection with the oil and gas industry in the field of operation, must be rendered in accordance with guidelines established by the Tax Commission and in accordance with requirements set forth on LAT Form 12- Personal Property Tax Report - Oil and Gas Property.

3. Surface equipment will be assessed in 5 major categories, as follows:

a. oil and gas equipment (surface equipment not considered leasehold equipment);

b. tanks (surface equipment not considered leasehold equipment);

- c. inventories (material and supplies);
- d. field improvements (docks, buildings, etc.);
- e. other property (not included above).

4. The cost-new values listed below are to be adjusted to allow depreciation by use of the appropriate percent good listed in Table 907.C-4. When determining the value of equipment associated with a single well, use the age of that well to determine the appropriate percent good. When determining the value of equipment used on multiple wells, the average age of the wells within the lease/field will determine the appropriate year to be used for this purpose.

a. January 1, 2016 the allowance of depreciation by use of the appropriate percent good will be based on the actual age of the equipment, if known or available, and will apply only to surface equipment with an original purchase cost of \$2,500 or more.

5. Functional and/or economic obsolescence shall be considered in the analysis of fair market value as substantiated by the taxpayer in writing. Consistent with Louisiana R.S. 47:1957, the assessor may request additional documentation.

6. Sales, properly documented, should be considered by the assessor as fair market value, provided the sale meets all tests relative to it being a valid sale.

NOTE: The above represents the cost-new value of modern stations and self-service marketing equipment. Other costs		

NOTE: The above represents the cost-new value of modern stations and self-service marketing equipment. Other costs associated with such equipment are included in improvements. Old style stations and equipment should be assessed on an individual basis, at the discretion of the tax assessor, when evidence is furnished to substantiate such action. *This alternative assessment procedure should be used only when acquisition cost and age are unknown or unavailable. Otherwise, see general business section (Chapter 25) for normal assessment procedure.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:1837 and R.S. 47:2326.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Tax Commission, LR 8:102 (February 1982), amended LR 12:36 (January 1986), LR 13:188 (March 1987), LR 13:764 (December 1987), LR 14:872 (December 1988), LR 15:1097 (December 1989), LR 16:1063 (December 1990), LR 17:1213 (December 1991), LR 19:212 (February 1993), LR 20:198 (February 1994), LR 21:186 (February 1995), LR 22:117 (February 1996), LR 23:205 (February 1997), amended by the Department of Revenue, Tax Commission, LR 24:480 (March 1998), LR 25:313 (February 1999), LR 26:507 (March 2000), LR 27:425 (March 2001), LR 28:518 (March 2002), LR 29:368 (March 2003), LR 30:488 (March 2004), LR 31:717 (March 2005), LR 32:431 (March 2006), LR 33:492 (March 2007), LR 34:679 (April 2008), LR 35:495 (March 2009), LR 36:773 (April 2010), amended by the Division of Administration, Tax Commission, LR 37:1395 (May 2011), LR 38:803 (March 2012), LR 39:490 (March 2013), LR 40:531 (March 2014), LR 41:673 (April 2015), LR 42:746 (May 2016), LR 43:653 (April 2017), LR 44:580 (March 2018), repromulgated LR 44:917 (May 2018), LR 45:534 (April 2019), LR 46:561 (April 2020), LR 47:465 (April 2021), LR 48:1523 (June 2022), LR 49:1049 (June 2023), LR 50:

Chapter 10. Brine Operation Properties §1001. Guidelines for Ascertaining the Fair Market

Value of Brine Operation Properties

A. - B.3. ...

C. Explanations

Inactive Wells—wells that are shut-in. Shut-in status becomes effective on the date the application for shut-in status is filed, consistent with the Louisiana Office of Conservation requirements.

Injection Wells—wells completed as single, or wells reclassified by the Louisiana Office of Conservation after a conversion of another well. Wells are used for water injection or for disposal wells.

Production Depth—is the depth in feet from the surface to the end of the inner-most long-string casing set into the salt dome.

Brine Operation Wells—wells used to inject fluid into a subsurface salt formation for the purpose of extracting a brine-laden solution which is then further processed at separate surface facilities for production of salt. This type of well is categorized as Class III for underground injection control (UIC) regulatory purposes. The term "brine mining well" does not include a well used to inject fluid for the purpose of disposal of waste or leaching a cavern for the underground storage of hydrocarbons or other products.

Service Wells—wells used for ancillary non-income producing purposes such as water source wells or injection of fluid for the purpose of disposal of brine waste.

D. - E. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:1837 and R.S. 47:2323.

HISTORICAL NOTE: Promulgated by the Office of the Governor, Division of Administration, Tax Commission, LR 49:1055 (June 2023), amended LR 50:

§1007. Valuation of Brine Operation Wells

A. The Cost-New schedules below cover only that portion of the well subject to ad valorem taxation. Functional and/or economic obsolescence shall be considered in the analysis of fair market value as substantiated by the taxpayer in writing. Consistent with Louisiana R.S. 47:1957, the assessor may request additional documentation.

B. Instructions for Use of Table 1007.B and Procedure for Arriving at Assessed Value

1. Multiply the appropriate percent good factor based on age of the well as found in Table 1007.C.

2. Use cost-new to assess all active wells.

3. For wells recompleted, use new long-string casing depth to determine fair market value.

4. Adjustments for Allowance of Economic Obsolescence

a. All active service wells (i.e. salt water disposal, water source, etc.) shall be allowed a 40 percent reduction.

b. All inactive (shut-in) wells shall be allowed a 90 percent reduction.

c. Deduct any additional obsolescence that has been appropriately documented by the taxpayer, as warranted, to reflect fair market value.

d. Sales, properly documented, should be considered by the assessor as fair market value, provided the sale meets all tests relative to it being a valid sale.

5. Multiply depth of well by appropriate 15 percent of Cost-New amount as indicated in Table 1007.B.

6. Brine Operation Wells: All Regions-Louisiana

Table 1007.B Brine Operation Wells All Regions—Louisiana		
Producing Depths	Cost—New by depth, per foot for Brine Operation Wells	
	Cost @ 100%	15% Assessed
0-1,249 ft.	S 163.31	\$ 24.50
1,250 – 2,499 ft.	\$ 120.98	\$ 18.15
2,500 – 3,749 ft.	\$ 118.13	\$ 17.72
3,750 – 4,999 ft.	\$ 104.13	\$ 15.62
5,000 – 7,499 ft.	\$ 142.25	\$ 21.34
7,500 – 9,999 ft.	\$ 194.06	\$ 29.11
10,000 – 12,499 ft.	\$ 264.61	\$ 39.69
12,500 – 14,999 ft.	\$ 347.13	\$ 52.07
15,000 – 17,499 ft.	\$ 562.28	\$ 84.34
17,500 – 19,999 ft.	\$ 686.51	\$ 102.98
20,000 Deeper ft.	\$ 366.58	\$ 54.99

C. Serial Number to Percent Good Conversion

2008	236927	239276	31
2007	234780	236926	27
2006	232639	234779	24
2005	230643	232638	22
2004	229010	230642	21
2003	Lower	229009	20 *
VAR.	900000	Higher	50

* Reflects residual or floor rate.

NOTE: For any serial number categories not listed above, use year well completed to determine appropriate percent good. If spud date is later than year indicated by serial number; or, if serial number is unknown, use spud date to determine appropriate percent good.

D. Surface Equipment

1. Listed below is the cost-new of major items potentially used in the brine operation process. Any equipment not shown shall be assessed on an individual basis.

2. All surface equipment, including other property associated or used in connection with brine operations, must be rendered in accordance with guidelines established by the Tax Commission and in accordance with requirements set forth on LAT Form 10—Personal Property Tax Report— Brine Operation Property.

3. Brine operation personal property will be assessed in 7 major categories, as follows:

a. wells;

- b. operation equipment (surface equipment);
- c. tanks (surface equipment);

- d. lines;
- e. inventories (material and supplies);
- f. field improvements (docks, buildings, etc.);
- g. other property (not included above).

4. The cost-new values listed below are to be adjusted to allow depreciation by use of the appropriate percent good listed in Table 1007.C. When determining the value of equipment associated with a single well, use the age of that well to determine the appropriate percent good. When determining the value of equipment used on multiple wells, the average age of the wells will determine the appropriate year to be used for this purpose.

5. Functional and/or economic obsolescence shall be considered in the analysis of fair market value as substantiated by the taxpayer in writing. Consistent with Louisiana R.S. 47:1957, the assessor may request additional documentation.

6. Sales, properly documented, should be considered by the assessor as fair market value, provided the sale meets all tests relative to it being a valid sale.

Chapter 31 Public Exposure of Assessments; Appeals §3101. Public Exposure of Assessments, Appeals to the

Board of Review and Board of Review Hearings

A. - H.4. ...

I. The Board of Review, during its public hearing(s), shall have copies of the Louisiana Tax Commission appeal rules and regulations and Appeal Form 3103.A available for any assessor and/or taxpayer desiring to further appeal to the Tax Commission.

J. The Board of Review shall provide each taxpayer with a written notice of their particular appeal determination with a copy submitted to the assessor and the Tax Commission on or before the certification of the assessment list to the Tax Commission. The notice of determination shall be sent simultaneously to the assessor and the taxpayer at the address shown on the appeal form by registered or certified mail. The Board of Review shall include an Appeal Form 3103.A with the notice of determination.

§3103. Appeals to the Louisiana Tax Commission

A. The Louisiana Constitution provides that the correctness of assessments made by an assessor will be subject to review first by the parish governing authority, then by the Louisiana Tax Commission, and finally by the courts, all in accordance with procedures established by law. La. Const. Article VII, Section 18(E).

B.1.An appeal to the commission shall be filed with the commission within 30 calendar days of the earlier of the

Board of Review's written decision is properly sent to the taxpayer and assessor; or actual delivery of the Board of Review's determination, whether electronic or otherwise. In order to institute a proceeding before the commission, the taxpayer, assessor, or bona fide representative of a tax recipient body shall file Form 3103.A and, if applicable, Form 3103.B. The applicant must include a copy of the Board of Review's written decision and notification letter with the Form 3103.A. All appeals shall be deemed filed when deposited with the United States Postal Service and can be evidenced by proof of mailing by registered or certified mail. Appeals may also be filed electronically on the commission's website. The commission may summarily dismiss an appeal not timely filed with all required documents.

2. In addition to the Forms 3103.A and 3103.B, the applicant may attach any additional documents or pleadings containing further information concerning the appeal.

3. Appeals filed by a taxpayer shall be docketed and captioned as follows.

STATE OF LOUISIANA LOUISIANA TAX COMMISSION Taxpayer v. Assessor and Parish Board of Review DOCKET NO. ____

4. Appeals filed by an assessor shall be docketed and captioned as follows.

STATE OF LOUISIANA LOUISIANA TAX COMMISSION Assessor v. Taxpayer and Parish Board of Review DOCKET NO. _____

5. Appeals filed by a bona fide representative of a tax recipient body shall be docketed and captioned as follows.

STATE OF LOUISIANA LOUISIANA TAX COMMISSION Tax Recipient Body v. Assessor, Taxpayer, and Parish Board of Review DOCKET NO. _____

C.1. Except as otherwise provided, an original and seven copies of all filings, including pleadings and exhibits, shall be filed with the commission.

2. All pleadings are to be signed by the individual who files them, and shall include the capacity in which the individual is acting, the individual's mailing address, and telephone number.

3. The signing of the pleading will be construed to be the individual's statement that the individual is duly authorized to represent the property owner, that the allegations of the petition are true and correct to the best of the individual's information and belief and that the capacity in which the individual acts is properly stated.

4. All pleadings shall be accompanied by a certificate of service certifying that such pleadings have been served on all opposing parties or parties in interest in the case and shall include the manner of service.

5. All pleadings shall reflect the caption set forth in Subsection B of this Section.

6. All filings to the commission shall be on letter size paper.

7. Any filing that consists of 50 pages or less shall be filed in electronic/digital form only.

8. Any filing that consists of more than 50 pages shall be filed in electronic/digital form, along with the printed original and seven copies.

9. Motions and exceptions shall be in writing, shall be accompanied by an order or rule setting them for hearing and shall be served in accordance with these rules.

10. The commission may issue discovery and filing deadlines through a case management scheduling order.

11. In computing a period of time allowed or prescribed in this Subchapter or by order of the commission, the date of the act, event, or default after which the period begins to run is not to be included. The last day of the period is to be included, unless it is a legal holiday, in which event the period runs until the end of the next day which is not a legal holiday.

12. At the discretion of the commission, motions, objections, rules, and/or exceptions may be heard by the commission by special setting, referred to the merits of the case, or summarily adjudicated.

13. Upon written notice by the commission, through either the administrator or legal counsel for the commission, the parties or their attorneys or other representative may be directed to file memoranda with the commission. The legal memorandum shall address in a concise manner the issues presented in the appeal to the commission together with a statement of any authority supporting the party's position.

14. Upon written notice by the commission, through either the administrator or legal counsel for the commission, the parties or their attorneys or other representative may be directed to meet and confer with commission staff and/or legal counsel for the commission to discuss any aspect of the appeal lodged with the commission.

D.1. - D.9. ...

E.1. Any taxpayer or assessor may appear and be represented by an attorney at law authorized to practice law before the highest court of any state; a natural person may appear in his own behalf, through an immediate family member, an attorney, or Registered Tax Representative as herein defined below; or a corporation, partnership or association may appear and be represented to appear before the commission by a bona fide officer, partner, full time employee, or any other person duly authorized as provided for on "Exhibit B, Power of Attorney" (Form 3103.B).

E.2 - G.11.

12. Notwithstanding Section 3103.D.1., or any other provision to the contrary, witness testimony is permitted, and all witnesses shall be placed under oath at the onset of each hearing. However, the commission may limit the number of witnesses and limit the allotment of time for such testimony. At its sole discretion the commission may permit live witness testimony via videoconference. All witnesses are subject to cross examination by any party. Further, the commission will not accept or consider any evidence not permitted under La. R.S. 47:1989.

G.13. - H.3.

I.1. Notwithstanding any other provision to the contrary, and except as otherwise instructed, the Appraisal Division shall perform a fee simple appraisal in connection with all real property appeals utilizing the criteria set forth in R.S. 47:2323 and the commission's rules.

2. The commission may accept or reject all or any part of the appraisal prepared by the Appraisal Division in its evaluation of the appeal.

Ward: _____ Assessment Tax Bill No.: _____ Appeal No.: ____

Address or Legal Description of Property Being Appealed. Also, please identify building by place of business for convenience of appraisal.

I hereby appeal the decision of the Board of Review on the assessment of the above described property pursuant to La. R.S. 47:1992, La. R.S. 47:1989 and the rules of the Louisiana Tax Commission. I timely filed my appeal as required by law.

Date of the Board of Review Determination:

"You are required to include a copy of the Board of Review Determination with this Appeal Form."

The Fair Market Value by the assessor was:

Land \$_____ Improvement \$_____

Personal Property \$_____ Total \$_____

The Fair Market Value determined by the Board of Review was:

Land \$_____ Improvement \$_____

Personal Property \$_____ Total \$_____

The Fair Market Value should be:

Land \$ Improvement \$

Personal Property \$ Total \$

* If you are not appealing personal property leave this section blank.

NOTE: If you disagree with the Board of Review's determination, you must file an appeal. The appeal of the decision of the Board of Review by one party is not an appeal of that decision from the other party. To protect your rights, if you disagree with the determination of the Board of Review, you should file an appeal to the Louisiana Tax Commission challenging the Board of Review's determination regardless of whether or not the other party has appealed that decision.

Your Name or Name of Entity:

Street Address, City, State, ZIP:_____

I/we appoint the following representative as my/our true and lawful agent and attorney-in-fact to represent me/us before the Louisiana Tax Commission. The representative is authorized to receive and inspect confidential information concerning me/our tax matters, and to perform any and all acts that I/we can perform with respect to my/our tax matters, unless noted below. Modes of communication for requesting and receiving information may include telephone, e-mail, or fax. The authority does not include the power to receive refund checks, the power to substitute another representative, the power to add additional representatives, or the power to execute a request for disclosure of tax information to a third party.

Representatives must sign and date this form on Page 3.

II. Authorized Representative:

Name:	
Firm:	
Street Address	
City, State, ZIP:	
Telephone Number:()	
Fax Number:()	
Email Address:	

III. Scope of Authorized Appointment:

Acts Authorized. Mark only the boxes that apply. By marking the boxes, you authorize the representative to perform any and all acts on your behalf, including the authority to sign tax returns, with respect only to the indicated tax matters:

A. Duration:

Tax Year _____ (Days, Months, etc.) _____ Until Revoked.

B. Agent Authority:

1. _____General powers granted to represent taxpayer in all matters.

2._____Specified powers as listed.

(a.)____File notices of protest and present protests before the Louisiana Tax Commission.

Telephone No.:

(b.) Receive confidential information filed by taxpayer.

(c.)____Negotiate and resolve disputed tax matters without further authorization.

(d.)____Represent taxpayer during appeal process.

C. Properties Authorized to Represent:

1.____All property.

2.____The following property only (give assessment number and municipal address or legal description).

Additional properties should be contained on separate page

NOTICES AND COMMUNICATIONS: Original notices and other written communication will be sent only to you, the taxpayer. Your representative may request and receive information by telephone, e-mail, or fax. Upon request, the representative may be provided with a copy of a notice or communication sent to you. If you want the representative to request or receive a copy of notices and communications sent to you, check this box.

REVOCATION OF PRIOR POWER(S) OF ATTORNEY: Except for Power(s) of Attorney and Declaration of Representative(s) filed on this Form, the filing of this Power of Attorney automatically revokes all earlier Power(s) of Attorney on file with the Louisiana Tax Commission for the same tax matters and years or periods covered by this document.

SIGNATURE OF TAXPAYER(S): If a tax matter concerns jointly owned property, all owners must sign if joint representation is requested. If signed by a corporate officer, partner, guardian, tax matters partner, executor, receiver, administrator, or trustee on behalf of the taxpayer. I certify that I have the authority to execute this form on behalf of the taxpayer.

IF THIS POWER OF ATTORNEY IS NOT SIGNED AND DATED, IT WILL BE RETURNED.

Signature

Date (mm/dd/yyyy)

Spouse/Other Owner Signature

Date (mm/dd/yyyy)

Signature of Duly Authorized Representative, if the taxpayer title is a corporation, partnership, executor, or administrator

Date (mm/dd/yyyy)

IV. Declaration of Representative:

Under penalties of perjury, I declare that:

I am authorized to represent the taxpayer identified above and to represent that taxpayer as set forth in Part III specified herein;

I have read and am familiar with all the rules and regulations promulgated by the commission;

I have fully complied with all rules adopted by the commission regarding professional conduct and ethical considerations.

Signature

Date (mm/dd/yyyy)

IF THIS DECLARATION OF REPRESENTATIVE IS NOT SIGNED AND DATED, THE POWER OF ATTORNEY WILL BE RETURNED. AUTHORITY NOTE: Promulgated in accordance with R.S. 47:1837, R.S. 47:1989 and R.S. 47:1992.
