1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state

3 government, state institutions, and other public entities; to provide for the

4 designation of projects and improvements; to provide for the financing thereof

5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1.(A) The following sums or so much thereof as may be necessary are

8 hereby appropriated out of any monies in the state treasury from the sources specified, from

9 federal funds and self-generated revenues belonging to the state of Louisiana and/or

10 collected by boards, commissions, departments, and agencies thereof, all for making capital

11 outlay and for the purposes and in the amounts specified herein for the Fiscal Year

12 commencing July 1, 2025, and ending June 30, 2026, subject to the conditions thereafter

13 provided:

14 A project with funding payable from General Obligation Bonds Priority 1

15 indicates that the funding for the project includes the reauthorization of funding which was

16 previously granted as a line of credit by the State Bond Commission in Fiscal Year 2024-

1 2025. As used in this Section, the term "general obligation bonds" means state general
2 obligation bonds or other evidences of indebtedness payable from the Bond Security and
3 Redemption Fund. The amount set forth in this Section opposite each project, or so much
4 thereof as may be necessary, is hereby appropriated and payable from the source of funding
5 indicated; provided, however, amounts appropriated and payable from federal funds may be
6 encumbered or expended only to the extent such amounts shall have been committed or
7 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
8 construction, and major repair projects appropriated by this Act may be retained until
9 completion of the project, even if no bona fide liability exists on the last day of the fiscal
10 year.

11 This Act shall constitute the comprehensive state capital outlay budget for the
12 2025-2026 Fiscal Year. Projects set forth which are payable from the proceeds available
13 from the sale of general obligation bonds shall have the priorities as indicated. The Request
14 for Line of Credit form used by the attorney general and Bond Counsel in evaluating
15 Louisiana Constitutional, Internal Revenue Code, and applicable income tax regulations
16 shall be filed with the commissioner of administration, State Bond Commission, and state
17 attorney general. No general obligation bond cash lines of credit shall be granted to fund any
18 lower priority project prior to the granting of general obligation bond cash lines of credit to
19 fund all higher priority projects (the "general rule"), except as hereinafter provided. This
20 prohibition against funding a lower priority project shall not apply upon a showing of an
21 impossibility or impracticality either to proceed with all unfunded higher priority projects
22 or to proceed with the funding of such projects or any part thereof through the issuance of
23 general obligation bonds for any reason. Such showing shall be stated in reasonable detail
24 in a certificate or certificates signed by the state agency responsible for administering the
25 funding, and filed with the commissioner of administration and the State Bond Commission
26 (hereinafter referred to as "the Commission"). Upon a determination by the Commission
27 that proceeding with such a project or the funding thereof through the issuance of general
28 obligation bonds is impractical or impossible, the Commission may then proceed with the
29 sale of general obligation bonds or the granting of cash lines of credit without regard to the
30 priority of the unfunded projects determined to be impossible or impractical.

1 Upon recommendation by the state agency responsible for administering the
2 funding, if it is determined at any time that proceeding with the project or with the funding
3 thereof is no longer impossible or impractical, the State Bond Commission may rescind the
4 certificate of impossibility or impracticality and may proceed with the project or with the
5 issuance of general obligation bonds or the granting of cash lines of credit to fund the
6 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
7 upon reviewing certificates as described above and determining that proceeding with such
8 projects or the funding thereof through the issuance of general obligation bonds is
9 impossible or impractical, may designate a lower priority for such projects. The Board's
10 determination and lower priority designation shall be submitted to the members of the
11 legislature for their approval in accordance with the provisions of Chapter 3-B of Subtitle
12 I of Title 39 of the Louisiana Revised Statutes of 1950. In accordance with the provisions
13 of Chapter 3-B of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever
14 at the written request of the appropriate legislators and agency, the Board determines that
15 an adjustment to a project description originally set forth in such capital budget adopted by
16 the legislature for a current fiscal year is necessary to correct a mistake in a project
17 description, clarify a description, change the scope of a description, or make any other
18 adjustment the Board deems necessary to implement the purpose of the project, such
19 adjustment shall become effective only upon the approval by majority vote of the elected
20 members of each house of the legislature in the manner provided for in Chapter 3-B of
21 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950.

22 If such approval is granted, notification by the chair or secretary of the Board of
23 the results of the balloting shall be transmitted to the State Bond Commission, which may
24 then proceed with the sale of general obligation bonds or the granting of cash lines of credit
25 for each change approved upon request of the commissioner of administration in accordance
26 with the general rule.

27 With respect to Priorities 1 through 5, a lower priority project may be moved to
28 a higher priority only upon a showing of an emergency or other cause not reasonably
29 anticipated by the legislature, which shall be stated in reasonable detail in a certificate signed
30 by the head of the appropriate department, political subdivision, or agency and filed with the
31 commissioner of administration and the Board. Upon a determination by the Board that such

1 project should be moved to a higher priority because of an emergency or other cause not
2 reasonably anticipated by the legislature, the Board shall designate a higher priority to the
3 project. The matter then shall be submitted to and be subject to the same approval by the
4 members of the legislature in the manner previously indicated in this Section. If such
5 approval is granted, notification by the chair or secretary of the Board of the change of
6 priority shall be transmitted to the State Bond Commission, which then upon request of the
7 commissioner of administration, may proceed with the sale of general obligation bonds or
8 the granting of cash lines of credit in accordance with the general rule. As to projects within
9 a priority, the State Bond Commission acting on requests submitted by the commissioner of
10 administration shall determine when such project, or phases thereof, shall be funded. In
11 making such determination, the State Bond Commission shall consider the amount of
12 proceeds of general obligation bonds to be made available in light of money and capital
13 market conditions; the expenditure requirements of the project; the time required for
14 architectural plans and drawings, public bidding, and site acquisition and preparation;
15 availability of receipt of federal monies; litigation affecting the undertaking or completion
16 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
17 other items of a similar nature bearing upon the possibility or the necessity to commence a
18 project or any particular phase thereof.

19 Any other provision of this Act to the contrary notwithstanding, projects
20 described in Priority 5 of this Act shall not be moved to a higher priority except upon one
21 of the following conditions: (1) Funding is necessary to complete or additionally fund a
22 project located elsewhere in the Capital Outlay Act. Determination of such condition shall
23 be made by the head of the appropriate department or agency by means of a certificate to
24 that effect filed with the Interim Emergency Board, who shall, by mail ballot, request
25 approval of such change and if approved by a majority of each house of the legislature it
26 shall be funded, or (2) unless required by an emergency or other cause not reasonably
27 anticipated by the legislature, to be in accordance with procedures set forth in this Section.
28 However, the State Bond Commission may authorize a non-cash line of credit for any
29 project in Priority 5 which represents that portion of construction contracts which were let
30 during a previous fiscal year, or construction contracts which will be let during the current
31 fiscal year, but which will not require cash expenditures during the year. Such non-cash

1 lines of credit, when combined with previously sold bonds or with higher priority bonds or
2 lines of credit, or with funds appropriated from other sources, will provide sufficient
3 appropriated funds to award equipment or construction contracts. Contracts shall not be
4 awarded without approval of the division of administration.

5 Upon approval by the State Bond Commission, and subject to compliance with
6 its policies and procedures and the procedures set forth herein, a line of credit providing for
7 the use of funds in anticipation of the sale of general obligation bonds may be granted to the
8 appropriate administering agency or department from the Comprehensive Capital Outlay
9 Escrow Account, or if there is not a sufficient amount available in such account, from other
10 available state cash in the state treasury, for capital improvement projects for which bond
11 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
12 for such projects, unless the attorney general advises that an impediment exists to the valid
13 issuance of the bonds on the date such line of credit is granted.

14 All bonds that are to be repaid, in whole or in part, by revenues generated by the
15 project shall be designated as "Reimbursement Bonds." The State Bond Commission shall
16 enter into such agreements as are necessary to provide that the agency or subdivision, whose
17 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
18 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
19 determined by the State Bond Commission.

20 Priority 1 general obligation bond funding shall be limited to:

21 (1) Projects and amounts which were previously authorized by Act 5 of the 2024
22 Regular Session of the Legislature; and which were granted cash lines of credit by the State
23 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2024-
24 2025.

25 (2) The reauthorization of the portion of the outstanding Fiscal Year 2024-2025
26 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
27 Fiscal Year 2025-2026 and therefore must be converted to Cash Lines of Credit in Fiscal
28 Year 2025-2026.

29 (3) Commitments made in the Higher Education Desegregation Settlement
30 Agreement.

1 Priority 2 general obligation bond projects are for the completion of plans and
2 specifications, land acquisition, site preparation, or for construction which will begin during
3 the fiscal year. It is presently anticipated that the listed projects will require the sale of
4 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

5 Priority 3 general obligation bond projects are for the preparation of plans and
6 specifications, land acquisition, site preparation, or for construction and shall be limited to
7 funding for the portion of construction contracts which will not require cash expenditures
8 during the fiscal year. The projects in this category shall be considered future year projects
9 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
10 will not require the sale of bonds or extension of lines of credit during the fiscal year.

11 Priority 4 general obligation bond projects are for the preparation of plans and
12 specifications, land acquisition, site preparation, or for construction and shall be limited to
13 funding for the portion of construction contracts which will not require cash expenditures
14 during the fiscal year. The projects in this category shall be considered future year projects
15 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17 Priority 5 general obligation bond funding shall be limited to funding for the
18 portion of construction contracts which will not require cash expenditures during the fiscal
19 year. These funds, when combined with previously sold bonds or with higher priority bonds
20 on lines of credit, or with funds appropriated from other sources, will provide sufficient
21 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
22 award of these contracts.

23 In accordance with the cash management plan adopted pursuant to R.S.
24 48:251(D) and the provisions of Act 161 of the 1998 First Extraordinary Session, the
25 Department of Transportation and Development is authorized to enter into contracts or
26 agreements for projects approved pursuant to the Highway Priority Program, Airport
27 Construction and Development Priority Program, Port Construction and Development
28 Priority Program, and Statewide Flood Control Program for projects bid and awarded,
29 authorized, or commenced during the fiscal year which do not require cash expenditures for
30 the full contract or agreement amount.

12 earned from the investment of general obligation bond or note proceeds in the

23 and audit purposes. The commissioner of administration may direct that funding in the
24 various statewide and/or multiple parish projects for improvements for state facilities may

30 existing project funds relating to the settlement and/or vendor rebates and appropriated in
31 this Act or any previous Capital Outlay Act including those previously appropriated funds

1 that become unavailable. Approval of the Joint Legislative Committee on the Budget will
2 be obtained if the settlement and/or vendor rebates will be added to any projects in this Act
3 or any previous Capital Outlay Act which are unrelated to the project from which the
4 settlement and/or vendor rebates were received. The Office of Facility Planning and Control,
5 Division of Administration is authorized to receive insurance payments and are hereby
6 authorized to immediately repair facilities that suffer insurance losses without those projects
7 being included in the Act and shall report to the Joint Legislative Committee on the Budget
8 any expenditures from insurance funds received pursuant to this section. A portion, as
9 determined by the commissioner of administration and not to exceed one percent (1%), of
10 the funding for projects which qualify for the Percent for Art Program and not to exceed
11 \$450,000 for an individual, qualifying project, may be transferred from the qualifying
12 project budgets, to the Department of Culture, Recreation and Tourism for costs of acquiring
13 art and administering the program. For all Percent for Art Program projects in this or any
14 previous capital outlay, up to ten percent (10%) of the aforementioned one percent (1%) may
15 be used for the costs of administering the projects.

16 Section 6. No later than February 1, 2026, agencies administering capital outlay
17 projects will submit reports identifying completed projects and cash balances to the Joint
18 Legislative Committee on Capital Outlay pursuant to the reporting requirements of R.S.
19 39:105 and R.S. 39:116.

20 Section 7. The commissioner of administration, with the approval of the Joint
21 Legislative Committee on the Budget, is authorized to supplement or substitute the
22 appropriations specified in this or previous capital outlay acts with any federal or other funds
23 which are or may become available and such funds shall be deemed appropriated in specific
24 amounts necessary for the purposes of this Act. Any funds received by the State Bond
25 Commission as a result of a prepayment of reimbursement contracts as authorized by law
26 and the policy and procedure for reimbursement contracts of the Department of Treasury,
27 office of State Bond Commission, shall be deposited as set forth in such policy and
28 procedure and shall be deemed available and appropriated in specific amounts necessary for
29 the purposes of this Act pursuant to the procedure set forth in this section.

30 Section 8.(A) All projects herein authorized and funded shall be subject to the
31 provisions of R.S. 39:101 through 128. With the exception of appropriations made to the

5 Enrichment Program or the Department of Transportation and Development, all funds herein
6 appropriated shall be considered as having been appropriated directly to the Office of
7 Facility Planning and Control, Division of Administration. All cooperative endeavor
8 agreements for non-state entities shall be prepared by the appropriate administering agency
9 and submitted to the office of State Procurement for review and approval. As part of its
10 review, the office of State Procurement shall consult with bond counsel to the State relative
11 to any federal tax issues.

12 (1) Notwithstanding anything contained in this act to the contrary or any other
13 provision of law, the appropriations made for the Louisiana Stadium and Exposition District
14 shall be appropriated directly to the Louisiana Stadium and Exposition District, and are
15 public purposes pursuant to the provisions of Article VII, Section 14 of the Constitution of
16 Louisiana primarily for economic development, including the generation of tax revenue,
17 creation of jobs, and the generation of tourism, and may be used to reimburse any
18 expenditure made prior to the granting of a line of credit or the sale of bonds by the State
19 Bond Commission, determination by the State Treasurer that cash funding has been
20 deposited in the Comprehensive Capital Outlay Escrow Account for the project.
