OSRAP MEMORANDUM 15-34

TO: All ISIS State Agencies

FROM: John McLean, CPA
Director

SUBJECT: Instructions for Preparation of the Annual Fiscal Report (AFR)

Enclosed are the instructions and forms necessary for the completion of your reporting entity's Annual Fiscal Report (AFR) for the period ending June 30, 2015. The Office of Statewide Reporting and Accounting Policy (OSRAP) will prepare all of the depreciation schedules for movable property and buildings.

As in prior fiscal years, you will obtain the "lead" schedules for Schedules 1, 3, and 4 from BUNDL. There were no changes made to these forms. In an effort to aid agencies, applicable information in ISIS has been accumulated and the schedules produced. The lead schedules are to be returned with your completed AFR packet. **DO NOT RETYPE THE LEAD SCHEDULES.** Add the changes in the adjustment column on all schedules and adjust accordingly. OSRAP will provide the information needed for Note L (payroll accrual). You may contact your assigned analyst after July 25th to obtain this information. Please provide GASB 34 accruals on Schedule 14.

Schedules 1, 3, and 4 will be in BUNDL after the 8/15/15 close. The ISIS report numbers are 4G31, 4G32, and 4G33, respectively. **Any changes that are needed on these schedules should be made on the original. Also, any payments for delivery dates on or before 6/30 paid with Current Year Appropriations (4G03), which appear on the Schedule 1, will be in BUNDL. To verify column 2 on Schedule 1, the 2014 4G03 Report will be in BUNDL in archives.**

Several notes have been deleted for fiscal year 2014-15. These include: Summary of Significant Accounting Policies, certain disclosures in Note C, Capital Lease Assets, Seeds, Encumbrances, Leave, Pass-Through Grants, Government Mandated Nonexchange Transactions (Grants), Infrastructure, and Employee Termination Benefits.

Three new GASB statements are being implemented this year. Governmental Accounting Standards Board (GASB) Statement 68, *Accounting and Financial Reporting for Pensions,*

and GASB Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, an amendment to GASB 68 are effective for the fiscal ended June 30, 2015. GASB 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

There are no new schedules or note disclosure added to the ISIS packet due to the implementation of GASB 68 and 71. OSRAP will use information from the Employer Pension Reports and other data to obtain the necessary information.

GASB Statement No. 69 (GASB 69), *Government Combinations and Disposals of Government Operations*, establishes accounting and financial reporting standards for government combinations and for disposals of government operations that have been transferred or sold. Government combinations include a variety of transactions referred to as mergers, acquisitions, and transfers of operations. Combinations could involve combinations between governmental entities, combinations between a governmental entity and a not-for-profit or for-profit entity, and mergers and acquisitions of less than an entire legal entity. For more information related to GASB 69 see OSRAP Memo 15-14 (<http://www.doa.louisiana.gov/OSRAP/library/memos/15/OSRAP1514.pdf>).

As in the past, agencies should consider materiality before making adjustments to ISIS-generated schedules. Remember your agency reports are intended “to present fairly, in all *material* respects, the financial operations” of your agency. In this regard, the following table will be the basis for determining materiality and will assist you in your decision to adjust the system reports or submit them unchanged. If your aggregate adjustments are \$100,000 or more, we ask that you adjust the lead schedules regardless of the conclusions drawn from the materiality table. Additionally, in deciding whether adjustments should be made, you should use the aggregate amount of all adjustments. For example, if you have \$300,000 in expenditures with five adjustments totaling \$15,000 or more, you should record the adjustment. Each adjustment does not stand on its own. Materiality under the sliding scale method may be determined by multiplying the appropriate factor below by total revenues or expenditures. Using the table, apply the corresponding factor, interpolating as necessary between two factors.

<u>Revenues/Expenditures</u>	<u>Factor</u>
\$ 300,000	.050
1,000,000	.017
5,000,000	.015

Materiality factors are designed as an aid in completing the AFR. To ensure that the materiality table shown above is not impacting the state’s CAFR adversely, keep a record of all the differences you discover and do not include these on your financial reports. *This list of*

differences must be forwarded with the AFR packet to both the Louisiana Legislative Auditor and this office.

The forms and instructions are designed to meet the general needs of most reporting units; however, this should not preclude adaptations (after approval from this office) for units having unique reporting situations.

You are not required to submit copies of system reports with your AFR (except Schedules 1, 3, and 4). Please do **not** submit appropriation reports, agency trial balances, copies of any ad hoc reports, **nor the AFR instructions (pages 1-14)**.

Any changes from last year in the instructions, AFR, and notes appear in **bold lettering**. The completed packet should include the following:

1. Schedule 1 (General Operating Appropriation Funds, Schedule of Revenues and Expenditures - Budgetary Comparison, Current Year Appropriation –Budget - Legal Basis)
2. Schedule 3 (Schedule of Appropriated Revenue by Type - General Operating Appropriation Funds)
3. Schedule 3-1 (Schedule of Adjustments Due to Cash Basis Programs)
4. Schedule 4 (Schedule of Non-Appropriated Major State Revenue and Income Not Available)
5. Schedule 6 (Non- Appropriated Other Funds- Schedule of Revenues, Expenditures and Changes in Fund Balance)
6. Schedule 6-1 (Escrow Fund Schedule of Revenues, Expenditures, and Changes in Balances)
7. Schedule 10 (Schedule of Per Diem Paid Board/Commission Members)
8. Schedule 13 (Schedule of Interagency Receipts)
9. Schedule 14 (GASB 34 Revenue Accruals)
10. Schedule 14A (GASB 34 Expenditure Accruals)
11. Schedule 15 (Comparison Figures)
12. Schedule 16 (Cooperative Endeavors)

OSRAP has created the Financial Reporting and Accounting Support Portal (the portal) to electronically capture data for the compilation of the Schedule of Expenditures of Federal Awards (SEFA) for the year ending June 30, 2015. The portal is replacing the Schedule 8's. SEFA users will be notified when the web application is available.

The deadline to submit the AFR packet is August 31, 2015. This packet is on OSRAP's website at <http://www.doa.la.gov/OSRAP/afrpackets.htm> (select "ISIS"). An appendix to the AFR packets, which provides more detail on certain notes, may be found as a separate packet on OSRAP's website (see link above; select AFR Appendix).

Please return **two** completed hard copies to OSRAP, Post Office Box 94095, Baton Rouge, LA 70804-9095. Please **do not staple the reports; use a binder clip. Only one original signed affidavit is necessary.** Note that the affidavit sent to the OSRAP must be the original, signed

and notarized document, **while the affidavit sent to the Louisiana Legislative Auditor (LLA) should be sent electronically.**

A copy of the AFR should be electronically forwarded to the (LLA) along with the affidavit to LLAFileroom@lla.la.gov. Please send the AFR as a single document in multi-page Tagged Image File Format (TIFF). If you cannot view or send .tif files, please work with your IT staff to download one of the many free TIFF viewers from the internet. All currently supported Microsoft operating systems allow .tif viewing natively, and it is the most common open standard for this purpose. For those who need to image a document as a .tif, the software for your scanner(s), as well as a variety of copiers, should allow this function. If the scanner or copier is not configured to create a .tif, your IT staff (or appropriate designee) should be able to assist. For the most part, Microsoft operating systems will support .tif viewing and imaging. You may also send a single document in multi-page Portable Document Format (PDF) if you have the software/hardware capability. Please do not send zipped files or multiple single-page documents. If you have any questions, need further information, or are unable to forward the AFR electronically to the LLA please contact Donna Melancon-Bourgeois at 225-339-3822 or DMelancon@LLA.la.gov.

If you have any questions concerning the above, contact the OSRAP analyst assigned to your agency per the list on the next page.

SECTION: Instructions for Preparation of Annual Fiscal Report
UNIT TYPE: All ISIS State Agencies
PROCEDURES: Schedule 3

Page 2

Schedule 3 is a presentation of Revenue activity for the agency appropriation (general & auxiliary) activities. It is generally intended to reflect ISIS activities and is normally a presentation of financial data on a legal budgetary basis. Non-revenue items (i.e. T100, T110, T120, T130, T150, T170, T180, T190, T195, T200, T210, T220, T300, T310, T340, T350, T360, T370, T375, T380, and T385) are not shown on this schedule. Agencies on central cash management will receive a "lead" Schedule 3. The information on the schedule, as mentioned in the cover letter, is derived from data in ISIS. **DO NOT RETYPE THIS LEAD SCHEDULE.** Should you have adjustments, make pencil corrections on the lead schedule in Column VII and return it to this office with your packet. Remember adjustments less than those established using the materiality factors shown in the cover letter should not be made. The following is the method used in preparing the lead schedules:

1. In Column I enter the three digit ISIS Means of Financing Appropriation Number associated with the detail appropriated fund source.
2. In Column II enter the four digit ISIS revenue source code for revenue collections in that appropriated fund source.
3. In Column III enter by ISIS revenue source code the total cash receipts received and classified through June 30, 2015 from the June 30, 2015 Organization Responsibility Reports (2G00) or Appropriation Report (2G15). Do not include non-revenue items listed above.
4. Under Column IV enter by ISIS revenue source code the total cash receipts on deposit with the State Treasury but not classified as of June 30, 2015 (assumes classification subsequent to June 30, 2015). Refer to ISIS report 5G25 Prior Year Classification of Deposits on File as of 6/30/15 Report to obtain listing of unclassified receipts and to your July/August monthly transaction listings to determine subsequent classification type.
5. Column V is the total of Columns III and IV.
6. In Column VI enter by ISIS revenue source code the accounts receivable, which were collected and classified between 7/1/15 and 8/14/15, for the reported fiscal year within those appropriated sources, and were not included in either Column III or IV.
7. In Column VII agencies on central cash management would record material modified accrual adjustments to ISIS information. For example, cash received at 6/30 and classified in the 45 days must be footnoted so accounts receivable can be adjusted.
8. Column VIII "Total Revenue" is the total of Columns V, VI and VII. If classifications have been accomplished in accordance with established time frames, this amount should agree with the August 15, 2015 Organization Responsibility Report (2G00) or Appropriation Report (2G15) for fiscal year 2014-2015, except for adjustments in Column VII.

NOTE: *The Total Revenue figure may include revenue in excess of budget.* Direct General Fund Appropriation and Interim Emergency Board activity are not included on this schedule.

SECTION: Instructions for Preparation of Annual Fiscal Report
UNIT TYPE: All ISIS State Agencies
PROCEDURES: Schedule 3-1

Page 3

Section A is a method of adjusting 2014-2015 ISIS Means of Financing for departments (e.g. DHH) that have cash basis programs (such as Title 18 and/or 19). This schedule provides a means of reflecting revenue accrual data (both 2013-2014 and 2014-2015) using budgetary basis revenue data for those units having cash basis programs. If your agency has Federal cash basis grants, please accrue the revenue that you are to receive to cover the expenditures that have been incurred, if the grant was written with that specification. Units without these programs are not required to complete Schedule 3-1.

1. Column I - Enter the three digit ISIS Means of Financing Appropriation Number associated with each fund.
2. Column II - Enter the total revenue from Column VIII of Schedule 3 by means of financing.
3. Column III - Enter the accrual amounts established in 2013-2014 by means of financing, from the Schedule 3-1, column IV in your fiscal year 2014 AFR.
4. Column IV - Enter the 2015 cash basis program accruals by means of financing, i.e. revenues earned prior to June 30, 2015 but which will be deposited in the 2015-16 fiscal year during the period July 1, 2015 through June 30, 2016.
5. Column V-Equals Column II minus III plus IV.

Section B is a means of adjusting 2014-15 ISIS expenditures for departments that have cash basis programs. If your agency is required to complete this part of 3-1, call your designated analyst at the Office of Statewide Reporting and Accounting Policy for further instructions.

SECTION: Instructions for Preparation of Annual Fiscal Report
UNIT TYPE: All ISIS State Agencies
PROCEDURES: Schedule 4

Page 4

Schedule 4 is a presentation of non-appropriated (INA, major state and other non-appropriated) revenue activity occurring within the agency unit that is not available to finance operations. Although Schedule 4 is a presentation of financial data on a legal budgetary basis, it is normally equivalent to a modified accrual basis. Like Schedule 3, agencies on central cash management will receive a "lead" Schedule 4. DO NOT RETYPE THIS LEAD SCHEDULE. If you have adjustments, make pencil corrections on the lead schedule in Column VIII and return it to this office with your packet. The following is the method used in preparing the "lead" schedule:

1. In Column I enter the three-digit ISIS Appropriation Number and title associated with the Non-Appropriated Fund Source. (Income not available will not have a separate agency appropriation number. All Agencies will use XB2.)
2. In Column II enter the four-digit ISIS revenue organization number for the revenue source being reported.
3. In Column III enter the four-digit ISIS revenue source code.
4. In Column IV for each ISIS revenue source code enter total cash receipts classified through June 30, 2015 from the related ISIS Organization Responsibility Report (2G00). Do not include non-revenue accounts (i.e. T100, T110, T120, T130, T150, T170, T180, T190, T195, T200, T210, T220, T300, T310, T340, T350, T360, T370, T375, T380, and T385, if applicable).
5. In Column V enter, by ISIS revenue source code, the total cash receipts on deposit with the State Treasurer but not classified as of June 30, 2015 which were classified subsequent to June 30, 2015 and prior to August 15, 2015. Refer to 5G25 Prior Year Classification of Deposits on File as of 6/30/15 to obtain listing of unclassified receipts and to your monthly transaction listing to determine subsequent classification.
6. Column VI is the total of Column IV and V.
7. In Column VII, enter by ISIS revenue source code, the accounts receivables, which were collected and classified between 7/1/15 and 8/14/15 for the reported fiscal year and were not included in either Column IV or V.
8. In Column VIII agencies on central cash management would record material modified accrual adjustments (see definition on preceding pages) to ISIS information (e.g. cash received at 6/30 and classified in the 45 days must be footnoted so accounts receivable can be adjusted).
9. Column IX "Total Revenue" is the total of Columns VI, VII, and VIII. If classifications have been accomplished in accordance with established time frames, this amount should agree with the August 15, 2015 Organization Responsibility Report (2G00) (or you can use the ISIS screens) for fiscal year 2014-15, except for any adjustments in Column VIII.

Schedule 1 is intended to represent total general operating activities (both means of financing and expenditure activities authorized in the general and auxiliary appropriations acts) on a legal budgetary basis.

Schedule 1 is a “lead” schedule produced through ISIS. It will be made available to those agencies with expenditures and/or revenues on ISIS. DO NOT RETYPE THIS LEAD SCHEDULE. No adjustments should be made unless the adjustments are greater than those established using the factors discussed in the cover letter. Should you have adjustments, make pencil corrections on the lead schedule in Column IV and return it to this office with your packet. Adjustments to this schedule may include additions to the accrual columns. If you received goods and/or services on or before June 30, 2015 and liquidated these invoices from your fiscal year 2015 appropriations, this amount will not be reflected on your “lead” schedule. Material amounts of such payments may be reflected as an adjustment in Column IV. Material additions to accounts receivable would also be reflected as an agency adjustment in Section A of Column IV.

The following is the method used in preparing the “lead” schedule:

1. In Column I indicate:
 - A. Revenues - Total actual year-to-date receipts by Means of Financing (exception GF and IEB indicate total warrants drawn) from June 30, 2015, Appropriation Report. This should equal Column V of Schedule 3 plus any non-revenue activity such as T100, T110, T120, T130, T150, T170, T180, T190, T195, T210, T220, T300, T310, T340, T350, T360, T370, T375, T380, and T385, if applicable. NOTE: T200 should not be included on Schedule 1. NOTE: Increases will be due to unclassified cash and will equal the total of the revenue accounts shown on Run 5G25, *PY Classification of Deposits*.
 - B. Expenditures - Total actual year-to-date cash disbursements by programs at June 30, 2015, Appropriation Report by Agency (2G15). NON-ISIS agencies may obtain information from agency financial records.

NOTE: For ISIS agencies, Column I expenditures are adjusted by system accounts payable, debit memos, and returns of appropriation.

2. In Column II indicate:
 - A. Revenues - no information need be reported on these lines unless receipts classified to 2014-15 were recognized in error as revenue in the 2013-14 statement. (Note: This does not include Title 18 and 19 or ineligible patient fees for DHH.)
 - B. Expenditures - indicate those payments for goods and services received or rendered on or before June 30, 2014 and liquidated with fiscal year 2014-15 appropriation. ISIS Report 4G03 lists those documents you submitted with a June 30, 2014, or earlier delivery date and liquidated as a fiscal year 2014-15 payment. No adjustments should be made for inaccuracies unless the error is greater than those established using the sliding scale materiality factors discussed in the cover letter.

3. In Column III indicate:
 - A. Revenues - Total receivables on a legal budgetary basis by Means of Financing.
 - (1) General Fund and IEB receivables should equal the actual prior year warrants drawn and/or reversed between July 1 and August 14, 2015.
 - (2) Means of Financing receivables (lines 4 through 10) should equal Column VI on Schedule 3 plus any actual or accrued transfer activity (i.e. T110, T100, T130, T120, and T180) received or disbursed between 07/01/15 and 08/14/15. (Exception: for DHH agencies DO NOT include Title 18/19 accruals on Schedule 1.)
 - B. Expenditures – Total accrued liabilities by program may be derived by calculating all expenditures (account type 22) that were recorded during the thirteenth period. This would include system vouchers payable, debit memos, or returns of appropriations. Column III should represent total unliquidated bona fide obligations for goods and services received or rendered on or before 6/30/15. NOTE: ISIS Agencies: Should your June 30, 2015 Agency Trial Balance (2G01) reflect a balance for 6335, Vouchers Payable, you may obtain the breakdown by program from run 1G07B Unscheduled Payment Turnaround Report, and 1G26B EFT Unscheduled Turnaround Report at 6/30/15. Should you have credit memos, increase the appropriate program in Column I and decrease the respective amounts in Column III for the amount of the credit memo. Should you have payables, decrease the appropriate program in Column I and increase the respective amounts in Column III. The ISIS report will show accounts payable without a sign. *Debit memos will have a negative (-) sign beside the number.*
4. In Column IV agencies on ISIS would record accrual adjustments to system information. Remember, you should include all payables that were not liquidated in the 45-day close period with the prior year appropriations; however you should not include future scheduled lease payments that are shown in Note H. Maintain a detailed list of these payables to back up the amount shown on Schedule 1. **DO NOT INCLUDE GASB 34 REVENUE AND EXPENDITURE ACCRUALS.**
5. In Column V indicate the total of Column I, minus Column II, plus Column III, and plus or minus Column IV.
6. In Column VI indicate the revised appropriation amount, which should agree to the Appropriation Report by Agency as of August 15, 2015 or the latest approved BA-7.
7. Column VII "Variance" is the net result of Column VI minus Column V. NOTE: If Column VI is greater than Column V, the variance would be unfavorable for appropriated revenue and favorable for appropriated expenditures. If Column VI is less than Column V, the opposite would be the case.

SECTION: Instructions for Preparation of Annual Fiscal Report
UNIT TYPE All ISIS State Agencies
PROCEDURES: Schedule 6

Page 7

Schedule 6 is necessary only if the unit has non-appropriated operational activities (i.e. Chapel funds, Inmate Welfare funds, etc). **These funds are not held in the State Escrow Fund, but held by the individual institution for the residents or members.** Due to the possible diversity of activity type, a free format is provided. Be sure that the "Fund Balance, at beginning of year" equals the "Fund Balance, at end of year" on the prior year's report. Any adjustments to the beginning balance should be placed on the adjustment line.

Schedule 6-1 is used to account for the **Escrow Fund**, which is on the full accrual basis. This fund will present current year activity, receivables and payables that occurred during the 45-day close, and those amounts attributed to prior year activity and not classified to the system. The “Balance at the beginning of year” should be the amount of the prior year ending balance. This amount is on the full accrual basis and may be different from your system amount for the Prior Year Carryover (T190). If there is a difference, please make a notation. A credit to revenue is an addition/receivable and a debit to revenue is a deduction/payable. If your agency uses an expenditure organization, then expenditures are shown as a deduction/payable.

The Escrow Fund is used to collect assets that are held for others. Those assets held that belong to another state fund or state entity should be removed from the Escrow Fund and not reported on Schedule 6-1 for Escrow. “Removed” means do not show it at all in Escrow on the Schedule 6-1; otherwise including it will overstate your additions and deletions in Escrow because these amounts will also be reported in the other state fund or state entity. One example is taxes paid in protest. These taxes are accounted for in the Escrow Fund, but a portion of the taxes ends up in the General Fund. That portion that ends up in the General Fund will not be included and reported in the Escrow Fund on Schedule 6-1.

GASB provides for this requirement in GASB Statement 34, paragraph 111 as follows: Sometimes an agency fund is used as a *clearing account* to distribute financial resources to other funds of the government, as well as other entities. When this occurs, the portion of the clearing account balance that pertains to the other funds of the state should not be reported in agency funds. Rather, it should be reported as assets in the appropriate funds. The following are some organizations that we know are GASB Statement 34, paragraph 111 organizations that should be removed and not reported on Schedule 6-1.

The amounts for Schedule 6-1 can be obtained by adding together organizations that are **not** GASB Statement 34, paragraph 111 organizations from the 2G00, Organization Responsibility Report.

Please provide the GASB Statement 34, paragraph 111 amounts that have been excluded by organization on the Schedule 6-1 and indicate the fund in which the amounts will be ultimately reported.

Note: As all SAP agencies have the payroll clearing subfund, K98, it will no longer be necessary, or possible, for agencies to complete a Schedule 6-1 for payroll clearing accounts.

Page 11

Schedule 14 is for GASB 34 revenue accruals by funding source, organization number, and object. Revenues under the modified accrual basis are recognized when they become measurable and available and are consequently reflected on Schedules 1, 3, 3-1, and 4, for example. Under GASB 34, revenues that have become measurable, regardless of availability, should also be reflected. Record the gross revenues your agency has earned on Schedule 14, which are not reflected on any of the aforementioned schedules. Then list the allowance for uncollectibles by funding sources.

Using Schedules 3 and 4 please complete the following:

Insert the organization numbers and object code that pertains to the revenue that will have a GASB 34 accrual.

Column A – From Schedule 3 use column V and from Schedule 4 use column VI. This will be the total revenue at 6/30.

Column B – Enter your agency adjustment for the revenue.

Column C – Total of columns A plus B.

Column D – From Schedule 3 use column VI and from Schedule 4 use column VII. This will be the total accounts receivable at 8/14.

Column E – Enter your agency adjustment for the accounts receivable.

Column F – Total of columns D plus E.

Column G – Total of columns C plus F. These totals represent column VIII on Schedule 3 and column IX on Schedule 4.

Column H – Full accrual gross adjustments to the revenue/receivable from the prior year. These amounts are on the 2013-14 Schedule 14, column K.

Column I – Full accrual allowance amounts from the prior year. These amounts are on the 2013-14 Schedule 14, column L. This should be a negative amount.

Column J – Total of columns H and I.

Column K – Full accrual gross adjustments to the revenue/receivable for the current year. These amounts are from your agency and must include revenues earned by June 30, 2015 and not recorded in ISIS as well as those recorded in fiscal year 2016 that should have been fiscal year 2015 revenues.

Column L – Full accrual allowance amounts for the current year must be your estimated uncollectibles from the receivables not yet collected. These amounts are from your agency. This should be a negative amount.

Column M – Total of columns K and L.

Column N – Total of full accrual revenue at 6/30. Subtract column J from C.

Column O – Total of full accrual receivable at 8/14. Add columns F and M.

Column P – Total of columns N plus O.

In the last column, list, by source, the amounts included but not expected to be collected in one year.

Schedule 14A is for GASB 34 expenditure accruals by program.

Using Schedule 1, Section B, please complete the following:

Column A – Schedule 1, column I should be used. This will be the total expenditures at 6/30.

Column B – Enter your adjustments from Schedule 1, columns II and any agency adjustment for the expenditures.

Column C – Total of columns A plus B.

Column D – Use column III of Schedule I. This will be the total accounts payable at 8/14.

Column E – Enter your agency adjustment for the accounts payable.

Column F – Total of columns D plus E.

Column G – Total of columns C plus F.

Column H – Full Accrual gross adjustments to the 2013-14 expenditures/payables from the prior year, if applicable. These amounts may be included in your 2013-14 Schedule 14A.

Column I – Full accrual gross adjustments to the expenditures/payables for the current year. These amounts are from your agency.

Column J – Total of full accrual expenditures at 6/30. Subtract column H from C.

Column K – Total of full accrual payables at 8/14. Add columns F and I.

Column L – Total of columns J plus K.

PROCEDURES: Notes

Page 13

Note A - This amount must agree with the amounts shown by the State Treasurer. List where these monies are being held – i.e. cash in bank, cash on hand, receivable, or payable.

Note B – Indicate the inventory at June 30, 2015.

Note C - Deposits and Investments - The purpose of this note is to disclose the related risk associated with deposits and investments held for the state by financial institutions. Additional information for this note can be found on OSRAP's website (see Appendices Packet, Appendix A, at <http://www.doa.louisiana.gov/OSRAP/afrpackets.htm>).

1. Deposits with Financial Institutions – We only require disclosure of cash not in the State Treasury. Cash and cash equivalents include only those amounts on deposit in financial institutions and do not include cash on hand or petty cash maintained at your agency.

The total of Cash, Certificates of Deposit, and Other should be your reconciled bank balances at June 30th. The amounts reported in the bank balances section should be the ending balance(s) on your June 30th bank statement(s).

2. Investments - Those investments meeting GASB Statement 31 reporting requirements must be reported at fair value.

If you are reporting investments held outside the State Treasury, you must provide the additional disclosures as requested in Section 3 through 6 of this Note.

Note D - Unearned Revenue will be mainly from Department of Health and Hospitals, Department of Children and Family Services, Department of Education, and Governor's Office of Homeland Security and Emergency Preparedness. This represents the Federal revenue that was received during the fiscal year and not earned.

Note H – Sections 1 and 2 of this note apply only to those arrangements in which the agency is the lessee. Revenue leases, those leases where the agency is the lessor, are to be reported on this note in Sections 3 and 4. Do not include intra-agency leases. Intra-agency leases are leases between agencies in the primary government. For instance, if the Dept. of Children and Family Services (DCFS) leases space from Wildlife and Fisheries (WLF), then DCFS should not report this as an operating lease nor should WLF report this as a lessor lease. However, if DCFS leases office space from a component unit (e.g. LSU, Capital Human Services District, etc.), then DCSFS should report this as an operating lease and LSU or the component unit would report it as a lessor lease.

Note I – Related Party Transactions are transactions that an informed observer might reasonably believe reflects considerations other than economic self interest based upon the relationship that exists between the parties to the transaction. Examples of related party transactions include transactions (a) between a government and its related organizations, joint ventures, and jointly governed organizations; (b) between a government and its elected and appointed officials, management, or members of their immediate families; and (c) between a government and trusts for the benefit of employees, such as pension and

other postemployment benefit trusts that are managed by or under the trusteeship of the government's management.

Disclose the following regarding related party transactions:

- a. The nature of the relationship(s) involved
- b. A description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for the period for which the AFR is presented, and such other information deemed necessary to gain an understanding of the effects of the transactions on the AFR
- c. The dollar amounts of transactions for each of the period for which the AFR is presented and the effects of any change in the method of establishing the terms from that used in the preceding period
- d. Amounts due from or to related parties as of 6/30/CY and, if not otherwise apparent, the terms and manner of settlement.

Note K - In-kind contributions are often the result of a non-monetary match for a grant. An example would be the loan of office space by a local government to satisfy a match requirement on a federal grant.

Note L - The totals for this note can be found on the HR Report ZF75, SI Payroll Posting Report, which **will be provided by OSRAP to the agencies**. (Column I must agree with Note R, Payroll and Related Benefits Accrual, from FY 2014.) Remember to list all payroll accruals by program. Regardless of payroll accrual amounts, all sections of this note must be completed.

Note M- You must include any significant activities that occurred after June 30, 2015 that impact your agency and are not already reflected in the financial reports. This will include activities that may impact any subsequent fiscal year's operations and may include impairment of assets, bond sales, settlement of litigation, etc.

A. IMPREST FUNDS

The agency maintains a permanent Travel and Petty Cash Imprest Fund in the amount of \$_____ as authorized by the Commissioner of Administration and advanced by the State Treasurer's Office (STO) in accordance with Title 39. The funds are permanently established and periodically replenished from agency operating funds when expenditure vouchers are presented. At June 30, 20____, the petty cash consists of:

- *Cash in Bank Accounts \$_____
- Petty Cash on Hand \$_____
- Other Receivables \$_____

***Amounts included as cash in bank accounts above should also be included within the deposit section of Note C as deposits in bank per bank accounts.**

B. INVENTORY OF MATERIALS AND SUPPLIES

In general, inventories are recorded as expenditures when purchased. The value of inventory, determined under (perpetual or periodic) inventory system using the (FIFO, LIFO, etc.) valuation method, at June 30, 2015, is \$_____. NOTE: Do not count postage as inventory, but include it in prepayments, if material.

C. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS (If all agency cash and investments are deposited in the State Treasury disregard note C. See Appendices Packet, Appendix A, at <http://www.doa.louisiana.gov/OSRAP/afrpackets.htm>, for more information related to Note C)

1. DEPOSITS WITH FINANCIAL INSTITUTIONS

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose deposits that are insured with no custodial credit risk. GASB Statement 40 requires only the separate disclosure of deposits that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are either: 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

STATE OF LOUISIANA

A. Custodial Credit Risk

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are held by either a counterparty or held by a counterparty's trust department or agent but not in the entity's name. Repurchase Agreements are not subject to credit risk if the securities underlying the repurchase agreement are exempt from credit risk disclosure.

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 2015**

Beginning with fiscal year ending June 30, 2004, GASB Statement 40 amended GASB Statement 3. GASB Statement 40 requires only the separate disclosure of investments that are considered to be exposed to custodial credit risk. Those investments exposed to custodial credit risk are reported by type in one of two separate columns depending upon whether they are held by counterparty, or held by a counterparty's trust department or agent, not in the entity's name. In addition, the total amount and fair value columns still must include total investments (regardless of exposure to custodial credit risk). Using the following table, list each type of investment disclosing the carrying amount, market value, and applicable exposure to custodial credit risk:

<u>Type of Investment</u>	<u>Investments Exposed to Custodial Credit Risk</u>		<u>All Investments Regardless of Custodial Credit Risk Exposure</u>

***These obligations may not be exposed to custodial credit risk. See Appendices Packet, Appendix A, for a discussion of FNMA & FHLMC at <http://www.doa.louisiana.gov/OSRAP/afpackets.htm>

D. UNEARNED REVENUE

Unearned (formerly deferred) revenue represents revenue (generally federal) that was received in the current and/or prior fiscal year, but is not yet earned. Certain federal grants may fit this description; however, **do not adjust revenues on Schedules 3 or 4 for unearned revenue, regardless of materiality.**

Note: With the implementation of GASB 65, some of the amounts that were formerly recognized as deferred revenue may now be recognized as a deferred inflow. Do not report the amount qualifying as deferred inflows in this note (Note D). Instead, report these items in Note U, *Items Previously Reported as Assets and Liabilities*. See Appendix I in the Appendices Packet or Note U in this packet for more information on deferred inflows.

E. OPERATING AND CAPITAL GRANTS FOR GASB 34 PRESENTATION

Please provide the following: The total operating grants and contributions were \$ _____ and the total capital grants and contributions were \$ _____.

1) Operating Grants – represent total amount of grant revenues for the year that are restricted by the grantor for operating purposes or that may be used for either capital or operating purposes at the discretion of the grantee.

2) Capital Grants – represent the total amount of the revenues for the year from grants restricted by the grantor for the acquisition, construction, or renovation of capital assets.

The sum of both should equal total federal revenues on Schedule 3 plus current year federal accruals less prior year federal accruals. Occasionally the state may receive non-operating federal grants. If you have a non-operating federal grant, please identify and provide a description with the revenue amount on an attached sheet.

F. JUDGMENTS, CLAIMS, AND SIMILAR CONTINGENCIES

Obligations and losses arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund and are not reflected in the accompanying special purpose financial reports. The self-insurance fund is operated by the Office of Risk Management (ORM), the state agency responsible for the state's risk management program.

Should you have claims which have not been submitted to ORM, include a schedule of these claims. Answer the questions below for those claims not being handled by ORM. Note: Liability for claims and judgments should include specific incremental claim expenditures/expenses, if known, or if it can be estimated (e.g., legal fees for outside legal assistance). _____

In the current year, claim payments in the amount of \$ _____ were made and recoveries from settled and unsettled claims totaled \$ _____.

Disclose any guarantee of indebtedness for **exchange or exchange-like transactions** even if there is only a remote chance that the government will be called on to honor its guarantee. **Do**

STATE OF LOUISIANA

(Agency)

FOR THE YEAR ENDED JUNE 30, 2015

not disclose nonexchange financial guarantees below, but disclose them in Note V, Nonexchange Financial Guarantees.

Those agencies collecting federal funds, which have been informed that certain of their previously claimed costs were disallowed, should disclose the requested information in the schedule shown below. Show each possible disallowance separately.

G. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

OSRAP obtains OPEB information from the Office of Group Benefits (OGB) for the Plans that OGB administers; however, additional information is needed for plans that they do not administer. If your agency has an active or retired employee who is a member of the LSU System Health Plan, please provide the following information on these employees:

- The covered payroll for **FY 2013-14** [annual gross payroll (**not including related benefits**) of all active employees who participated in the LSU System Health Plan]\$_____; and
- OPEB contributions for **FY 2014-15** for employees who participated in the LSU System Health Plan (defined as the employer payments for *retirees'* cost of 2015 insurance premiums) \$_____.

Note that the covered payroll amount is from a previous year (FY 2013-14) because the actuarial figures provided in the valuation report to be used in the CAFR for fiscal year ended June 30, 2015 utilizes the data from this time frame.

Agencies that had employees who were members of the LSU System Health Plan in the prior year were as follows:

Office of the Governor
Secretary of State
Agriculture and Forestry

Division of Administration
Lieutenant Governor
Culture, Recreation, and Tourism

H. LEASE AND RENTAL COMMITMENTS

Lease agreements, if any, have non-appropriation exculpatory clauses that allow lease cancellation if the Legislature does not make an appropriation for its continuation during any future fiscal period. Total operating lease expenditures for fiscal year 2014-2015 amounted to \$ _____.

1. OPERATING LEASES – Do not include leases on state office buildings financed through Office Facilities Corporation

Operating leases are all leases which do not meet the criteria of a capital lease. Operating leases are grouped by nature (i.e. office space, equipment, etc.) and the annual rental payments for the next five fiscal years are presented in the following schedule. (NOTE: If lease payments extend past FY 2030, create additional columns and report these future minimum lease payments in five year increments.)

<u>Nature of lease</u>	<u>FY2016</u>	<u>FY2017</u>	<u>FY2018</u>	<u>FY2019</u>	<u>FY2020</u>	<u>FY 2021 -2025</u>	<u>FY 2026 -2030</u>

c. Land	_____	_____	_____	_____	_____	_____	_____
d. Other	_____	_____	_____	_____	_____	_____	_____
Total	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____

NOTE: Where five-year amounts are requested, please list the total amount (sum) for the five-year period, not the annual amount for each of the five years.

Rental expense for operating leases with scheduled rent increases is based on the relevant lease agreement except in those cases where a temporary rent reduction is used as an inducement to enter the lease. In those instances, rental expense is determined on either a straight-line or interest basis over the term of the lease, as required by GASB Statement 13, and not in accordance with lease terms. The agency does (does not) have leases with scheduled rent increases due to temporary rent reductions used as an inducement to enter the lease. [If the agency does have leases with scheduled rent increases, attach a schedule listing all such leases.]

2. CAPITAL LEASES AND LEASE PURCHASES - Do not include leases on state office buildings financed through Office Facilities Corporation

Capital leases are defined as an arrangement in which any one of the following conditions apply (1) ownership transfers by the end of the lease, (2) the lease contains a bargain purchase option, (3) the lease term is 75% of the asset life or (4) the discounted minimum lease payments are 90% of the fair market value of the asset.

Schedule A should be used to report all capital leases including new leases in effect as of 6/30/15. In Schedule B, report only those new leases entered into during fiscal year 2014-2015. NOTE: LEAF leases should not be included in these schedules.

A lease is classified as a direct financing lease when (1) any one of the four capitalization criteria used to define a capital lease for the lessee is met and (2) both the following criteria are satisfied:

- Collectability of the minimum lease payments is reasonably predictable.

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 2015**

- No important uncertainties surround the amount of the unreimbursable costs yet to be incurred by the lessor under the lease.

When a lease agreement does not satisfy at least one of the four criteria for reporting as a capital lease (common to both lessee and lessor accounting), or both of the criteria for a lessor lease (collectability and no uncertain reimbursable costs), the lease is classified as an operating lease. In an operating lease, there is no simulated sale and the lessor simply records rent revenues as they become measurable and available.

I. RELATED PARTY TRANSACTIONS

List all related party transactions as described in GASB 62, paragraphs 54 through 57 including the nature of the relationship, the transactions, the dollar amount of the transactions, and any amounts to or from which result from related party transactions.

J. ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES

On-behalf payments for fringe benefits and salaries are direct payments made by one entity to a third-party recipient for the employees of another, legally separate entity. One of the two entities party to on-behalf payments for fringe benefits and salaries may be a non-governmental entity. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends.

1. Reporting:

a. Employer Entity:

The amount of revenues recognized (received) during the year plus any receivables at year end by third-party recipients for fiscal year _____ is \$_____.

The amount of expenditures/expenses when the employer entity is not legally obligated to make payments is recognized as the amount of revenues recognized.

The amount of expenditures/expenses recognized for fiscal year _____ is \$_____.

The amount of expenditures/expenses when the employer entity is legally obligated to make payments is recognized based on the accounting standards applicable to that type of transaction. For example, if contributions are made to a pension plan, the expenditure/expense should be recognized following pension accounting standards. The amount of expenditures/expenses recognized for fiscal year _____ is \$_____.

b. Paying Entity:

A paying entity would not recognize any revenues for on-behalf payments for fringe benefits.

The amount of expenditures/expenses should be recognized in the same manner that the entity recognizes and classifies similar cash grants to other entities. The amount of expenditures/expenses recognized for fiscal year _____ is \$_____.

Examples are 1) pharmacy items donated to a state hospital from a pharmaceutical company, 2) food items donated to a state prison from the U.S. Department of Agriculture, or 3) donated fixed assets, recorded at fair market value, and also recorded in general capital assets. Do not include, within the in-kind contribution, funds contributed by local governments or nonprofit organizations to provide program matching shares.

L. PAYROLL AND RELATED BENEFITS ACCRUAL

Agencies will be required to reflect the 2014-2015 accrued personal services cost for this fiscal year on the accompanying financial reports. The following schedule will aid you in doing so. As most agency units pay their employees biweekly, this would require a fiscal year 2013-14 accrual calculation based on six (6) days and the fiscal year 2014-15 calculation will be based on seven (7) days. Agencies must also determine the federal match on this accrual calculation. Agencies must submit the payroll accrual by program.

M. SUBSEQUENT EVENTS

Describe events or transactions that occurred after the end of the fiscal period, but prior to the issuance of the AFR that has a material impact on the agency's financial report. An example of such an event is a settlement of litigation that was still pending at the end of the fiscal year.

N. LAND AND LAND IMPROVEMENTS (not reported to State Land Office or Facility Planning and Control)

Some agencies may acquire land or make land improvements that are not reported to the State Land Office or Facility Planning and Control. Land improvements are those betterments, improvements, and site preparations that ready land for its intended use. Some examples of land improvements would be excavation, filling, grading, and demolition of existing buildings, and removal or relocation of other property (telephone or power lines). Other land improvements are built or installed to enhance or facilitate the use of the land for a particular purpose and may include walking paths and trails, fences and gates, landscaping, sprinkler systems, fountains, and beaches. Land and land improvements should be reported at cost, estimated cost, or estimated fair value at date of acquisition and should include all expenses necessary to obtain title, such as legal fees.

List individually all land acquisitions and any improvements to land that the agency has made during the fiscal year that is not reported to the State Land Office or Facility Planning and Control:

O. IMPAIRMENT OF CAPITAL ASSETS AND INSURANCE RECOVERIES

GASB Statement 42 establishes accounting and financial reporting standards for impairment of capital assets and for insurance recoveries. Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset generally should be considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. See the Appendices Packet, Appendix B, at <http://www.doa.louisiana.gov/OSRAP/afrpackets.htm>) for more information on GASB Statement 42.

Please complete the schedule below for buildings and movable property that were permanently impaired in FY 2015. Insurance recoveries should be used to offset those impairment losses if received in the same year as the impairment. Include these insurance recoveries in the sixth column in the schedule below. {There are five different indicators of impairment described in Appendix B of the Appendices Packet at <http://www.doa.louisiana.gov/OSRAP/afrpackets.htm>. They include (1) physical damage, (2) enactment of laws, etc. List the appropriate number (1-5) to identify the indicator of impairment in the last column.}

P. INTANGIBLE ASSETS, including capitalized software (purchased or internally generated)

Currently, computer software is not required to be recorded in InCircuit’s Asset Management System (AMS); however, some entities use AMS for recording computer software. Computer software under OSRAP’s threshold of \$1 million should not be considered part of the State’s movable property. In order for OSRAP to determine the amount of computer software in AMS that should not be included in the State’s movable property, please provide the following for all computer software recorded in AMS with an acquisition cost between \$5,000 and \$1 million:

<u>Software Name (as it Appears in AMS)</u>	<u>Asset #</u>	<u>Acquisition Cost</u>
_____	_____	\$ _____
_____	_____	_____
_____	_____	_____
	Total	\$ _____

If your entity has purchased or licensed computer software with an acquisition cost of at least \$1,000,000 that is not recorded in AMS, please provide the following: (Note: To prevent OSRAP from double counting, only list software meeting the \$1 million threshold that is not in Protégé.) Also, list any internally generated software that meets the capitalization threshold of \$1 million. This would be comprised of costs that fall under the application development stage, which include the design of the chosen path (software configuration and software interfaces), coding, installation to hardware, testing (including the parallel processing phase), and data conversion (only to the extent required to make the software operational). See OSRAP Memo 09-34 (www.doa.louisiana.gov/OSRAP/library/memos/09/OSRAP0934.pdf) for more information on internally generated software.

The balance at 6/30/15 is the purchase price or acquisition price of any software that you're currently using that met the capitalization threshold when the software was placed in service. Additions include any new software that meets the threshold and placed in service the current year. Deletions include software that became obsolete in the current year or was no longer used this fiscal year.

In addition to purchased, licensed, or internally generated software, please complete the table below for any other intangible assets that your entity owns. Intangible assets include water, timber, and mineral rights: trademarks, copyrights, easements, and patents.

Note: Do not include land use rights, such as water rights, timber rights, and mineral rights associated with property already owned by the entity. Do not separate the cost of the land rights from the cost of the land. The reported value of the land (reported at historical cost) already includes consideration for all rights associated with the entity's ownership and it should not be increased upon implementation of GASB Statement 51. Only report land rights (e.g. mineral rights) as an intangible asset if your entity owns the land rights, but not the land associated with it.

List any other intangible assets that your agency has:

Q. REVENUES - PLEDGED OR SOLD (GASB 48)

1. PLEDGED REVENUES

Pledged revenues are specific revenues that have been formally committed to directly collateralize or secure debt of the pledging government, or directly or indirectly collateralize or secure debt of a component unit. Pledged revenues are revenue bonds that the State Bond Commission or the Louisiana Public Facilities Authority has authorized in your agency's name or in your agency's behalf.

R. PREPAID EXPENSES AND ADVANCES

Certain items are commonly paid for in advance. Examples are insurance premiums and rent. If your prepayments, along with your other adjustments, exceed the materiality levels as discussed on page two of the cover letter, you should disclose this amount, including postage below.

With the implementation of GASB 65, some of the amounts that were formerly recognized as prepaid expenses and advances may now be recognized as a deferred outflow. Do not report the amount qualifying as deferred outflows in this note (Note R). Instead, report these items in Note U, *Items Previously Reported as Assets and Liabilities*. See Appendix I in the Appendices Packet or Note U in this packet for more information on deferred outflows.

T. POLLUTION REMEDIATION OBLIGATIONS (Governmental Funds)

Since governmental funds do not accumulate resources for eventual payment of unmatured general long-term indebtedness, do not include these amounts in your financial statements. The following schedule lists all pollution remediation activities in which _____

STATE OF LOUISIANA

_____ (Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 2015**

(agency/department) is involved. Amounts paid in the 13th period for pollution remediation totaled \$_____.

All outlays for pollution remediation activities are reported as expenditures unless made for one of these following reasons. Expenditures meeting the following criteria are to be capitalized.

1. If made to prepare property for use when acquired with the expectation of pollution remediation;
2. If made to prepare property in anticipation of a sale up to the fair value after remediation;
3. If made to restore pollution-caused decline in service utility previously recognized as an asset impairment; or
4. If made to acquire assets that have a future alternative use after remediation is complete.

Items capitalized in fiscal year 2014-2015 consist of:

	Asset 1	Asset 2	Asset 3
Asset			
Capitalization criterion met (1-4 above)			
Cost			
Percentage of useful life used in pollution remediation			
Post-remediation useful life			

Disclosures

For recognized pollution remediation liabilities and recoveries of pollution remediation outlays, disclose the following:

- a. The nature and source of pollution remediation obligations (for example, federal, state, or local laws or regulations)
- b. The amount of the estimated liability (if not apparent from the financial statements), the methods and assumptions used for the estimate, and the potential for changes due to, for example, price increases or reductions, technology, or applicable laws or regulations
- c. Estimated recoveries reducing the liability.

For pollution remediation liabilities, or portions thereof, that are not yet recognized because they are not reasonably estimable, disclose a general description of the nature of the pollution remediation activities. For more information on measuring liability, see OSRAP Memo 09-24, <http://www.doa.la.gov/osrap/sagasb49.htm>.

Explanation of the GASB 49 Worksheet

- a Enter agency/department name
- b List projects reported in the prior fiscal year that had an outstanding liability at 6/30/14.
- c List projects that were overlooked or not included as remediation projects in previous fiscal years.
- d List remediation projects that were begun/identified in the fiscal year ending 6/30/2015.
- e Enter project number assigned by FP&C, DEQ, or other number assigned to identify project.
- f Year the project was begun--this is not necessarily the year remediation began; it should be the year the pollution was identified and includes time involved to develop a remediation plan and the actual remediation process.
- g This column is used to report those projects that were included/added in the previous fiscal year and had a balance outstanding at the end of that year.
- h This column is for reporting increases in the estimated remediation cost, whether from expanding the scope of the project to contracting for a specific service.
- i Record total expenditures related to the project made during the fiscal year, including those made in the 13th period [13th period expenditures are also shown separately in column AB (p)].
- j Record activities that decrease the estimated remediation liability that are not expenditures--for example, amounts included in original estimate were overstated and actual was less than what was recorded; scope of project not as extensive as originally estimated, etc.
- k The formula in this column sums columns J, L, N, and P (g, h, i, and j).
- l Indicate percentage of project completion in this column.
- m Amounts in this column represent the portion of the ending liability that are due and payable within the next 12 months.
- n Amounts in this column represent the portion of the ending liability that are not due and payable until after 6/30/16. This amount plus the amount in column V (m) must total the amount in column R (k).
- o This column is to identify amounts that have been or will be received from other sources such as other responsible parties or insurance proceeds to help cover the cost of remediation.
- p Record amounts expended on pollution remediation projects during the 13th accounting period in this column--this amount should be included in column N (i).
- q Provide reference and note explanations on an extra page, for example: (1) awaiting court decision.

U. ITEMS PREVIOUSLY REPORTED AS ASSETS AND LIABILITIES

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. For example, certain situations involving non-exchange transactions and certain situations involving sales and intra-entity transfers of future revenues are now required to be reported as deferred inflows of resources or deferred outflows of resources.

Example: Assume that the agency received a \$1 million nonexchange grant in May 2015 (FY2015), which was received prior to the start date (or time requirement) of the grant, but after all eligibility requirements were met. That amount would be considered a deferred inflow and would be recorded as such for the 6/30/15 beginning balance on the note below. The following fiscal year (2016), the time requirement was met for the entire amount of the grant received in May 2015 and the agency received another nonexchange grant in April 2015 for \$2.5 million, which was prior to the state date (or time requirement of the new grant), but after the eligibility requirements were met. The agency would report the following in the FY 2015 note provided below:

Deferred Inflows	Balance at <u>6/30/2014</u>	Prior Period <u>Adjustments</u>	Balance at <u>7/1/2014</u>	<u>Additions</u>	<u>Deletions</u>	Balance at <u>6/30/2015</u>
Grants Received in Advance of Meeting Timing Requirements	\$ <u>1,000,000</u>	\$ _____	\$ <u>1,000,000</u>	\$ <u>2,500,000</u>	\$ <u>1,000,000</u>	\$ <u>2,500,000</u>

Note: Formerly, the amounts above should have been recorded as unearned (deferred) revenue in Note D. Since the grant amounts received prior to the time requirements are now considered deferred inflows instead of unearned revenue, Note D should not include these amounts.

Refer to the Appendices Packet, Appendix I, for more details on GASB Statement 65 at <http://www.doa.louisiana.gov/OSRAP/afrpackets.htm>.
