Chapter 17. Purchases of Service by Reinstated Employees

§1701. Purchases of Service by Reinstated Employees

A. When an employee is reinstated to a position in state government by the Department of Civil Service or a court of law, the employee is entitled to receive retirement service credit for the period of time that is reinstated provided payment of employee and employer contributions, plus interest, is made to the retirement system within 60 days of the reinstatement.

B. If reinstated, the employee shall pay an amount equal to the current employee's contributions based on the earned compensation for the period of time that was reinstated. The employing agency shall pay the employer contributions that would have been due plus compound interest at the actuarial valuation rate for all contributions payable from the date the contribution was due until paid.

C. When a reinstated employee is entitled to back pay from the employing agency, the agency shall remit the employer and employee's contributions that would have been due if the employee had been employed during that time, plus interest. The agency shall also provide LASERS with a report of earnings on a monthly basis for the period for which the individual was reinstated.

D. If a member has received a refund of contributions after a wrongful termination, he must repay the refund not later than the sixtieth day following the first day the member returns to work after reinstatement is ordered for the member's retirement status and service credit to be fully restored.

E. Any costs to the retirement system associated with these procedures shall be paid by the employing agency.

§1703. Effect of Reinstatement

A. Employees reinstated into state government shall be entitled to purchase service credit as provided in this Chapter, and the employee shall be treated as if he was a member during this period of purchased service credit, except that the reinstated employee will not be entitled to partial repurchase provisions for the service credit that is reinstated through legal action.

B. The reinstated employee's date of hire prior to the wrongful termination shall be used for retirement purposes, if any contribution refund that the member received is repaid not later than the sixtieth day following the first day the member returns to work after reinstatement is ordered. If the member repays all or any portion of such contribution refund after the sixtieth day following the first day the member returns to work after reinstatement is ordered, the repayment shall be treated in the same manner as a payment for any

other refund and the date of hire for retirement purposes shall be the first day the member returns to work after reinstatement is ordered.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:515.

HISTORICAL NOTE: Promulgated by the Department of Treasury, Board of Trustees of the State Employees' Retirement System, LR 22:373 (May 1996), amended LR 25:2466 (December 1999).

§1705. Service Credit for Dual Employment

A. Any active member who qualifies to purchase service credit under the provisions of R.S. 11:191.B may purchase the service credit to which he would have been entitled in the system had he been an active contributing member of the retirement system during the full term of his employment by paying to the system an amount that totally offsets the actuarial cost of the receipt of the service credit.

B. The employer for that employee may pay one-half of the actuarial cost of the receipt of the service credit, thereby reducing the member's cost to one-half of the actuarial cost of the service credit. If the employer pays one-half of the actuarial cost for one employee, it shall be obligated to pay one-half of the actuarial cost of all employees who qualify to purchase this service credit.

C. The full amount must be received by the system, whether the member is paying the full cost, or the employer is paying one-half and the member one-half, prior to any service credit being attributed to a member's account. The amount must be paid in a lump sum.

D. A fee of at least \$75 (to be set by the system's actuary) must be paid to the system's actuary by the individual requesting the calculation. Payment must be made before the request for calculation will be forwarded to the actuary.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:515.

HISTORICAL NOTE: Promulgated by the Department of Treasury, Board of Trustees of the State Employees' Retirement System, LR 22:373 (May 1996).

§1709. Partial Repayment of Refund of Contributions

A. If a member elects to repay part of a refund, he must repay the contributions for the most recent service credit first. For example, if a member received a refund for service from January 1, 1991 through December 31, 1993, and elects to repay one year of service, he/she must repay the contributions for 1993 first.

B. Partial payments must be made in increments based on service within a calendar year with the most recent year(s) repaid first. Example: A member worked from June 1, 1990 through April 30, 1993 then received a refund. The refund may be repaid in the following order:

1. January 1, 1993 through April 30, 1993;
2. January 1 through December 31, 1992;
3. January 1 through December 31, 1991; then

4. June 1 through December 31, 1990.

C. If a member has both full time and part time service credit that was refunded, the years of full time service must be repaid first. When there is both full time and part time service within the calendar year(s), LASERS shall have the authority to determine the calendar year of service credit that must be repaid first. As a general rule, the year(s) with the most full time service must be repaid before the year(s) with more part time service.

D. Upon receipt of the partial payment, the service credit for the calendar year repaid will be restored to the member.

E. A member may receive three invoices in a 12-month period at no cost. Each additional invoice within the 12-month period will cost \$75 each.

F. Interest at the actuarial rate will be calculated from the date of the refund was issued to the date of the repayment. Interest will be compounded on an annual basis.

G. The partial repayment must be made in a single payment.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:515.

HISTORICAL NOTE: Promulgated by the Department of Treasury, Board of Trustees of the State Employees' Retirement System, LR 25:2467 (December 1999), amended LR 29:2859 (December 2003).

B. All compensation for such service, which meets the criteria of R.S. 11:403, shall be recognized by the system, and employer and employee contributions must be paid thereon.

C. Any employee who is part-time, seasonal, or temporary, as defined in 26 CFR 31:312(b)(7)-2, or in any successor regulation, shall not be or become a member of the system, except membership for these employees shall be mandatory if the employee has 10 or more years' creditable service in the system.

§2301. Terms and Conditions of Renunciation of Benefit

A. Any person eligible to receive, or receiving, a benefit from the Louisiana State Employees' Retirement System may renounce such benefit under the following terms and conditions.

1. The renunciation shall be unconditional and irrevocable. Once a benefit is renounced, LASERS shall have no further obligation or liability with respect to that benefit, and the person renouncing the benefit shall, under no circumstances, be eligible to receive that benefit.

2. A base benefit may be renounced in whole or in part. An adjustment to a base benefit (cost-of-living adjustment, adjustment for inflation, or one-time supplemental payment) may only be renounced in its entirety. If an adjustment is renounced, the base benefit need not be renounced.

3. If more than one person is entitled to receive a particular survivor benefit, each person entitled to a portion of the benefit may renounce his entitlement. The person or persons who continue to have an entitlement in that benefit shall receive the benefit to which they are entitled without consideration of the person who becomes ineligible through renunciation. Any adjustment shall be prospective only.

4. If the party making the renunciation is married, the spouse must join in the renunciation.

5. If the person making the renunciation is subject to an executed and effective community property settlement, only that portion of the benefit due the person making the renunciation may be renounced, except as provided for in R.S. 11:446.E.

6. If the person making the renunciation is legally separated or divorced, but is not subject to an executed and effective community property settlement, the renunciation must be approved by the court having jurisdiction over the separation or divorce.

7. If the person making the renunciation is retired and has named a joint and survivor beneficiary, the renunciation cannot affect the joint and survivors' beneficiary or benefit, including adjustments to the joint and survivor benefit.

8. If a benefit is renounced by a member prior to receipt by the member of a sum equal to his or her accumulated contributions, the balance of the accumulated contributions will be paid to the member.

9. A renunciation must be made on a form provided by LASERS, and must be executed before a notary public and two witnesses, neither of whom may be a spouse nor presently named beneficiary. The renunciation is effective and irrevocable when received by LASERS.

10. A person revoking or participating in renunciation of a benefit must hold LASERS harmless from such action.

11. A renunciation may not be used to terminate active participation in LASERS.

12. Amounts credited to a DROP account cannot be renounced.

13. A benefit or portion of a benefit that has been renounced may be used to recoup benefits or refunds of accumulated contributions paid by administrative error or mistake.

14. Only those persons who have selected the maximum benefit or Option 1 under R.S. 11:441 may renounce their entire monthly benefit.

B. LASERS makes no representation with respect to the effect of a renunciation on a person's eligibility for receipt of any state or federal benefits, or for participation in any private, local, state, or federal program. Eligibility for or participation in such programs, or eligibility for or receipt of such benefits, is an issue for which the person making the renunciation is solely responsible. Ineligibility for or termination of participation in such programs or benefits shall not affect the irrevocable character of the renunciation.

§2713. Time for Disbursement

A. The DROP account must be totally disbursed within the expected lifetime of the participant in accordance with federal laws. The expected lifetime is determined based on the age of the participant on the date of termination. All funds from the DROP account must be withdrawn in accordance with the Internal Revenue Services Guidelines.

B. Disbursements from the DROP accounts shall be made on the first day of each month; if the first is a weekend or holiday, the disbursement shall be made on the following workday.

C. When a retiree reaches age 73, mandatory annual distributions shall begin in accordance with IRS regulations. The amount of the distributions will be recalculated annually.

D. Requested withdrawals from DROP accounts which would leave a balance in that account of \$500 or less shall be processed as a request for disbursement of the entire balance. All such withdrawal requests shall result in the closing of the account. LASERS may, at its option, conduct audits to identify DROP accounts with a balance of \$500 or less and may disburse the entire amount to the person in whose name the account exists or to their beneficiary after giving notice of at least 30 days prior to disbursement.

All amounts which remain credited to the individual's subaccount after termination of participation in the plan, which is not transferred to a self-directed subaccount under R.S. 11:451.1, shall be credited with interest at the end of each plan year at a rate equal to the realized return on the system's portfolio for that plan year as certified by the system actuary in his actuarial report, less 1/2 of 1 percent.

B. Plan year shall mean fiscal year. The actual posting of interest shall not be performed until the system actuary's report is approved by the Public Retirement Systems Actuarial Committee.

C. Interest shall not be paid on funds transferring to the Self-Directed Plan. DROP participants who are vested under LAC 58:I.4103 who choose to transfer their funds to the SDP shall not be paid DROP interest under this Section beginning on the date LASERS receives the participant's request for transfer. DROP participants who were not vested under LAC 58:I.4103 shall not be paid DROP interest under this Section.

Subchapter D. "New" DROP

Editor's Note: To the extent that the above provisions are not impacted by the following Sections, they shall apply to the new DROP. Any of the above provisions which conflict with the following provisions under the new DROP, the following provisions shall control.

§2719. Eligibility

A. Members who become eligible for retirement on or after January 1, 1996 will only be eligible for the new DROP. Members who were eligible for retirement on or prior to December 31, 1995 will have the option of joining either DROP, unless they have been eligible for regular retirement in excess of three years and 60 days.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:515.

HISTORICAL NOTE: Promulgated by the Department of Treasury, Board of Trustees of the State Employees' Retirement System, LR 22:373 (May 1996).

§2721. Participation in New DROP

A. A member will be eligible for DROP as soon as he is eligible for retirement.

B. DROP participation will be limited to three years.

C. The member must enter DROP within a "window" of time. If he does not enter DROP within the window, he loses his right to enter DROP.

D. The "window" begins 60 calendar days after his earliest date of eligibility for retirement and continues for three years and 60 days from the date of eligibility. In effect, the window sets an ending date for DROP participation. Eligibility to participate in DROP must end no later than three years and 60 days after the first retirement eligibility date. A member may enter DROP on the date he is eligible for regular retirement, without waiting 60 days to start DROP; however, he may only participate in DROP for three years.

E. If a member waits to enter DROP at some point after eligibility, the length of time he may participate in DROP is reduced. For example, if he enters DROP one year after first becoming eligible, he can stay in DROP for two years and 60 days.

F. The participant may not end DROP prior to the stated ending date unless he terminates employment. This is a change from the old DROP. Also, the stated participation period cannot be extended.

G. The participant may elect to continue working after DROP participation. The calculation of the retirement benefit will be the same as in the old DROP program, except for the conversion of unused leave.

H. The amount of unused sick and annual leave at the date of termination can be converted to retirement credit, including the leave that was earned during the DROP participation period. If the participant terminates at the end of DROP or works less than three years after DROP, the benefit based on the leave conversion will be calculated using the final average compensation at the beginning of DROP participation. If the participant works more than three years after DROP participation, the benefit based on the leave conversion will be calculated using the final average compensation for the period of employment after DROP.

I. The participant may choose to receive the actuarially reduced lump sum payment for unused leave in lieu of converting it to retirement credit.

J. Anyone who elects to participate in DROP cannot elect the initial benefit option (lump sum provision).

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:515.

HISTORICAL NOTE: Promulgated by the Department of Treasury, Board of Trustees of the State Employees' Retirement System, LR 22:373 (May 1996).

§2723. Initial Benefit Option

A. This option will be available on January 1, 1996. Only members who have not participated in DROP can select this option. Disability retirees cannot select this option.

B. This option may be selected at the time of retirement and will pay the retiree a lump sum amount at the time of

retirement, and the future monthly retirement benefit will be reduced on an actuarial basis.

C. The retiree must select the retirement option first. He cannot select Option 1. He can then elect to receive part of his future retirement benefits in an actuarially reduced lump sum payment. The value of the lump sum cannot exceed 36 months of the maximum monthly retirement benefit. The retiree may elect to receive the maximum lump sum amount or any smaller amount.

D. The retiree may also elect to receive unused leave in a lump sum payment rather than converting it to retirement credit. This election must be made by the retiree before the initial benefit option can be calculated.

E. The monthly retirement benefit of both the retiree and beneficiary will be actuarially reduced to offset the cost of the initial benefit. If the retiree retires under the special provisions for wildlife agents or judges and he selects the initial benefit option, his monthly benefit will also be actuarially reduced.

F. The retiree can receive the "initial benefit" in a lump sum payment, or it can be deposited in an account like the DROP accounts. The interest earnings and withdrawals will be the same as for DROP accounts. The main difference is that it will be created at the time of retirement with a lump sum instead of accumulated over a DROP participation period. The account will begin accumulating interest at the time it is set up.

G. If a retiree selects the initial benefit and later changes, the retirement option to the maximum due to divorce or death of the beneficiary, the maximum benefit will be actuarially reduced at that time.

H. A retiree who elects this option and later returns to work will be governed by the same rehired retiree provisions as other retirees.

I. Future COLAs will be based on the amount of the monthly reduced benefit.

§2903. Instances Where Spousal Consent Is Not Required

A. The following list sets out those instances where spousal consent is not necessary and will not be required:

1. the spouses are divorced, in which case LASERS needs a certified copy of a judgment of divorce;
2. the spouse is legally incompetent to give consent, in which case the spouse's legal guardian may give consent, even if the guardian is the member, in which case LASERS needs a certified copy of the court order appointing the guardian;
3. the spouse has abandoned the member, in which case the following shall be required:
 - a. a certificate by the local newspaper certifying that a legal notice has been run for at least three days requesting information from anyone knowing the whereabouts of the spouse; and

 - c. a certified copy of a court order indicating that the spouse is an absentee or has abandoned the member;
4. the spouses have entered into a matrimonial agreement establishing a regime of separation of property pursuant to La. C.C. Art. 2328 between them which remains in effect at the time of retirement, in which case LASERS needs:
 - a. a certified copy of the agreement; and
 - b. a notarized affidavit signed by the spouses affirming the existence of a matrimonial agreement as required by this rule.

§3117. DROP Benefits

A. The DROP benefit of any member may not exceed the annual benefit authorized by Section 415(b) of the *Internal Revenue Code*. For purposes of determining whether a member's benefit exceeds the limitations of this Subsection, the following shall apply:

1. Adjustment if benefit not a straight life annuity.

a. If the form of benefit is other than a straight life annuity, such benefit shall be adjusted actuarially to the equivalent of a straight life annuity to determine whether the limitations set forth in this Subsection are met.

b. For the purposes of this Subsection, no adjustment shall be taken into account for any ancillary benefit which is not directly related to retirement income benefits.

2. Adjustment if benefit commences before age 62.

a. If the benefit distribution commences before age 62, the actual retirement benefit shall not exceed the adjusted dollar limitation. The adjusted dollar limitation shall be the equivalent, determined in a manner consistent with reduction of benefits for early retirement under Section

C. Notwithstanding the foregoing, the benefit payable to a member shall not be deemed to exceed the limits of Subsection A if the total benefits payable to a member under all defined benefit plans maintained by the state, its agencies, or its political subdivisions do not exceed \$10,000 and the state, its agencies, or its political subdivisions have never maintained a defined contribution plan in which the member has participated.

§1505. Establishment of Plan

A. The plan sponsor and plan administrator intend that the plan conform to the *Internal Revenue Code* of 1986 requirements for favorable federal tax treatment under IRC §401(a) and is a governmental plan within the meaning of

IRC §414(d), with employee contributions picked up under an arrangement consistent with IRC §414(h)(2). Therefore, the plan administrator will construe and interpret the plan to state provisions that conform to the requirements of IRC §401, as applicable to a governmental plan under IRC §414(d). When the *Internal Revenue Code* is amended through subsequent legislation, or interpreted through revenue rulings, the plan administrator will construe and interpret the plan as stating provisions consistent with such amendment of relevant law.

B. To the extent required for this plan to qualify under IRC §401(a), the provisions of this plan shall be construed, consistent with treasury reg. §1.401-1(b)(1)(i), to provide:

1. a definite pre-determined formula for allocating contributions and a definite pre-determined formula for allocating investment earnings (and losses) among accounts;
2. periodic valuation of plan assets (including investment options) and trust assets at least once each year;
3. periodic valuation of accounts at least once each year; and
4. distribution of plan accounts after severance from employment or the occurrence of some event.

C. This Chapter states the provisions of an optional retirement plan for the classes of employees covered by R.S. 11:921 et seq. The purpose of the optional retirement plan is set out by R.S. 11:922. The provisions of R.S. 11:921 et seq., are incorporated as if fully set out in this *Louisiana Administrative Code*.

D. The plan is established and maintained with the intent that the plan conforms to the applicable requirements of the retirement system law. The provisions of the plan shall be interpreted whenever possible to state provisions that conform to the applicable requirements of the enabling statute. When the enabling statute is amended or interpreted through subsequent legislation or regulations or an attorney general opinion, the plan should be construed as stating provisions consistent with such amendment or interpretation of the applicable law. In the event of a conflict between the *Louisiana Administrative Code* and the enabling statute, the enabling statute will supersede.

E. Subject only to the Constitution of Louisiana, the Louisiana legislature has the right to amend the plan at any time. To the extent consistent with the retirement system law, the plan administrator has the right to amend the plan to implement applicable federal and state law at any time. Any amendment of the plan and trust shall not be effective to the extent that the amendment has the effect of causing any plan assets to be diverted to or inure to the benefit of the plan administrator, ORP provider, or any employer, or to be used for any purpose other than providing benefits to participants and beneficiaries and defraying reasonable expenses of administering the plan and trust.

F. The plan is established for the exclusive benefit of participants and their beneficiaries. Consistent with IRC §401(a)(2), no amount held under the plan will ever inure to

the benefit of the plan sponsor, any employer, the plan administrator, the ORP provider or any successor of any of them, and all plan investments and amounts will be held for the exclusive purpose of providing benefits to the plan's participants and their beneficiaries. Notwithstanding anything in the plan to the contrary, plan assets shall not be used for or diverted to purposes other than for the exclusive benefit of participants, beneficiaries, and alternate payees before the satisfaction of all liabilities to participants, beneficiaries, and alternate payees, except that payment of taxes and administration expenses may be made from the plan assets as provided by the plan or permitted by applicable law.

G. Plan contributions are invested, at the direction of each participant, in one or more funding vehicles provided by ORP providers to participants under the plan. Required participant plan contributions are designated picked up so as not to be included in participants' gross income for federal income tax purposes as provided by IRC §414(h)(2).

H. At no time shall the plan assets be used for, or diverted to, any person other than for the exclusive benefit of the employees and their beneficiaries and defraying reasonable expenses of administering the plan, except that contributions made by the employer may be returned to the employer if the contribution was made due to a mistake of fact.

I. The plan, and all acts and decisions taken under it, is binding and conclusive, for all purposes, upon every participant, beneficiary, alternate payee, any person claiming through a participant or beneficiary or alternate payee, all other interested persons, and upon the personal representatives, executors, administrators, heirs, successors and assigns of any and all such persons. The plan shall not affect contracts or other dealings with a person who is not an interested person, unless a written agreement executed by that person expressly so provides.

J. For purposes of the IRC, the plan is a defined contribution money purchase retirement plan under IRC §401(a).

K. The plan is an individual account plan which provides for an individual account for each participant and for benefits based solely upon the amount of contributions, investment gains and losses, fees, and expenses allocated to the participant's account.

L. The *United States Code* provisions created by title I of the Employee Retirement Income Security Act of 1974 ("ERISA") do not apply to this plan.

M. The plan is a governmental plan within the meaning of 29 USC 1002(32) and IRC §414(d).

N. The Teachers' Retirement System of Louisiana as the plan administrator provides for the administration and maintenance of the ORP pursuant to R.S. 11:921 et seq. The plan administrator may delegate duties to ORP providers to the extent permitted by applicable law.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:921-929.

B. C. Any academic or administrative employee of a public institution of higher education or employee of the Board of Regents, Board of Supervisors for the University of Louisiana System, Board of Supervisors of Louisiana State University and Agricultural and Mechanical College, or Board of Supervisors of Southern University and Agricultural and Mechanical College, or their successors, and any other constitutionally established board which manages institutions of higher education who is a part-time, seasonal, or temporary employee as defined in 26 CFR 31:3121(b)(7)-2, or in any successor regulation shall be eligible to participate in the ORP upon election by such employee.

D. Notwithstanding the provisions of Subsections A and B of this Section, any academic or administrative employee of a public institution of higher education and any employee of the Board of Regents, Board of Supervisors for the University of Louisiana System, Board of Supervisors of Louisiana State University and Agricultural and Mechanical College, and Board of Supervisors of Southern University and Agricultural and Mechanical College, or their successors, and any other constitutionally established board which manages institutions of higher education who is an active contributing member in the regular retirement plan of the TRSL and who has less than five years of creditable service in the TRSL, may make an irrevocable election to

participate in the ORP and transfer his accumulated employee contributions to the ORP under the provisions of R.S. 11:926(A). This election can only be made by a member prior to attainment of five years of creditable service in the TRSL.

E. Elections must be made in writing and filed with the appropriate officer of the employer institution or board, who shall forward a copy of the completed election to the TRSL.

F. The election of employees making an election to participate in ORP as provided in Subsection A of this Section will be effective as of the date they are filed. Elections of eligible employees hired on or after the implementation date of the optional retirement plan at their institution or board as provided in Subsection B of this Section will be effective as of the date of their employment. If an eligible employee fails to make the election provided for in this Section, he shall become a member of the regular retirement plan of the TRSL in accordance with R.S. 11:721.

G. Any person electing to participate in the ORP shall always be ineligible for membership in the regular retirement plan of the TRSL even if he is employed in a position covered by the TRSL, as prescribed by R.S. 11:928.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:921-929.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Teachers' Retirement System of Louisiana, LR 40:2274 (November 2014).

§1509. Employee Contributions

A. Each participant shall contribute a mandatory monthly employee contribution percentage into the plan, as provided by law. Each employer shall pick-up employee contributions for all earnable compensation paid after the effective date. The employee contributions so picked up shall be treated as employer contributions pursuant to IRC §414(h)(2). The employer shall remit the picked up contributions to the TRSL for direct transfer to the ORP provider, instead of paying such amounts to the participants, and such contributions shall be paid from the same funds that are used in paying salaries to participants. Such contributions, although designated as employee contributions, shall be paid by the employer in lieu of contributions by participants. Participants may not elect to receive such contributions directly instead of having them paid by the employer to the plan. Employer contributions so picked up shall be treated for all purposes of the plan and state law, other than federal tax law, in the same manner as employee contributions made without a pick-up. See PLR 8633052.

B. The entirety of each participant's contribution, less any monthly fee established by the board of trustees to cover the cost of administration and maintenance of the plan, will be remitted to the ORP provider for application to the participant's account.

C. If a participant first became eligible for membership in the TRSL, or the plan, on or after July 1, 1996, the employee contributions remitted by the TRSL to any ORP provider shall not be based on compensation in excess of the

annual limit of IRC §401(a)(17) as amended and revised pursuant to IRC §401(a)(17)(B).

D. A participant who attains his or her eligibility for a distribution and continues to be an employee will continue to make employee contributions, and will continue to participate under the plan until his or her severance from employment or the occurrence of some other event. Further, a participant's and spouse's right to his/her account is non-forfeitable as of his/her eligibility for a distribution.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:921-929.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Teachers' Retirement System of Louisiana, LR 40:2275 (November 2014).

§1511. Employer Contributions

A. Each employer shall contribute a mandatory monthly employer contribution percentage into the plan, as provided by law. Upon receipt of the employer contribution, the TRSL will promptly forward the amount established in compliance with law to the ORP provider. Such amount paid over to the ORP provider shall be credited to the participant's account. The TRSL shall retain the balance of the employer contribution for application to the unfunded accrued liability of the TRSL.

B. If a participant first became eligible for membership in the Teachers' Retirement System of Louisiana, or the ORP, on or after July 1, 1996, the employer contributions remitted by the Teachers' Retirement System of Louisiana to any ORP provider shall not be based on compensation in excess of the annual limit of IRC §401(a)(17) as amended and revised pursuant to IRC §401(a)(17)(B).

C. A participant who attains his eligibility for a distribution and continues to be an employee will continue to receive employer contributions, and will continue to participate under the plan until his or her severance from employment or the occurrence of some other event. Further, a participant's and spouse's right to his/her account is non-forfeitable as of his/her eligibility for a distribution.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Teachers' Retirement System of Louisiana, LR 40:2275 (November 2014).

§1513. Distributions

A. Retirement benefits shall be payable to plan participants or their beneficiaries by the ORP providers. Subject to the provisions of the contract, retirement benefits shall be paid in the form of a lifetime income, unless the participant or beneficiary requests a trustee-to-trustee single-sum cash rollover payment between qualified plans, or payment made directly to an individual retirement account, but death benefits may be paid in the form of a single-sum cash payment paid directly to the beneficiary or estate, whichever is applicable.

B. The ORP provider shall offer ORP participants the following single-sum cash payments:

1. direct transfers by and between OPR providers;
2. death benefits.

3. an initial benefit payable upon retirement, provided such benefit is approved by the ORP provider. The initial benefit shall not exceed an amount equal to the participant's monthly benefit, payable as a single-life annuity with no guarantees, times 36.

C. Minimum Distribution

1. For purposes of this Section, the following definitions shall apply.

Designated Beneficiary—any individual who is designated as the beneficiary under the plan and is the designated beneficiary under IRC §401(a)(9) and treasury regulations section 1.401(a)(9)-1, Q&A-4.

Eligible Designated Beneficiary—a designated beneficiary who, as of the date of the death of the participant, is:

- i. the surviving spouse of the participant;
- ii. a child of the participant who has not reached the age of majority within the meaning of Code Section 401(a)(9)(F);
- iii. disabled within the meaning of Code Section 72(m)(7);
- iv. chronically ill within the meaning of Code Section 7702B(c)(2) (except that the requirements of subparagraph (A)(i) thereof shall only be treated as met if there is a certification that, as of such date, the period of inability described in such subparagraph with respect to the individual is an indefinite one which is reasonably expected to be lengthy in nature); or
- v. any other designated beneficiary who is not more than 10 years younger than the participant. Notwithstanding the preceding, a child described in Clause ii above shall cease to be an eligible designated beneficiary as of the date he or she reaches the age of majority within the meaning of Code Section 401(a)(9)(F).

Required Beginning Date—the April 1 of the calendar year following the later of:

- i. the calendar year in which the participant attains age 72 (or age 70 1/2 if the participant was born before July 1, 1949); or
- ii. the calendar year in which the participant retires.

(a). The participant, alternate payee, or beneficiary may elect on the applicable form whether to recalculate life expectancy (or any element of it) to the fullest extent permitted by IRC §401(a)(9)(D). If the participant, alternate payee, or beneficiary does not timely make this election, the participant, alternate payee, or beneficiary is deemed to have elected the default method specified by the applicable investment option(s), or to the

extent that no method is so specified, that no recalculation shall apply with respect to any individual's life expectancy.

2. The requirements of this Section will take precedence over any inconsistent provisions of the plan. All distributions required under this Section will be determined and made in accordance with IRC §401(a)(9) and the treasury regulations under IRC §401(a)(9). Distributions to a participant and his/her beneficiaries shall only be made in accordance with the incidental death benefit requirements of IRC §401(a)(9)(G) and the treasury regulations thereunder.

3. The participant's entire interest will be distributed, or begin to be distributed, to the participant no later than the participant's required beginning date. If the participant dies before distributions begin, the participant's entire interest will be distributed, or begin to be distributed, no later than as follows.

a. If the participant's surviving spouse is the participant's sole designated beneficiary, then distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the participant died, or by December 31 of the calendar year in which the participant would have attained age 72 (or age 70 1/2 if the participant was born before July 1, 1949), if later.

b. If the participant's surviving spouse is not the participant's sole designated beneficiary, then distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the participant died.

c. If there is no designated beneficiary as of September 30 of the year following the year of the participant's death, the participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the participant's death.

d. If the participant's surviving spouse is the participant's sole designated beneficiary and the surviving spouse dies after the participant but before distributions to the surviving spouse begin, this Subparagraph, rather than Subparagraph 3.a, will apply as if the surviving spouse were the participant.

4. For purposes of this Section, unless Subparagraph 3.a applies, distributions are considered to begin on the participant's required beginning date. If Subparagraph 3.a applies, distributions are considered to begin on the date distributions are required to begin to the surviving spouse under Subparagraph 3.a. If distributions under an annuity purchased from an insurance company irrevocably commence to the participant before the participant's required beginning date (or to the participant's surviving spouse) before the date distributions are required to begin to the surviving spouse under Subparagraph 3.a, the date distributions are considered to begin is the date distributions actually commence.

5. If the participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the

requirements of IRC §401(a)(9) and the treasury regulations thereunder.

6. If a distribution is required to begin to a beneficiary and the beneficiary has not filed a claim by the date that is 90 days before the date required by IRC §401(a)(9) (or if the ORP provider has denied a claim and an acceptable claim has not been filed before the applicable date), the ORP provider shall direct payment (or, if provided by the investment option, the ORP provider may without instruction make payment) according to the automatic payout option provided by the applicable investment option(s), or, to the extent not so provided, as a lump sum distribution.

7. If a participant has not furnished evidence of his or her spouse's date of birth, the ORP provider will use the employee's age in determining the minimum distribution period according to treasury reg. §1.401(a)(9)-5/Q&A-4(a) without regard to treasury reg. §1.401(a)(9)-5/Q&A-4(b).

8. Upon the death of a participant after December 31, 2021, the following distribution provisions shall take effect; provided, however, that such provisions shall be subject to any regulations or other guidance issued under the Setting Every Community Up for Retirement Enhancement (SECURE) Act.

a. If the participant dies before the distribution of his or her entire interest (regardless of whether any distributions had begun before the participant's death) and the participant has a designated beneficiary:

i. the entire interest shall be distributed to the designated beneficiary by December 31 of the calendar year containing the tenth anniversary of the participant's death;

ii. notwithstanding Clause a.i, if the designated beneficiary is an eligible designated beneficiary, then the participant's entire interest shall be distributed beginning no later than December 31 of the calendar year immediately following the calendar year in which the participant died, over the life of the eligible designated beneficiary or over a period not exceeding the life expectancy of the eligible designated beneficiary. If the eligible designated beneficiary is the surviving spouse, payment is not required until the later of December 31 of the calendar year immediately following the calendar year in which the participant died or December 31 of the calendar year in which the participant would have attained age 72 or age 70 1/2 if the participant was born before July 1, 1949.

iii. Upon the death of an eligible designated beneficiary before distribution of the participant's entire interest, the remainder of the entire interest shall be distributed to the beneficiary of the eligible designated beneficiary within 10 years of the eligible designated beneficiary's death.

iv. For an eligible designated beneficiary who is a minor child of the member, upon the attainment of the age of majority within the meaning of Code Section 401(a)(9)(F), the child shall cease to be an eligible designated beneficiary, and the remainder of the participant's entire interest shall be

distributed to the child as a designated beneficiary within 10 years of the date that he or she attains the age of majority.

b. If the participant dies before distribution of his or her entire interest begins and the participant has no designated beneficiary, the participant's entire interest under the plan shall be distributed by December 31 of the calendar year containing the fifth anniversary of the participant's death. If the participant dies after distribution of his or her entire interest begins and the participant has no designated beneficiary, any remaining portion of the entire interest shall continue to be distributed at least as rapidly as under the method of distribution in effect at the time of the participant's death.

c. Any distribution required under the incidental death benefit requirements of Code Section 401(a) shall be treated as distributions required under Paragraph 8 of this Subsection.

D. Required Minimum Distribution Waiver of 2009

1. Notwithstanding any other provisions of this Section, a participant or beneficiary who would have been required to receive required minimum distributions for 2009 but for the enactment of IRC §401(a)(9)(H) ("2009 RMDs"), and who would have satisfied that requirement by receiving distributions that are: equal to the 2009 RMDs; or one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the participant's designated beneficiary, or for a period of at least 10 years ("extended 2009 RMDs"), will not receive those 2009 distributions unless the participant or beneficiary elects to receive such distribution. Participants and beneficiaries described in the preceding sentence will be given the opportunity to elect to receive the distributions described in the preceding sentence. However, those participants and beneficiaries who receive required minimum distributions through the automatic payment system will continue to receive 2009 RMDs unless he or she elects not to receive the 2009 RMDs.

2. Notwithstanding any other provisions of the plan, and solely for purposes of applying the rollover provisions of the plan, 2009 RMDs [amounts that would have been required minimum distributions for 2009 but for the enactment of IRC §401(a)(9)(H)] and extended 2009 RMDs (one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the participant's designated beneficiary, or for a period of at least 10 years), will be treated as eligible rollover distributions.

E. Claim for Distribution

1. Any distribution shall be paid only upon a claim made on the applicable form, and submission of additional information requested by the ORP provider, including but not limited to:

a. if the distribution is made, appropriate evidence that the participant has a severance from employment;

b. if the distribution is an eligible rollover distribution, the distributee's instruction as to whether the distribution (or a portion of the distribution) is to be paid directly to an eligible retirement plan, and if any amount is to be paid directly to an eligible retirement plan, the name and address of the trustee or administrator of that eligible retirement plan together with any other information that the plan administrator, ORP provider, or the eligible retirement plan administrator reasonably requests pursuant to treas. reg. §1.401(a)(31)-1;

c. if the distribution is made on account of the participant's death, appropriate evidence of the participant's death;

d. whenever required by the ORP provider, the date-of-birth of any distributee as relevant to the distribution;

e. if the account consists of more than one investment option, the order in which any investment options are to be charged or redeemed to pay the distribution; and

f. any other evidence or information that the ORP provider finds is relevant to administer a provision of the plan in the participant's or beneficiary's and the distributee's circumstances.

F. Required Minimum Distribution Waiver of 2020

1. Notwithstanding any other provisions of this section, for 2020, the minimum distribution requirements will be satisfied as provided in this section, as determined by the provider responsible for the participant's or beneficiary's required minimum distribution.

2. A participant or beneficiary who would have been required to receive required minimum distributions in 2020 (or paid in 2021 for the 2020 calendar year for a participant with a required beginning date of April 2, 2021) but for the enactment of the Coronavirus Aid, Relief, and Economic Security (CARES) Act, IRC 401(a)(9)(I) (2020 RMDs), and who would have satisfied that requirement by receiving distributions that are either equal to the 2020 RMDs or one or more payments in a series of substantially equal distributions (that include the 2020 RMDs) made at least annually and expected to last for the life (or life expectancy) of the participant, the joint lives (or joint life expectancy) of the participant and the participant's designated beneficiary, or for a period of at least 10 years (extended 2020 RMDs) will not receive those distributions for 2020 unless the participant or beneficiary chooses to receive such distributions. Participants and beneficiaries described in the preceding sentence will be given the opportunity to elect to receive the distributions described in the preceding sentence. However, those participants and beneficiaries who receive required minimum distributions through the automatic payment system will continue to receive 2020 RMDs unless he or she elects not to receive the 2020 RMDs.

3. A participant or beneficiary who would have been required to receive a 2020 RMD, and who would have satisfied that requirement by receiving distributions that are equal to the 2020 RMDs or extended 2020 RMDs, will

receive this distribution unless the participant or beneficiary chooses not to receive such distributions. Participants and beneficiaries described in the preceding sentence will be given the opportunity to elect to stop receiving the distribution described in the preceding sentence.

4. For purposes of the direct rollover provisions of the Plan, 2020 RMDs and extended 2020 RMDs shall also be treated as eligible rollover distributions in 2020.

§1515. Rollover Distribution

A. For purposes of this Section, the following definitions shall apply.

Direct Rollover—a payment by the plan to the eligible retirement plan specified by the distributee.

Distributee—includes a participant or former participant. It also includes the participant's or former participant's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a domestic relations order. It also includes the participant's or former participant's nonspouse beneficiary who is a designated beneficiary as defined by IRC §401(a)(9)(E). Effective January 1, 2007, and notwithstanding anything in the plan to the contrary that otherwise would limit a *distributee's* election under this Section, and to the extent allowed under the applicable provisions of the IRC and the treasury regulations, a *distributee* who is a designated beneficiary, but not a surviving spouse, spouse or former spouse alternate payee may elect, at the time and in the manner prescribed by the plan administrator, to have all or any part of the account that qualifies as an eligible rollover distribution paid in a direct trustee-to-trustee transfer to an eligible retirement plan that is an individual retirement plan described in Clause (i) or (ii) of the IRC §402(c)(8)(B). If such a transfer is made:

a. the transfer shall be treated as an eligible rollover distribution;

b. the individual retirement plan shall be treated as an inherited individual retirement account or individual retirement annuity (within the meaning of IRC §408(d)(3)(C)); and

c. IRC §401(a)(9)(B) (other than clause (iv) thereof) shall apply to such individual retirement plans.

i. any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the participant and the participant's designated beneficiary, or for a specified period of 10 years or more;

ii. any distribution to the extent such distribution is required under IRC §401(a)(9); or

§1517. Benefit Limitation

A. Annual additions with respect to a member shall not exceed the lesser of \$40,000 (as adjusted pursuant to IRC §415(d) or 100 percent of the member's compensation.

1. For purposes of this Section, the following definition shall apply.

Annual Additions—the sum (for any year) of employer contributions to a defined contribution plan, member contributions, and forfeitures credited to a member's individual account. Member contributions are determined without regard to rollover contributions and to picked-up employee contributions that are paid to a defined benefit plan.

2. For purposes of applying IRC §415(c) and for no other purpose, the definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by treasury regulation §1.415(c)-2, or successor regulation; provided, however, that member contributions picked up under IRC §414(h) shall not be treated as compensation.

3. Compensation will be defined as wages within the meaning of IRC §3401(a) and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under IRC §§6041(d), 6051(a)(3) and 6052 and will be determined without regard to any rules under IRC

§3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed [such as the exception for agricultural labor in IRC §3401(a)(2)].

a. However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an election under IRC §§125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

b. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the member by reason of IRC §132(f)(4).

B. For limitation years beginning on and after January 1, 2009, compensation for the limitation year shall also include compensation paid by the later of two and one-half months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if the payment is regular compensation for services during the member's regular working hours, or compensation for services outside the member's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer.

C. Any payments not described in Subsection B of this Section are not considered compensation if paid after severance from employment, even if they are paid within two and one-half months following severance from employment, except for payments to the individual who does not currently perform services for the employer by reason of qualified military service [within the meaning of IRC §414(u)(1)] to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

D. An employee who is in qualified military service [within the meaning of IRC §414(u)(1)] shall be treated as receiving compensation from the employer during such period of qualified military service equal to:

1. the compensation the employee would have received during such period if the employee were not in qualified military service, determined based on the rate of pay the employee would have received from the employer but for the absence during the period of qualified military service; or

2. if the compensation the employee would have received during such period was not reasonably certain, the employee's average compensation from the employer during the twelve month period immediately preceding the qualified military service (or, if shorter, the period of employment immediately preceding the qualified military service).

E. Back pay, within the meaning of treasury regulation §1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the

back pay represents wages and compensation that would otherwise be included under this definition.

F. If the annual additions for any member for a plan year exceed the limitation under IRC §415(c), the excess annual addition will be corrected as permitted under the employee plans compliance resolution system (or similar IRS correction program).

G. For limitation years beginning on or after January 1, 2009, a member's compensation for purposes of this Paragraph shall not exceed the annual limit under IRC §401(a)(17).

§1519. Annual Compensation Limitation

A. In addition to other applicable limits stated by the plan and notwithstanding any other provision of the plan to the contrary, the amount of earnable compensation determined for the purposes of the contributions to the plan shall not exceed the limit prescribed by IRC §401(a)(17) as adjusted each year according to IRC §401(a)(17)(B).

B. For purposes of this Section, the following definition shall apply.

Annual Compensation—earnable compensation during the plan year or such other consecutive 12-month period over which compensation is otherwise determined under the plan (the determination period). The cost-of-living-adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

C. If the plan year or applicable period for determining *annual compensation* contains fewer than 12 calendar months, then this compensation limit is the amount equal to the annual IRC §401(a)(17) limit for the applicable calendar year during which the compensation period begins multiplied by the ratio that is obtained by dividing the number of full months in the period by 12.

§1523. Plan Assets

A. Except as provided in Subsection B of this Section, plan assets shall be held by the ORP providers in an individual or group annuity contract, or custodial account which meets the requirements of IRC §401(f) in order to be treated as a qualified trust.

B. A separate trust is hereby established under state law for the purpose of segregating fees to be used for the payment of reasonable plan expenses. This trust shall be administered by the board of trustees.

§1527. Governing Law

A. The plan, and actions under or relating to the plan, and the statute of limitations for such actions shall be governed by and enforced by the laws of the state of Louisiana and shall be construed, to the extent that any construction beyond the written plan is necessary, according to the laws of the state of Louisiana or the *Internal Revenue Code* or other federal law, where applicable.

B. If, under any application filed by or on behalf of the plan, the IRS determines that the plan as amended and restated does not qualify under IRC §401(a), and the determination is not contested, or if contested, is finally upheld (or otherwise finally determined), the plan administrator may retroactively amend the plan to the earliest date permitted by treasury regulations to the fullest extent that the plan administrator considers necessary to obtain an IRS determination that the plan qualifies under IRC §401(a). Such actions may be taken without further authorization or consent from the plan sponsor, provided amendments are not contrary to state law.

C. If any contribution (or any portion of a contribution) is made by the employer by a good faith mistake of fact, upon receipt in good order of a proper request, the plan administrator or the ORP provider shall return the amount of the mistaken contribution(s), except as limited below, to the employer in accordance with rev. rul. 91-4. The amount of any contribution returned may not exceed the difference between the amount actually contributed and the amount which would have been contributed had there been no mistake of fact and may not include the earnings attributable

to such contribution. The amount of the contributions returned must be reduced by any losses attributable to the contribution, and no participant may have his benefit payable hereunder reduced by the return of the contribution to less than such benefit would have been had the returned contribution never been made. The amount of the erroneous contributions will be corrected and returned no later than 30 days after notification of the error if such correction and return can be completed within one year of the erroneous contributions.

D. In any event, any correction under this section shall be made in accordance with the Internal Revenue Service employee plans compliance resolution system (or similar IRS correction program).

D. Effective January 1, 2009, an eligible employee whose employment is interrupted by qualified military service or who is on a leave of absence for qualified military service and who receives a differential wage payment within the meaning of IRC §414(u)(12)(D) from the employer will be treated as an eligible employee of the employer and the differential wage payment will be treated as compensation for purposes of applying the limits on annual additions under IRC §415(c).

The distribution shall be paid to the participant as promptly as practicable after the plan administrator or ORP provider receives the participant's request. a. For a benefit paid in a form to which section 417(e)(3) of the *Internal Revenue Code* does not apply (generally, a monthly benefit), the actuarially equivalent straight life annuity benefit that is the greater of:

i. the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the form of benefit to the member; or

b. For a benefit paid in a form to which section 417(e)(3) of the *Internal Revenue Code* applies (generally, a lump sum benefit), the actuarially equivalent straight life annuity benefit that is the greatest of:

i. the annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table, or tabular factor, specified in the plan for actuarial experience;

ii. the annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using a five and one-half percent interest assumption (or the applicable statutory interest assumption); and

(a). for years prior to January 1, 2009, the applicable mortality tables for the distribution under treasury regulation section 1.417(e)-1(d)(2) (the mortality table specified in revenue ruling 2001-62 or any subsequent revenue ruling modifying the applicable provisions of revenue ruling 2001-62); and

(b). for years after December 31, 2008, the applicable mortality tables described in section 417(e)(3)(B) of the *Internal Revenue Code* (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing section 417(e)(3)(B) of the *Internal Revenue Code*), divided by 1.05.

c. The actuary may adjust the Section 415(b) of the *Internal Revenue Code* limit at the annuity starting date in accordance with Subparagraphs A.1.a and b above.

d. Benefits For Which No Adjustment of the 415(b) Limit is Required

i. For purposes of this Section, the following benefits shall not be taken into account in adjusting these limits:

(a). any ancillary benefit which is not directly related to retirement income benefits;

(b). that portion of any joint and survivor annuity that constitutes a qualified joint and survivor annuity; and

(c). any other benefit not required under section 415(b)(2) of the *Internal Revenue Code* and treasury regulations thereunder to be taken into account for purposes of the limitation of section 415(b)(1) of the *Internal Revenue Code*.

B. Section 415(c) Limitations on Contributions and Other Additions

1. After-tax member contributions or other annual additions with respect to a member may not exceed the lesser of \$40,000 (as adjusted pursuant to section 415(d) of the *Internal Revenue Code*) or 100 percent of the member's compensation.

a. For the purposes of this Section, the following definition shall apply.

Annual Additions—the sum (for any year) of employer contributions to a defined contribution plan, member contributions, and forfeitures credited to a member's individual account. Member contributions are determined without regard to rollover contributions and to picked-up employee contributions that are paid to a defined benefit plan.

b. For purposes of applying section 415(c) of the *Internal Revenue Code* and for no other purpose, the definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by treasury regulation section 1.415(c)-2, or successor regulation; provided, however, that member contributions picked up under section 414(h) of the *Internal Revenue Code* shall not be treated as compensation.

c. Compensation will be defined as wages within the meaning of section 3401(a) of the *Internal Revenue Code* and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under sections 6041(d), 6051(a)(3) and 6052 of the *Internal Revenue Code* and will be determined without regard to any rules under section 3401(a) of the *Internal Revenue Code* that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in section 3401(a)(2) of the *Internal Revenue Code*).

i. However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an

election under section 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b) of the *Internal Revenue Code*.

ii. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the member by reason of section 132(f)(4) of the *Internal Revenue Code*.

iii. For limitation years beginning on and after January 1, 2009, compensation for the limitation year shall also include compensation paid by the later of two and one-half months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if the payment is regular compensation for services during the member's regular working hours, or compensation for services outside the member's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer.

(a). Any payments not described in Clause B.1.c.iii above are not considered compensation if paid after severance from employment, even if they are paid within two and one-half months following severance from employment, except for payments to the individual who does not currently perform services for the employer by reason of qualified military service (within the meaning of section 414(u)(1) of the *Internal Revenue Code*) to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(b). An employee who is in qualified military service (within the meaning of section 414(u)(1) of the *Internal Revenue Code*) shall be treated as receiving compensation from the employer during such period of qualified military service equal to:

(i). the compensation the employee would have received during such period if the employee were not in qualified military service, determined based on the rate of pay the employee would have received from the employer but for the absence during the period of qualified military service; or

(ii). if the compensation the employee would have received during such period was not reasonably certain, the employee's average compensation from the employer during the twelve month period immediately preceding the qualified military service (or, if shorter, the period of employment immediately preceding the qualified military service).

iv. Back pay, within the meaning of treasury regulation section 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

RETIREMENT

d. If the annual additions for any member for a plan year exceed the limitation under section 415(c) of the *Internal Revenue Code*, the excess annual addition will be corrected as permitted under the employee plans compliance resolution system (or similar IRS correction program).

e. For limitation years beginning on or after January 1, 2009, a member's compensation for purposes of this Subsection shall not exceed the annual limit under section 401(a)(17) of the *Internal Revenue Code*.

C. Service Purchases under Section 415(n)

1. Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one or more contributions to purchase permissive service credit under the plan, then the requirements of section 415(n) of the *Internal Revenue Code* will be treated as met only if:

a. the requirements of section 415(b) of the *Internal Revenue Code* are met, determined by treating the accrued benefit derived from all such contributions as an annual benefit for purposes of section 415(b) of the *Internal Revenue Code*; or

b. the requirements of section 415(c) of the *Internal Revenue Code* are met, determined by treating all such contributions as annual additions for purposes of section 415(c) of the *Internal Revenue Code*.

2. For purposes of applying this section, the system will not fail to meet the reduced limit under section 415(b)(2)(C) of the *Internal Revenue Code* solely by reason of this Subsection and will not fail to meet the percentage limitation under section 415(c)(1)(B) of the *Internal Revenue Code* solely by reason of this Subsection.

3. For purposes of this Subsection, the following definition shall apply.

a. *Permissive Service Credit*—service credit:

i. recognized by the system for purposes of calculating a member's benefit under the system;

ii. which such member has not received under the system; and

iii. which such member may receive only by making a voluntary additional contribution, in an amount determined under the system, which does not exceed the amount necessary to fund the benefit attributable to such service credit.

b. Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may include service credit for periods for which there is no performance of service, and, notwithstanding Clause C.3.a.ii above, may include service credited in order to provide an increased benefit for service credit which a member is receiving under the system.

4. The system will fail to meet the requirements of this Subsection if:

a. more than five years of nonqualified service credit are taken into account for purposes of this Subsection; or

b. any nonqualified service credit is taken into account under this Subsection before the member has at least five years of participation under the system.

5. For purposes of Paragraph C.4 above, effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, the following definition shall apply.

a. *Nonqualified Service Credit*—permissive service credit other than that allowed with respect to:

i. service (including parental, medical, sabbatical, and similar leave) as an employee of the Government of the United States, any state or political subdivision thereof, or any agency or instrumentality of any of the foregoing (other than military service or service for credit which was obtained as a result of a repayment described in section 415(k)(3) of the *Internal Revenue Code*);

ii. service (including parental, medical, sabbatical, and similar leave) as an employee (other than as an employee described in Clause C.5.a.i above) of an education organization described in section 170(b)(1)(A)(ii) of the *Internal Revenue Code* which is a public, private, or sectarian school which provides elementary or secondary education (through grade 12), or a comparable level of education, as determined under the applicable law of the jurisdiction in which the service was performed;

iii. service as an employee of an association of employees who are described in Clause C.5.a.i above; or

iv. military service (other than qualified military service under section 414(u) of the *Internal Revenue Code*) recognized by the system.

b. In the case of service described in Clause C.5.a.i, ii or iii above, such service will be nonqualified service if recognition of such service would cause a member to receive a retirement benefit for the same service under more than one plan.

6. In the case of a trustee-to-trustee transfer after December 31, 2001, to which section 403(b)(13)(A) of the *Internal Revenue Code* or section 457(e)(17)(A) of the *Internal Revenue Code* applies (without regard to whether the transfer is made between plans maintained by the same employer):

a. the limitations of Paragraph C.4 above will not apply in determining whether the transfer is for the purchase of permissive service credit; and

b. the distribution rules applicable under federal law to the system will apply to such amounts and any benefits attributable to such amounts.

7. For an eligible member, the limitation of section 415(c)(1) of the *Internal Revenue Code* shall not be applied to reduce the amount of permissive service credit which may be purchased to an amount less than the amount which was

allowed to be purchased under the terms of a Plan as in effect on August 5, 1997. For purposes of this Paragraph, an eligible member is an individual who first became a member in the system before January 1, 1998.

D. Modification of Contributions for 415(c) and 415(n) Purposes

1. Notwithstanding any other provision of law to the contrary, the system may modify a request by a member to make a contribution to the system if the amount of the contribution would exceed the limits provided in section 415 of the *Internal Revenue Code* by using the following methods.

a. If the law requires a lump sum payment for the purchase of service credit, the system may establish a periodic payment plan for the member to avoid a contribution in excess of the limits under section 415(c) or 415(n) of the *Internal Revenue Code*.

b. If payment pursuant to Subparagraph a. of this Paragraph will not avoid a contribution in excess of the limits imposed by section 415(c) or 415(n) of the *Internal Revenue Code*, the system may either reduce the member's contribution to an amount within the limits of those sections or refuse the member's contribution.

E. Repayments of Cashouts

1. Any repayment of contributions (including interest thereon) to the plan with respect to an amount previously refunded upon a forfeiture of service credit under the plan or another governmental plan maintained by the retirement system shall not be taken into account for purposes of section 415 of the *Internal Revenue Code*, in accordance with applicable treasury regulations.

F. Limitation of Benefits Priority

1. Reduction of benefits and/or contributions to all defined benefit plans sponsored by the state in which the member participated, where required, shall be accomplished by first reducing the member's benefit under the defined benefit plan in which the member most recently accrued benefits and thereafter in such priority as shall be determined by the plan and the plan administrator of such other plans. Necessary reductions may be made in a different manner and priority pursuant to the agreement of the plan and the plan administrator of all other plans covering such member.

G. Limitation Year

1. For purposes of applying the limitations of section 415 of the *Internal Revenue Code*, the limitation year shall be the calendar year.

For this purpose, a trust includes a custodial account that is treated as a trust under section 401(f) or under section 457(g)(3) of the *Internal Revenue Code*.

Title 58

RETIREMENT

Part V. Firefighters' Pension and Relief Fund for the City of New Orleans and Vicinity

Chapter 1. Qualified Domestic Relations Orders

§101. Determining Qualified Status of Domestic Relations Orders

A. Intent and Construction. These procedural rules are adopted in order to satisfy the requirements of R.S. 11:291, and shall be construed consistently with this purpose.

B. The purpose of these rules is to establish the trustees' willingness to recognize and enforce any QDRO that meets the requirements set forth herein.

C. It is further intended that the provisions of R.S. 11:291 and 292 be strictly observed. Therefore, the trustees shall not honor the terms of any QDRO:

1. that purports to require the fund to provide any type or benefits, or any option, not otherwise provided under the fund;
2. that requires the fund to provide increased benefits (determined on the basis of actuarial value);
3. that requires payment of benefits to an alternate payee that are required to be paid to another alternate payee under another order previously determined to be a QDRO;
4. that requires the payment of benefits to an alternate payee prior to the date the participant terminates employment and his retirement benefits commence; or
5. that allow the alternate payee to elect a form of benefit payable in any manner other than over the life of the participant when the order is presented to the fund after the participant has already begun receiving pension benefits.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:3363.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the Firefighters' Pension and Relief Fund for the City of New Orleans, LR 16:501 (June 1990), amended by the Firefighters' Pension and Relief Fund for the City of New Orleans and Vicinity, LR 23:1304 (October 1997), LR 30:1685 (August 2004), LR 38:796 (March 2012).

§103. Definitions

A. As used in these procedural rules, unless the context indicates otherwise, the following terms shall have the following meanings.

Alternate Payee—the participant's spouse (or former spouse, child, or other dependent) who is entitled to receive some or all of the fund's benefit payments with respect to the participant under the terms of the QDRO. The same QDRO may identify more than one alternate payee, and several alternate payees may be identified in multiple QDROs.

However, the trustees shall not recognize the entitlement of any alternate payee, even if specified in a domestic relations order, if the benefits assigned therein have already been assigned by reason of an earlier QDRO validly served upon the fund.

Domestic Relations Order—any judgment, decree, or order (including approval of a property settlement or community property partition) that:

- a. relates to the provision of child support, alimony payments, or marital property rights to a spouse, former spouse, child, or other dependent of a participant; and
- b. is made pursuant to a state domestic relations law (including a community property law);
 - i. a state court shall actually issue an order, or formally approve a proposed property settlement, in order for it to be recognized by the trustees as a domestic relations order. A property settlement or community property partition signed by a participant and the participant's former spouse, or a draft order to which both parties consent, shall not be considered a domestic relations order until the state authority has adopted it as an order or formally approved it and made it part of the domestic relations proceeding.

Participant—any employee or former employee of an employer in relation to the fund, who is or may become eligible to receive a benefit of any type from the fund, and who is the individual whose benefits under the fund are being divided by the QDRO.

Qualified Domestic Relations Order—a domestic relations order that creates or recognizes the existence of an alternate payee's right (or assigns to an alternate payee the right) to receive all or a portion of the benefits payable with respect to a participant in the fund, provided that the order:

- a. clearly specifies:
 - i. the name and last known mailing address (if any) of the participant and the name and mailing address of each alternate payee covered by the order or, in the event the alternate payee is a minor or legally incompetent, the name and address of the alternate payee's legal representative;
 - ii. the amount or percentage of the participant's benefits to be paid by the fund to each alternate payee, or the manner in which such amount or percentage is to be determined;
 - iii. the number of payments or the period to which such order applies; and
 - iv. the name and identity of the fund;
- b. does not require:

i. the fund to provide any type or form of benefits, or any option, not otherwise provided under the fund;

ii. the fund to provide increased benefits (determined on the basis of actuarial value);

iii. the payment of benefits to an alternate payee that are required to be paid to another alternate payee under another order previously determined to be a qualified domestic relations order;

iv. the payment of benefits to an alternate payee prior to the date the participant terminates employment and begins receiving pension benefits from the fund; or

v. the payment of benefits to an alternate payee in any manner other than over the life of the participant when the order is presented to the fund after the participant has already begun receiving pension benefits.

Trustees—the Board of Trustees for the Firefighters' Pension and Relief Fund for the City of New Orleans, or such person or entity to whom the board has delegated responsibility to make determinations on its behalf under these rules.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:3363.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the Firefighters' Pension and Relief Fund for the City of New Orleans, LR 16:501 (June 1990), amended by the Firefighters' Pension and Relief Fund for the City of New Orleans and Vicinity, LR 23:1304 (October 1997), LR 30:1685 (August 2004).

§105. QDRO Language

A. Many factors should be taken into account by the drafters of a QDRO in determining which benefits to assign to an alternate payee and how these benefits are to be assigned. Because of the complexity and variety of the factors that should be considered and the need to tailor the assignment of benefits under a QDRO to the individual circumstances of the parties, it would be inappropriate for the trustees to propose specific sample language for inclusion in a QDRO. Instead, individual participants and alternate beneficiaries, and their respective attorneys, are directed to collaborate jointly upon the drafting of orders that meet their individual needs. Nevertheless, if so requested, the trustees shall review any proposed order submitted to the fund prior to its submission to the appropriate court for execution and entry, with a view to indicating the trustees' probable determination concerning its status as a QDRO. The trustees are required by law to honor and enforce the terms of any QDRO which meets the conditions specified in these rules and as may subsequently be determined by the applicable statutes and the courts' interpretations thereof.

B. For further guidance concerning those matters that should be considered when drafting a QDRO (e.g., types of benefits, approaches to dividing retirement benefits, form and commencement of payment to alternate payees, and tax treatment of benefits payments made pursuant to a QDRO) the parties are encouraged to consult Notice 97-11 issued by

the Internal Revenue Service and appearing in *Internal Revenue Bulletin* 199702 dated January 13, 1997. Additional guidance may be found in the Pension Benefit Guaranty Corporation's booklet entitled *Divorce Orders and PBGC*, which discusses the special QDRO rules that apply for plans that have been terminated and are trusted by PBGC, and provides model QDROs for use with those plans. The publication may be obtained by calling PBGC's Customer Service Center at 1-800-400-PBGC or electronically via the PBGC Internet site at "http://www.pbgc.gov." However, some or all of the principals there set forth may not apply to this fund by reason of its status as a statutory governmental plan and/or the types of benefits payable under R.S. 11:3361 et seq. Thus the rules and regulations shall supersede the provisions of the IRS Bulletin.

§107. Notice

A. Upon the fund's receipt of a domestic relations order with respect to a participant, the trustees shall promptly give notice of these procedural rules to the participant and to each person specified in the order as entitled to payment of any fund benefits under the order, at the address the order specifies.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:3363.

§109. Determination

A. The trustees shall determine whether a domestic relations order is a qualified domestic relations order within a reasonable time after it is received and shall have the right to require such evidence as they may reasonably need to make the determination.

B. The trustees shall notify the participant and the alternate payee of the determination no less than 30 days before making any payment pursuant to the order, if it is determined to be a qualified order, or within a reasonable time if it is determined not to be a qualified order.

C. The participant may appeal such a determination to the trustees upon written application to the trustees. The participant may review any documents pertinent to the appeal and may submit issues and comments, in writing, to the trustees. No appeal shall be considered unless it is received by the trustees within 90 days after receipt by the participant of written notice of the determination.

D. The trustees shall decide the appeal within 60 days after it is received. If special circumstances require an extension of time for processing, however, a decision shall

be rendered as soon as possible but not later than 120 days after the appeal is received. If such an extension of time for deciding the appeal is required, written notice of the extension shall be furnished to the participant prior to the commencement of the extension.

E. The trustees' decision shall be in writing and shall include specific reasons for the decision, expressed in a manner calculated to be understood by the participant and the alternate payee.

§111. Payments Pending Determination

A. During any period in which the issue whether a domestic relations order is a qualified domestic relations order is being determined (by the trustees, by a court of competent jurisdiction, or otherwise), the trustees shall segregate in a separate account in the fund the amounts that would have been payable to the alternate payee during such period if the order had been determined to be a qualified domestic relations order.

1. To the extent that the domestic relations order is determined to be qualified, the fund shall pay the segregated amounts, plus any interest on them, to the person or persons entitled to them according to the terms of the order. In the case of determinations appealed under these procedural rules, the payment shall be made not less than 10 days nor more than 30 days after the issuance of the trustees' disposition of the appeal.

2. To the extent that the domestic relations order is determined not to be qualified, the fund shall pay the segregated amounts, plus any interest on them, to the person or persons who would have been entitled to such amounts without regard to the terms of the order. In the case of determinations appealed under these procedures, the payment shall take place not less than 10 days nor more than 30 days after the issuance of the trustees' disposition of the appeal.

3. To the extent that the issue whether the domestic relations order is qualified is not resolved within 18 months after the fund receives notice of the order, the trustees shall pay the segregated amounts, plus any interest on them, to the person or persons who would have been entitled to these amounts without regard to the terms of the order.

§113. Representative of Alternate Payee

A. An alternate payee, by written notice to the trustees, may designate a representative for receipt of copies of

notices that are sent to the alternate payee with respect to a domestic relations order.

The notice must be provided within a reasonable period of time before the date of distribution of the pension benefit. 1. A member must have returned to employment with the fire department and remain in such employment for a period of four years or more.
2. The amount of a partial buy back, and accordingly a partial restoration of forfeited credits, shall be determined by calculating the amount the member withdrew of his accumulated employee contributions on his initial termination of employment, plus 3 1/2 percent of interest, compounded annually, for each calendar year the member retained his withdrawn accumulated employee contributions, which total amount shall be referred to as the "total buy back amount" (interest shall be prorated for any period less than a calendar year period).

- b. The annual buy back amount for each forfeited year of credit shall be determined by multiplying the monthly buy back amount by the number of years (a 12-month consecutive period) the member wishes to buy back.

3. A member may restore his total number of years of forfeited credit on a piecemeal basis, provided the member restores at least two or more years of forfeited credit, in increments of 12 consecutive months. A member is prohibited from restoring his forfeited credits of service on a monthly basis and is prohibited from restoring less than two years, unless the restoration of credits is his final restoration request or the restoration request is for his total forfeited credits.

4. A year of credit shall mean a 12-month consecutive period.

5. A member shall elect a partial buy back and partial restoration of forfeited credits of service by completing and filing the applicable forms with the trustees. A member may revoke any election for a partial buy back and partial restoration, provided such revocation is in writing and filed with the trustees.

6. The trustees shall adjust the member's years of credit service as a result of the partial restoration of forfeited credits upon receipt of the annual buy back amount for each year the member elects to restore. Until the full payment of the partial buy back amount is received by the board, no adjustment or restoration of the member's forfeited credits shall be made.

7. A member is strictly prohibited hereunder from receiving his accumulated employee contributions upon his termination of employment in a form other than a full and total lump sum payment.

8. Nothing contained herein shall be interpreted in violation of R.S. 11:3365.C and R.S. 11:3363.C nor shall the provisions hereunder be applied on a discriminatory basis.

(a). years of service credit shall not be duplicated;

(b). an employee shall not receive more than one year of service credit during a single calendar or fiscal year; and

(c). an employee shall not accrue more than four years of military credit as service credit under this fund and no more than five years of military credit as service credit under both this fund and the public retirement system.

v. If the employee fails to accumulate the required minimum years of service under either this fund or the public retirement system, the employee's reciprocal benefit paid by that system shall be prorated accordingly. The prorated reciprocal benefit shall be calculated based on the employee's years of service actually accrued under that system, divided by the minimum years of service required under that system to receive a benefit.

b. The amount of the employee's reciprocal benefit from both this fund and the public retirement system shall not exceed:

i. 100 percent of the highest average compensation on which the benefit is based under both plans; and

ii. the highest benefit under either this fund or the public retirement system, if all years of service credit accrued under both systems were considered in calculating such benefit under each respective system.

c. If the reciprocal benefit exceeds the above limitation under §1301.A.3.b.i. or ii., then this fund or the public retirement system, if applicable, shall reduce the reciprocal benefit in proportion to the total reciprocal benefit paid from both systems.

4. Coordination of Reciprocal Benefit between This Fund and Other Public Retirement Systems

a. The trustees' approval of an application submitted to this fund for payment of a reciprocal benefit shall be in compliance with R.S. 11:142 and these rules and regulations. Upon approval of the reciprocal benefit application by the trustees, the trustees shall forward the approved application to the appropriate public retirement system in question. The trustees shall coordinate the payment of the reciprocal benefit with the public retirement system in which the employee has accumulated service credit and shall notify the public retirement system when the covered member ceases to be an active member under this fund and is thus entitled to receive a reciprocal benefit due to retirement, disability, or death. The trustees of this fund shall notify all public retirement systems of the amount of the reciprocal benefit payable from this fund and the calculation of such benefit.

b. The trustees of this fund, in their sole and absolute discretion, may agree with the trustees of the public retirement system that the payment of the total reciprocal benefit shall be made by one system and that the other system shall make appropriate reimbursement to the system making the total reciprocal benefit payment.

c. If the reciprocal benefit is payable from both this fund and the public retirement system in a lump sum form of payment, the additional lump sum benefit shall be paid in proportion to the years of credited service accrued under each system that represents the total years of credited service under both this fund and the public retirement system. The total lump sum benefit under both systems shall not be less than the greatest lump sum benefit payable under either this fund or the public retirement system. If the total lump sum benefit is less than the greatest lump sum benefit payable, the system having the greatest lump sum benefit shall pay the difference.

a. An employee may transfer credits from the transferring system to the receiving system upon satisfying the following conditions.

- i. The employee must have been a member of the transferring system for at least six months.
- ii. The employee must have membership credit in the receiving system at the time the receiving system receives the transferred service credit.
- iii. The employee must not have previously received a refund of his employee contributions from either the transferring system or the receiving system. If an employee has received a refund of his employee contributions from this fund, he may repay his employee contributions plus compounded interest at the actuarial rate approved by the board of trustees from the date of the refund of his employee contributions until the date of repayment.

iv.(a). If this fund is the receiving system, the employee must file an application with this fund requesting this fund to receive his service credits accumulated under the transferring system. An application to transfer credits to this fund shall be made on the application form approved by the board of trustees. Any other application form or document shall be unacceptable and void.

(b). If this fund is the transferring system, the employee must file an application with this fund requesting this fund to transfer the employee's service credits accumulated under this fund to the receiving system designated by the employee. An application to transfer credits from this fund shall be made on the application form approved by the board of trustees. The trustees shall accept, in lieu thereof, any similar written application from the receiving system designated by the employee, provided the requisite information is contained therein.

(c). At any time prior to completing the transfer of credit to the receiving system the employee may rescind, cancel, or withdraw his application by notifying the board of trustees, in writing, of his rescission, cancellation, or withdrawal.

3. Transfer of Credits from a Transferring System to This Fund as the Receiving System

a. If an employee transfers accumulated service credits from a transferring system to this fund (receiving fund), the following information with regard to the employee must be furnished to this fund from the transferring system:

i. the total number of credits accumulated by the employee under the transferring system and dates of service, including prior years of service, military service, or any other credit accumulated under the transferring system;

ii. the amount of contributions accumulated under the transferring system attributable to:

(a). employer contributions; and

(b). employee contributions;

iii. an amount of interest equal to the actuarial valuation rate approved by the board of the transferring system, compounded annually, calculated from the year of contribution to the date of the desired transfer of credits attributable to:

(a). employer contributions; and

(b). employee contributions;

iv. the total of all contributions accumulated by the employee under the transferring system, plus interest attributable thereto as specified herein. If the employer contributions referred to under §1303.A.3.a.ii.(a) and §1303.A.3.a.iii.(a) are not at least a fixed percentage of the employee's earnings, the amount of employer contributions shall equal the amount of employee contributions;

v. the job classification, grade, and salary earned under the transferring system as of the date of the last contribution to the transferring system, together with all job classifications and grades held during the time any and all service credit was earned and accrued under the transferring system.

b. Upon receipt of the appropriate information from the transferring system, as set forth above, the following calculations shall be performed:

i. the amount that would have been contributed by the employee, together with a duplicate amount designated as an employer contribution, including interest equal to the actuarial valuation rate approved by the board of trustees of this fund, compounded annually, from the date of the contribution until the date of transfer, just as if all of the employee's service credit had originally been accrued and contributions had been made in accordance with the law governing contributions to this fund;

ii. the total amount that would be transferred to this fund from the transferring system based on the total amount of all contributions and interest earned thereon, as further provided under §1303.A.3.a.

c. If the total of the amount determined under §1303.A.3.b.ii is equal to or greater than the amount determined under §1303.A.3.b.i, the trustees shall approve the transfer of the employee's service credit upon payment of

the amount calculated under §1303.A.3.b.ii from the transferring system to this fund.

d. If the total amount determined under §1303.A.3.b.i is greater than the amount determined under §1303.A.3.b.ii, the trustees shall not approve said transfer of service credit unless:

i. the employee pays to this fund the deficit or difference between the sums calculated under §1303.A.3.b.i and §1303.A.3.b.ii, including both employer and employee contributions, plus interest compounded thereon, equal to the actuarial valuation rate approved by the board of trustees of this fund; or

ii. in lieu of paying said deficit or difference, the employee, at his option, may elect to have his transferred service credit prorated under this fund, as calculated by the trustees, based on the amount of funds that would be transferred to this fund from the transferring system, including the amount of all contributions and interest earned thereon, as further provided under §1303.A.3.a. Said election may be made only at the time of transfer.

e. Notwithstanding the above provisions, the trustees shall not approve any application for transfer of credits to this fund from a transferring system unless the assets transferred, as determined under §1303.A.3.b.ii, amount to at least 100 percent of the increase in accrued liability that is occasioned by the employee's transfer to this fund, as calculated by the trustees and their consulting actuaries. However, the trustees shall approve any such application if the employee pays the difference in said accrued liability.

f. Credits transferred to this fund in accordance with §1303.A.3 shall be counted toward the eligibility requirement of 20 years of service under R.S. 11:3381 and R.S. 11:3384 to entitle the employee to a retirement benefit from this fund.

g. If an employee accumulates a combined total of 20 or more years of service credit after the transfer of service credits to this fund from a transferring system, and at such time the employee is continuing to make employee contributions in accordance with the law governing employee contributions to this fund under R.S. 11:3365.A, the employee shall no longer be subject to R.S. 11:3365.A pertaining to employee contributions through salary deductions and shall not be required to submit employee contributions to this fund thereafter. An employee who accumulates more than a combined total of 20 years of service credit after the transfer of credits to this fund from a transferring system shall not be entitled to apply any excess employee contributions resulting therefrom as a credit, refund, or offset against any deficiency or disparity that may result under §1303.A.3, even though the combined total years of service credit, after the transfer of credit to this fund, exceed 20 years of service credit.

h. If the employee had accumulated under the transferring system any free service credit, he may transfer said credit to this fund only upon payment to this fund of the

RETIREMENT

employee and employer contributions that would have been earned during the same period had the employee been a member of this fund, plus interest compounded thereon, equal to the actuarial valuation rate approved by the board of trustees of this fund from the date the contributions would have been due until the date paid. Said payment must be made at the time of transfer.

i. In calculating the retirement benefit of an employee who transfers service credit to this fund from a transferring system, in accordance with R.S. 11:143 and these rules and regulations, the trustees and their consulting actuary shall use the retirement percentage factor of the transferring system, based on the number of years of service credit transferred.

j. In the event an employee should die after filing with this fund his written application for transfer of credits from the transferring system to this fund, the trustees shall complete the transfer of service credit provided, however, that the application complies with R.S. 11:143 and with these rules and regulations. The trustees shall consider the application completed as of the day before the death of the employee.

4. Transfer of Credits from This Fund as the Transferring System to the Receiving System

a. If an employee transfers accumulated service credits from this fund (transferring system) to the receiving system designated by the employee, the following information with regard to the employee shall be furnished to the receiving system from this fund:

i. the number of credits accumulated under this fund and dates of service, including prior years of service, military service, or any other service credit;

ii. the amount of contributions accumulated under this fund as the transferring system attributable to:

- (a). employer contributions; and
- (b). employee contributions;

iii. the amount of interest equal to the actuarial valuation rate approved by the board of trustees of this fund, compounded annually, calculated from the year of contribution to the date of the desired transfer of credits attributable to:

- (a). employer contributions; and
- (b). employee contributions;

iv. the total of all contributions accumulated under this fund as the transferring system, plus interest attributable thereto, as specified herein. If the employer contributions referenced in §1303.A.4.a.ii.(a) and §1303.A.4.a.iii.(a) are not at least a fixed percentage of the employee's earnings, the amount of employer contributions shall equal the amount of employee contributions;

v. the job classification, grade, and salary earned under the transferring system at the date of the last contribution to the transferring system, together with all job classifications and grades held during the time any and all

service credit was earned and accrued under the transferring system.

b. If the trustees should receive notification from the receiving system that it has approved said transfer of service credits, the trustees shall transfer to the receiving system the total contributions and interest accumulated thereon, as specified herein.

c. In the event an employee should die after filing his written application with this fund or the receiving system designated by the employee for transfer of service credits from this fund to the receiving system, the trustees shall complete the transfer of service credit provided, however, that the application complies with R.S. 11:143 and with these rules and regulations. The trustees shall consider the application completed as of the day before the death of the employee.

5. General Provisions

a. After an application is completed, this fund, as the transferring system, shall have no future liability with respect to any employee who elects to have his service credits transferred from this fund to a receiving system. Similarly, any transferring system transferring service credits to this fund, as the receiving system, shall have no future liability with respect to any employee who elects to transfer credits to this fund.

b. The trustees shall not consider any request for transfer of a deceased employee's credits if the request is made by his survivor, heir, or estate.

c. In the event an employee completes a transfer of service credit in accordance with R.S. 11:143 and these rules and regulations, and either retires with a benefit or takes a deferred retirement from this fund or from any other public retirement system, and subsequently becomes employed in employment that would otherwise render him eligible to participate in a public retirement system which has previously transferred credit, he shall not be permitted, under R.S. 11:143.H, to become a member of said public retirement system. Accordingly, the trustees shall not permit membership in this fund of any employee who has retired with a benefit or has taken a deferred benefit from any other public retirement system if this fund has previously transferred credits for that employee.

d. The trustees, in their sole and absolute discretion, shall assess an actuarial transfer fee in such amount as they may deem fit and appropriate.

B. A member may also elect at any time prior to retirement to utilize annual leave in excess of the "use it or

The service retirement application and the DROP enrollment application shall not be submitted to the board for consideration and approval until such time as all required and requested data, documentation, and information have been submitted to the board in order to complete both the service retirement and the DROP enrollment applications. Such participation shall be limited to a maximum period of five years, i.e., 60 calendar months, as to each individual.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:3363, and 3385.1.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the Firefighters' Pension and Relief Fund for the City of New Orleans and Vicinity, LR 22:703 (August 1996), amended LR 26:290 (February 2000).

§1505. Participation in and Withdrawal from the DROP

A. The effective date of a member's entry into the DROP shall be the first day of the second calendar month following the calendar month in which the member initially files his DROP enrollment application, providing, however, that:

1. the member has completed submission of any and all requested data, documentation, and information to the board in connection with the DROP enrollment application and the service retirement application no later than the seventh of the first calendar month (or the first work day following this date if the seventh of the first calendar month falls on a holiday or weekend) following the submission date; and

2. the board has considered and formally approved said applications prior to the requested effective date.

B. Upon the effective date of the member's DROP participation, the fund shall distribute monthly benefit payments pursuant to the member's service retirement award into the member's DROP account.

C. Upon a member's commencement of participation in the DROP, his membership in the fund shall terminate and he shall accrue no additional creditable service during DROP participation.

D. No employer contributions shall be made to the fund on behalf of a member participating in the DROP, nor shall the member be required to make employee contributions to the fund.

E. A member's compensation and creditable service shall be frozen when the member enters participation in the DROP and shall thereafter remain as they existed on the effective date of the member's commencement of participation in the DROP.

F. A member participating in the DROP shall not be eligible to receive the cost-of-living adjustments awarded by the fund from time to time to retired members. Eligibility for cost-of-living adjustments shall not commence until the member has been separated from covered employment for one full year.

G. A member's DROP account shall not be charged, debited, or assessed any fees, charges or similar expenses of any kind for any purpose, nor shall the account be subject to diminution based on valuation or earnings losses of any kind during the member's participation in the DROP. In addition, no such fees, charges, losses, or other similar charges shall be charged, debited, or assessed against the member indirectly, during the member's participation in the DROP.

H. A member's DROP account shall not earn or accrue any interest, gains, or earnings of any kind, nor shall the member accrue such earnings indirectly, during his DROP participation. Upon completion of participation in the DROP,

and regardless of whether the member terminates employment with the fire department, the DROP account will earn interest each year based on a five-year rolling average of the composite rate of return of the pension fund, minus an administrative fee of no more than 2 percent, to be deducted from the member's DROP account each year.

I. Pursuant to R.S. 29:415.1, a member shall not accrue any military service credit or pension credit based on military service performed during a member's participation in the DROP.

J. The duration of participation in the DROP shall not exceed a period of five consecutive years, i.e., 60 consecutive calendar months, measured from the effective date of commencement of participation in the DROP.

K. A member may terminate his participation in the DROP to be effective as of the last day of any calendar month prior to the end of the maximum five-year period by filing with the board of trustees of the fund a DROP withdrawal application, providing the DROP withdrawal application is submitted to the board no later than the last day of the previous calendar month. Nevertheless, in the event the board determines, based on all facts and circumstances at issue, that justice so requires and equity so warrants, the board shall be fully authorized, entirely in its discretion, to approve termination of a firefighter's participation in the DROP effective upon a date earlier or later than would otherwise apply.

L. If a member participating in the DROP does not terminate his covered employment upon completion of five years of participation in the DROP or upon the effective date of his approved withdrawal prior thereto, payment of the member's service retirement benefit into the member's DROP account shall automatically cease. In the event the member has failed to notify the board of his intent to continue in his covered employment after the effective date of his DROP completion, the board shall notify the member, in writing, at his last known address, that the fund has ceased monthly payments into his DROP account.

M. If the member should die during his period of participation in the DROP, a lump sum payment of the balance in the member's DROP account shall be paid to his designated beneficiary, or if none, to his estate upon written application to the fund office. Any additional survivor and/or death benefits payable to the member's beneficiary or beneficiaries, in accordance with the member's individual retirement election, all applicable statutory provisions, and the board's rules and regulations pertaining to death benefits, shall also be subject to distribution.

N. No distribution shall be made from a member's DROP account until the member's covered employment has been fully terminated. A member's DROP account shall not be distributable at any time during the member's DROP participation or at any time prior to the member's separation from covered employment, even if the member has exited from the DROP.

O. Upon termination of covered employment, distribution of the member's DROP account may be made as a one-time lump sum payment, in a series of periodic or non-periodic payments, or as a partial lump sum payment with periodic distributions of the balance, all as allowed herein. Allowable distributions vary depending upon whether the member retires before, during or after the calendar year in which the member reaches age 55. Direct rollovers are subject to the fund's current rules and regulations and IRS guidelines.

1. Members Retiring before the Calendar Year in which the Member Reaches Age 55

a. A member who does not rollover his DROP account may withdraw 100 percent of his account balance at any time after termination of covered employment upon written notice to the fund office. For a member who retired before the calendar year in which the member reached age 55, and who is at the time of the distribution under age 59 1/2, the distribution of the member's taxable portion of his account balance will be subject to an early distribution penalty of the IRS equal to 10 percent of the taxable distribution.

b. A member may elect to receive his DROP account balance (including both taxable and non-taxable portions), as a series of equal periodic (at least annual) payments over the life (or life expectancy) of the member or the joint lives (or joint life expectancies) of the member and his designated beneficiary. Such periodic distributions over life expectancy are not subject to the 10 percent early distribution penalty; however, the distributions are subject to normal taxation on the taxable portion.

i. Upon the member's attainment of age 59 1/2 the equal periodic distributions may be terminated, and the member may elect to receive any form of distribution without incurrence of the 10 percent early distribution penalty until the member reaches age 70 1/2 at which time mandatory distributions over the member's and/or beneficiary's life expectancy must commence, as provided in Subsection P herein.

c. A member may elect to receive 100 percent of the non-taxable portion of his DROP account in one lump sum payment, and the balance of the DROP account as a series of equal periodic payments (at least annual) over the life (or life expectancy) of the member or the joint lives (or joint life expectancies) of the member and his designated beneficiary. No 10 percent penalty is assessed on this type of distribution.

i. Upon the member's attainment of age 59 1/2 the equal periodic distributions may be terminated, and the member may elect to receive any form of distribution without incurrence of the 10 percent early distribution penalty until the member reaches age 70 1/2, at which time mandatory distributions over the member's and/or beneficiary's life expectancy must commence, as provided in Subsection P herein.

d. A member may elect to receive his distribution in a manner other than a series of equal periodic payments based upon his and/or his beneficiary's life expectancy; however, if the member is under age 59 1/2 at the time of such a non-periodic distribution of a taxable amount of the DROP account, any such distribution will be subject to a 10 percent early distribution penalty, as well as a recapture penalty. The recapture penalty provides for a 10 percent additional tax on all taxable distributions received by the member since retirement, inclusive of monthly retirement benefits and any prior distributions from the member's DROP account.

i. Non-periodic distributions may be made no more than four times in a calendar year, and then only on the first day of each fiscal quarter (March 1, June 1, September 1 and December 1). All non-periodic distributions must be a minimum of \$1,000. For any distribution, the member must provide the fund office with written notice no later than 30 days prior to the first business day of the fiscal quarter.

2. Members Retiring during or after the Calendar Year in which the Member Reaches Age 55

a. Any member terminating covered employment during or after the calendar year in which the member reaches age 55 may elect any of the options available under Subparagraph O.1 above without being subject to the 10 percent early distribution penalty or recapture penalty. All other rules regarding non-periodic payments apply. In order for the fund to comply with federal law regarding the mandatory commencement of retirement benefits, distributions from a member's DROP account must commence no later than April 1 of the calendar year following the calendar year in which the member reaches age 70 1/2. These minimum distributions are accomplished by a monthly DROP distribution which is calculated to distribute the entire balance of a member's DROP account over a period not extending beyond the life expectancy of the member or the joint life expectancy of the member and his designated beneficiary. Distributions above those which are mandatory are allowable, subject to the fund's current rules.

i. Members terminating covered employment during or after the calendar year in which the member reaches age 55, who are now over age 70 1/2, are eligible to receive distribution of all or any portion of the DROP account exceeding the mandatory distributions, subject to fund's current rules.

P. Members and their beneficiaries may defer receipt of a distribution from the DROP account indefinitely, subject to the Internal Revenue Service's mandatory distribution rules.

Q. Upon termination of covered employment, the member may file an application with the board requesting distribution of his DROP Account on the first day of any calendar month following the calendar month of termination. Provided, however, that the requested distribution date shall be no earlier than the second calendar month following the calendar month of termination.

RETIREMENT

R. In the event a member validly elects to rollover all or any part of his DROP distribution to a qualified plan or an individual retirement account, said distribution shall not be made until at least 30 days after the member has acknowledged, in writing, receipt of the applicable explanation to employees and notice relating to rollover, direct rollover, income averaging treatment, and tax consequences upon distribution, or compliance with any timeliness requirement subsequently established by applicable law, if different. Any such election shall be made in compliance with the board's rules and regulations of direct rollovers and all applicable provisions of the *Internal Revenue Code* then effective.

S. Upon termination of covered employment, the monthly benefits that were formerly paid into the member's DROP account during his period of participation shall be paid directly to the retired member.

T. The member shall not be permitted to change, revoke or rescind the retirement benefit distribution option selected and/or the beneficiary or beneficiaries he designated upon entering into the DROP regarding his service retirement benefit nor shall any such change be permitted at the time the DROP account is distributed. However, a member who is participating or has participated in the three-year DROP and has continued in active employment with the fire department, may elect, on or before December 31, 1999, either to extend his participation in the DROP for the remainder of the five-year period beginning on the date he entered the DROP, or to revoke his participation in the DROP. In the event the member elects to extend his participation in the DROP, any period of time he has been out of the three-year DROP will be included in calculating the five-year DROP period. In the event the member elects to revoke his three-year DROP participation, the member's entire DROP account, including any interest earned, will be returned to the fund, and the member will be placed in the same position as if he had never elected to participate in the DROP. The member will be considered to have been an active employee in the system, and all creditable service and compensation earned during the period of the revoked DROP participation will be credited toward the member's new benefit calculation. If the member chose any option other than the single life annuity when he originally entered the DROP, his spouse must consent to the revocation and any subsequent election, other than a joint and survivor annuity option. However, no action by the member nor decision by the board may circumvent a previously approved QDRO.

U. If the member does not terminate his covered employment upon completion of the maximum five-year participation period or upon such earlier date as the member has specified for withdrawal:

1. monthly service retirement benefit payments into the DROP account shall cease; and
2. the member shall resume active membership in the system; and

3. the member shall commence accrual of additional creditable service under the system; and

4. the member's DROP account will begin to earn interest each year based on a five-year rolling average of the composite rate of return of the pension fund, minus an administrative fee of no more than 2 percent, which will be deducted from the member's DROP account each year. The interest rate will be determined by the fund actuary at the end of each calendar year, but will be effective beginning the subsequent fiscal year (July 1).

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:3363 and 3385.1.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the Firefighters' Pension and Relief Fund for the City of New Orleans and Vicinity, LR 22:704 (August 1996), amended LR 23:1145 (September 1997), LR 26:293 (February 2000).

§1507. Post-DROP Accruals and Retirement Benefits

A. If a member continues in covered employment after termination of his participation in the DROP, the member shall accrue a second retirement benefit based on his additional covered employment performed following the date of termination of his DROP participation, using the normal method of computation of benefits, subject to the following conditions.

1. New System Member

a. If the member originally retired from the new system, and his period of additional covered employment after termination of DROP participation is less than 48 months, the average compensation figure used to calculate the additional benefit accruals shall be that used to calculate the member's original benefit.

b. If the member originally retired from the new system, and his period of additional covered employment after termination of DROP participation is 48 months or more, the average compensation figure used to calculate the additional benefit accruals shall be based on the member's compensation earned during the period of post-DROP service.

2. Old System Member

a. If the member originally retired from the old system and his period of additional covered employment is less than 12 months, the average compensation figure used to calculate the additional benefit shall be that used to calculate the member's original benefit.

b. If the member originally retired from the old system and his period of additional covered employment is 12 months or more, the average compensation figure used to calculate the additional benefit shall be based on the member's compensation during the period of additional service.

3. If the member was first employed before December 31, 1967 but originally elected to retire from the new system, that election shall also apply to and determine the additional benefits accrued for post-DROP service.

B. The distribution option under R.S. 11:3385 originally selected by the new system member upon entering into the DROP shall also apply to any additional benefits accrued during the period of additional covered employment.

C. The beneficiary designated by the member upon entry into the DROP shall also be the beneficiary or beneficiaries designated in connection with the additional benefits accrued; however, in the event the member's designated beneficiary has predeceased the member, the member may designate a new beneficiary or beneficiaries for purposes of the additional retirement benefit only.

D. If, following a period of additional covered employment performed after leaving the DROP, the board determines that the member is disabled pursuant to R.S. 11:3376 and is therefore eligible to receive a service-connected disability benefit, the following terms and conditions shall apply.

1. The amount of the service-connected disability benefit shall be in the same amount and calculated as a service retirement benefit based only on the credited service accrued subsequent to the date of the member's termination of participation in the DROP.

2. The fund shall distribute to the member, upon his written application to the fund office, a lump sum payment in an amount specified by the member. Provided, however, that the member may not elect to withdraw an amount less than \$1,000, or more than the balance in his DROP account at the time the application is filed with the board of trustees.

3. The member's monthly benefit payments attributable to both the original and the additional benefits shall be paid directly to the retiree.

4. All monthly benefits paid and payable to the member, as well as his DROP account balance, shall be classified by the fund as service-connected disability benefits and shall be so reported on all necessary filings made by the fund to the Internal Revenue Service.

5. Under no circumstances shall the original benefit amount or the DROP account balance be recalculated, for any purpose.

E. In no event shall the member's additional retirement benefit exceed an amount which, when combined with the original benefit, equals 100 percent of the average of any three highest consecutive years of compensation earned by a member who elected to retire under the old system, or 100 percent of the average of any four highest consecutive years of compensation earned by a member who elected to retire under the new system, both during participation and after withdrawal from the DROP.

§1509. Trustees' Procedures Applicable to Payments to DROP Accounts

A. The procedures herein set forth shall govern the monthly payments owed by the fund to each member's DROP account during his participation in the DROP.

B. The board shall maintain a detailed accounting of each individual DROP account on behalf of each member currently participating in the DROP. Each month that a payment is due on behalf of the member, the board shall show a credit to the member's account and shall maintain a current balance showing the total credit to each member's account. At such time as the balance maintained in an individual member's DROP account shall exceed \$95,000, the board shall make all subsequent monthly payments directly to a separate fund bank account to be known as the excess DROP account to be established at a bank other than the fund's then current custodian bank in order to preserve full FDIC pass-through insurance for all participating members. An accounting of all such deposits exceeding \$95,000 per member and the balance to the credit of each such individual DROP participant in the separate excess DROP account shall be maintained. The sum of the participant's balances in both banks, plus any accrued earnings, less any applicable administrative fee, shall be the total to be distributed to the Participant at such time as a distribution is due.

C.1. Old System. At such time as the board furnishes to the city of New Orleans the required annual report, pursuant to R.S. 11:3375, of projected retirements, distributions, and other data necessary for the council to appropriate a budget allocation for each subsequent year, the board shall include in such projections all benefit obligations projected by the board relative to members retiring from the old system and entering or remaining in the DROP and shall include the projected monthly payments payable to fund DROP accounts for the benefit of all DROP participants.

2. New System. In regard to those members retiring under the new system, at such time as the fund's actuary certifies, pursuant to R.S. 11:3363.D, the annual amount of contributions required to be paid by the city of New Orleans for the subsequent year in order to maintain the new system on an actuarial basis, the fund actuary shall include therein actuarial projections relative to all anticipated benefit obligations projected for members retiring from the new system and entering or remaining in the DROP and shall include the projected monthly payments payable to fund DROP accounts for the benefit of all DROP participants.

D. When a member enters the DROP, a book transfer shall be made each month of the payment owed by the fund to each DROP participant until such time as the balance in the member's DROP account reaches \$95,000. Thereafter, the board shall cause a payment to be made each month from regular fund assets to the excess DROP account on behalf of that member, representing the amount of his monthly service retirement award.

E. The board shall maintain complete accounting records documenting all payments, receipts, and distributions to and from the fund's excess DROP account, as well as a detailed

record of the amount held and accumulated in each member's individual DROP account on behalf of each individual participant in the DROP, and the dates of all transactions related thereto. Nevertheless, all payments to the excess DROP account for the benefit of DROP participants shall be maintained in a joint account for all members, and the board shall not maintain individual or segregated bank accounts on behalf of each member.

F. The fund's actuary shall record in his annual actuarial valuation performed on behalf of the fund relative to the old and the new systems the amount of assets held each year in the excess DROP account for the benefit of all members currently participating.

G. On an annual basis, or more frequently should the board so determine, all earnings accrued in the excess DROP account shall be transferred from the excess DROP account to the fund's general bank account, to be invested or utilized as a general asset of the fund. However, an accounting of all interest earned by the DROP account of any member whose DROP participation has terminated, but who has not yet received a distribution of the full amount of his DROP account, shall be made no less frequently than annually.

H. No payments, disbursements, or deductions of any kind shall be made from the assets held in the excess DROP account other than distributions owed to individual members or their beneficiaries and the transfer of earnings held in the excess DROP account to the fund's general assets, as described in §1509.G.

I. All costs, expenses and fees payable in connection with DROP participation and/or maintenance of excess DROP account during a member's DROP participation, including any bank charges associated with the maintenance thereof, shall be paid, if an when due, only from the fund's general assets and from bank accounts other than the excess DROP account. However, upon a member's completion of DROP participation, regardless of whether he terminates employment with the fire department, his DROP account, if left with the fund, will be charged an administrative fee of up to 2 percent per year.

J. All assets held either in the fund's general account or in the excess DROP account on behalf of DROP participants shall be held, recognized, and treated as fund assets until such time as distributions approved by the board are made therefrom. No individual member participating in the DROP, or any person claiming through him, shall have any personal ownership, interest, or entitlement in any fund account, including the excess DROP account, until such time as a distribution is made to or on his behalf by the board.

K. All DROP assets held in the fund's general account or in the excess DROP account shall be exempt from seizure, levy, sale, garnishment, attachment, or any other process whatsoever, and shall be exempt from state and municipal taxes, except as follows.

1. The board shall honor all QDROs recognized by the board as valid pursuant to its procedural rules and regulations for determining status of qualified domestic relations orders, in accordance with the terms, conditions, and effective dates specified in each such individual order.

2. The board shall honor any such levy, garnishment, or other process validly served upon it in the event the board determines, based on advice of its counsel, that the process in question is based on statutory, administrative, judicial, or other authority or precedent that preempts and/or supersedes the provisions of R.S. 11:3389.

L. At such time as distributions are made by the fund to participants, beneficiaries, or other persons claiming through them, the payments shall be subject to federal, state, and municipal taxation, and to levy, garnishment, seizure, sale, attachment, or any other process whatsoever that is applicable to any other distribution or payment made to a retired member. However, any distribution of the balance contained in a member's DROP account shall also be subject to federal income tax and withholding treatment under the rollover provisions of the *Internal Revenue Code*, the regulations issued thereunder by the Internal Revenue Service, and the board's rules and regulations of direct rollovers, in the event the member or a qualified beneficiary should elect rollover treatment.

M. In the event a DROP participant has failed to keep the fund advised of his current address and whereabouts at a time when a distribution is due from the member's DROP account, the fund shall forward the distribution to the member's last known address, via certified mail. If said mailing is returned to the fund, the fund shall hold said mailing and check in the participant's file until such time as the board receives additional information sufficient to permit distribution. Any such distribution shall be made as a direct payment to the individual member, unless the member shall have validly elected to make a direct rollover to a qualified plan or a financial institution, in which event said election shall be honored.

N. If the board is unable to effect the required distribution because of the member's failure to advise the fund of his current address, or for any other reason not directly attributable to the fund's intentional action or inaction, neither the fund nor the board shall be responsible or liable for any loss, prejudice, expense, or other consequences, including tax liability or consequences, attributable to the fund's inability to distribute. No matter how long the board is required to hold the distribution due to such member failure, no interest, gains, or earnings of any kind shall be payable thereon.

O. At such time as a participant requests or the fund is required to effect any distribution of a member's DROP account balance, the board shall furnish to the member the applicable notice and explanation to employees relating to direct rollover, income averaging treatment and tax consequences upon distribution required under *Internal Revenue Code* §402(F) and Internal Revenue Service Notice Number 92-48, such notice to be furnished in accordance with the time delays and other requirements therein specified, as amended from time to time. Currently said statutory provisions and Internal Revenue Service Notice require that the notice and explanation to employees be furnished no later than 30 days prior to the date the DROP account is distributable.

P. Neither the board nor the fund shall give, distribute, or offer to any member or participant on the fund's behalf any advice, counseling, or information concerning taxability and tax consequences, or financial information pertaining to DROP distributions, other than the general summation reflected in the fund's explanation and notice to employees. Instead, the fund and the board shall advise the member that the rules applicable to distributions of lump sum amounts for a member's DROP account are complex and confusing and may prompt the member, in his individual discretion, to seek advice from a competent professional tax advisor or from the member's local Internal Revenue Service office, which, from time to time, may distribute publications relative to retirement distributions and related matters.

§1511. General

A. Consistent with the provisions of R.S. 11:3361 et seq., the board shall have full and complete authority and discretion to determine the eligibility of any member to enter the DROP and to receive a DROP distribution and to make any other determinations pertaining thereto, consistent with all applicable statutory provisions, applicable jurisprudence published thereunder, and all rules and regulations adopted by the board from time to time, including these rules and regulations pertaining to the DROP.

B. Should the board determine that a member is ineligible to participate in the DROP or should it make any other determination pertaining to the DROP that is considered by the member, a beneficiary, legal representative, or other person claiming through the member to be adverse or in any way prejudicial, the injured person shall be entitled to pursue an appeal before the board in accordance with the appeal procedures set forth in the fund's summary plan description. At the time any decision is issued to the board member, whether or not the board considers it to be adverse to the claimant, the claimant shall be advised, in writing, of such entitlement to request rehearing and of the time delays and other requirements to be observed in connection therewith.

C. No member, beneficiary, legal representative, or other person claiming through the member shall be entitled to pursue judicial review of any board determinations reached in regard to DROP entitlement and other issues pertaining to DROP participation, exit from the DROP, benefit distributions from the DROP, and related matters unless the claimant shall first have exhausted all internal fund appellate and review procedures and the board has issued a final decision, and then only in accordance with applicable provisions of the Louisiana Administrative Procedure Act, R.S. 49:950 et seq.

EDITOR'S NOTE: Section 2005 below references section 401(a)(37) of the Internal Revenue Code:

(37) Death benefits under userra-qualified active military service.—A trust shall not constitute a qualified trust unless the plan provides that, in the case of a participant who dies while performing qualified military service (as defined in section 414(u)), the survivors of the participant are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the plan had the participant resumed and then terminated employment on account of death.

§2001. General Provisions

A. The New Orleans Firefighters Pension and Relief Fund shall be a tax-qualified governmental plan as provided

Benefits of members shall also become vested and nonforfeitable upon the termination of the fund or the complete discontinuance of contributions to the system.

5. In computing benefit accruals, there shall not be taken into account compensation in excess of the limitations specified in section 401(a)(17) of the *Internal Revenue Code*, as amended. Such compensation limit was \$200,000 for tax years beginning after December 31, 2001.

F. *Lump sum benefit*, as used in this Act, shall refer to the supplementary allowance provided in R.S. 17:913C.

G. The last beneficiary designation on file in this agency will be the beneficiary of record for this system, whether filed before or after the repayment of a refund or a reciprocal recognition of service agreement.

H. Recognized creditable service from other systems and creditable service in this system will be converted to whole years and partial years, with partial years expressed as a percentage of a year.

I. The service referred to in Paragraph F(2) refers only to those systems where the years of service determines the percentage benefit (e.g., after 20 years a person may retire with 60 percent of his best three years, or after 25 years a person may retire with 75 percent of his best three years, etc.), and therefore, is not applicable to benefits or computations of benefits from this system.

J. *Pro rata portion* and *proportion* used in this Act shall be based on the maximum benefit in each system.

Chapter 4. Internal Revenue Code Provisions

§401. Limitation on Benefits

A. The limitations of this Chapter shall apply in limitation years beginning on or after July 1, 2007, except as otherwise provided herein.

B. The annual benefit otherwise payable to a member under the plan at any time shall not exceed the maximum permissible benefit. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

C. If the member is, or has ever been, a member in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible benefit.

D. The application of the provisions of this chapter shall not cause the maximum permissible benefit for any member to be less than the member's accrued benefit under all the defined benefit plans of the employer or a predecessor

RETIREMENT

employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to section 415 of the *Internal Revenue Code* in effect as of the end of the last limitation year beginning before July 1, 2007, as described in section 1.415(a)-1(g)(4) of the income tax regulations.

E. The limitations of this chapter shall be determined and applied taking into account the rules in Section G.

F. Definitions

415 Safe-Harbor Compensation—

a. Compensation is defined as wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (including, but not limited to, commissions paid salespersons, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, and reimbursements, or other expense allowances under a nonaccountable plan (as described in section 1.62-2(c) of the income tax regulations), and excluding the following:

i. employer contributions [other than elective contributions described in section 402(e)(3), section 408(k)(6), section 408(p)(2)(A)(i), or section 457(b)] to a plan of deferred compensation (including a simplified employee pension described in section 408(k) or a simple retirement account described in section 408(p), and whether or not qualified) to the extent such contributions are not includible in the member's gross income for the taxable year in which contributed, and any distributions (whether or not includible in gross income when distributed) from a plan of deferred compensation (whether or not qualified);

ii. amounts realized from the exercise of a nonstatutory stock option (that is, an option other than a statutory stock option as defined in section 1.421-1(b) of the income tax regulations), or when restricted stock (or property) held by the member either becomes freely transferable or is no longer subject to a substantial risk of forfeiture;

iii. amounts realized from the sale, exchange or other disposition of stock acquired under a statutory stock option;

iv. other amounts that receive special tax benefits, such as premiums for group-term life insurance (but only to the extent that the premiums are not includible in the gross income of the member and are not salary reduction amounts that are described in section 125);

v. other items of remuneration that are similar to any of the items listed in Clauses i through iv above.

b. For any self-employed individual, compensation shall mean earned income.

c. Except as provided herein, for limitation years beginning after December 31, 1991, compensation for a limitation year is the compensation actually paid or made available during such limitation year.

d. For limitation years beginning on or after July 1, 2007, compensation for a limitation year shall also include compensation paid by the later of 2 1/2 months after an member's severance from employment with the employer maintaining the plan or the end of the limitation year that includes the date of the member's severance from employment with the employer maintaining the plan, if:

i. the payment is regular compensation for services during the member's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer;

ii. the payment is for unused accrued bona fide sick, vacation or other leave that the member would have been able to use if employment had continued; or

iii. the payment is received by the member pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

e. Any payments not described above shall not be considered compensation if paid after severance from employment, even if they are paid by the later of 2 1/2 months after the date of severance from employment or the end of the limitation year that includes the date of severance from employment. Back pay, within the meaning of section 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

f. For limitation years beginning after December 31, 1997, compensation paid or made available during such limitation year shall include amounts that would otherwise be included in compensation but for an election under sections 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

g. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the member by reason of section 132(f)(4).

h. For limitation years beginning after December 31, 2008, compensation shall also include any differential wage payments as defined in code section 3401(h) which:

i. is made by the employer to an individual with respect to any period during which an individual is performing service in the uniformed services (as defined in chapter 43 of title 38, *United States Code*) while on active duty for a period of more than 30 days; and

ii. represents all or a portion of the remuneration such individual would have received from the employer if he or she was performing services for the employer.

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this article. For a member who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this chapter as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to section 1.401(a)-20, Q and A 10(d), and with regard to section 1.415(b)1(b)(1)(iii)(B) and (C) of the income tax regulations.

a. No actuarial adjustment to the benefit shall be made for:

i. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the member's benefit were paid in another form;

ii. benefits that are not directly related to retirement benefits (such as a disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

iii. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to section 417(e)(3) of the *Internal Revenue Code* and would otherwise satisfy the limitations of this chapter, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this chapter applicable at the annuity starting date, as increased in subsequent years pursuant to section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form. The determination of the annual benefit shall take into account social security supplements described in section 411(a)(9) of the *Internal Revenue Code* and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, but shall disregard benefits attributable to employee contributions or rollover contributions. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of

benefit other than a straight life annuity shall be made in accordance with §§401.F.1.b. or 401.F.1.c.

b. Benefit Forms Not Subject to Section 417(e)(3)

i. The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this Subparagraph F.1.b, if the form of the member's benefit is either:

(a). a non-decreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the member (or, in the case of a qualified preretirement survivor annuity, the life of the surviving spouse); or

(b). an annuity that decreases during the life of the member merely because of:

(i). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(ii). the cessation or reduction of Social Security supplements or qualified disability payments [as defined in section 401(a)(11)].

ii. Limitation years beginning before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(a). the interest rate specified in R.S. 11:1171 and the mortality table (or other tabular factor) specified in R.S. 11:1171 for adjusting benefits in the same form; and

(b). a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

iii. Limitation Years beginning on or after July 1, 2007. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

(a). the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the member's form of benefit; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

c. Benefit Forms Subject to Section 417(e)(3). The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this paragraph if the form of the member's benefit is other than a benefit form described in §401.F.1.b. In this case, the

actuarially equivalent straight life annuity shall be determined as follows:

i. Annuity Starting Date in Plan Years Beginning After 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning after 2005, the actuarially equivalent straight life annuity is equal to the greatest of:

(a). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of computed using the interest rate specified in R.S. 11:1171 and the mortality table (or other tabular factor) specified in R.S. 11:1171 for adjusting benefits in the same form;

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5.5 percent interest rate assumption and the applicable mortality table defined in R.S. 11:1171; and

(c). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the applicable interest rate defined in R.S. 11:1171 and the applicable mortality table defined, divided by 1.05.

ii. Annuity Starting Date in Plan Years Beginning in 2004 or 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning in 2004 or 2005, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greater annual amount:

(a). the interest rate specified in R.S. 11:1171 and the mortality table (or other tabular factor) specified in R.S. 11:1171 for adjusting benefits in the same form; and

(b). a 5.5 percent interest rate assumption and the applicable mortality table. If the annuity starting date of the member's benefit is on or after the first day of the first plan year beginning in 2004 and before December 31, 2004, the application of this §401.F.1.c. shall not cause the amount payable under the member's form of benefit to be less than the benefit calculated under the plan, taking into account the limitations of this Chapter, except that the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greatest annual amount:

(i). the interest rate specified in R.S. 11:1171 and the mortality table (or other tabular factor) specified in R.S. 11:1171 for adjusting benefits in the same form;

(ii). the applicable interest rate defined in R.S. 11:1171 and the applicable mortality table; and

(iii). the applicable interest rate defined in R.S. 11:1171 (as in effect on the last day of the last plan year beginning before January 1, 2004, under provisions of the plan then adopted and in effect) and the applicable mortality table.

Applicable Mortality Table—the applicable mortality table within the meaning of section 417(e)(3)(B) of the *Internal Revenue Code*.

Defined Benefit Compensation Limitation—100 percent of a member's high three-year average compensation, payable in the form of a straight life annuity. In the case of a member who is rehired after a severance from employment, the defined benefit compensation limitation is the greater of 100 percent of the member's high three-year average compensation, as determined prior to the severance from employment or 100 percent of the member's high three-year average compensation, as determined after the severance from employment under §401.G.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, the defined benefit dollar limitation is \$160,000, automatically adjusted under section 415(d) of the *Internal Revenue Code*, effective January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity. The new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year.

Employer—for purposes of this chapter, employer shall mean the employer that adopts this plan, and all members of a controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), all commonly controlled trades or businesses [as defined in section 414(c), as modified, except in the case of a brother-sister group of trades or businesses under common control, by section 415(h)], or affiliated service groups [as defined in section 414(m)] of which the adopting employer is a part, and any other entity required to be aggregated with the employer pursuant to section 414(o) of the *Internal Revenue Code*.

Formerly Affiliated Plan of the Employer—a plan that, immediately prior to the cessation of affiliation, was actually maintained by the employer and, immediately after the cessation of affiliation is not actually maintained by the employer. For this purpose, cessation of affiliation means the event that causes an entity to no longer be considered the employer, such as the sale of a member controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), to an unrelated corporation, or that causes a plan to not actually be maintained by the employer, such as transfer of plan sponsorship outside a controlled group.

High Three-Year Average Compensation—the average compensation for the three consecutive years of service (or, if the member has less than three consecutive years of service, the member's longest consecutive period of service,

including fractions of years, but not less than one year) with the employer that produces the highest average. A year of service with the employer is the 12 consecutive month period defined in R.S. 11:1131. In the case of a member who is rehired by the employer after a severance from employment, the member's high three-year average compensation shall be calculated by excluding all years for which the member performs no services for and receives no compensation from the employer (the break period) and by treating the years immediately preceding and following the break period as consecutive. A member's compensation for a year of service shall not include compensation in excess of the limitation under section 401(a)(17) of the *Internal Revenue Code* that is in effect for the calendar year in which such year of service begins.

Limitation Year—a fiscal year, from July 1 to June 31. All qualified plans maintained by the employer must use the same limitation year. If the limitation year is amended to a different 12-consecutive month period, the new limitation year must begin on a date within the limitation year in which the amendment is made.

Maximum Permissible Benefit—the lesser of the defined benefit dollar limitation or the defined benefit compensation limitation (both adjusted where required, as provided below).

a. Adjustment for Less than 10 Years of Participation or Service. If the member has less than 10 years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction:

i. the numerator of which is the number of years (or part thereof, but not less than one year) of participation in the plan; and

ii. the denominator of which is 10. In the case of a member who has less than 10 years of service with the employer, the defined benefit compensation limitation shall be multiplied by a fraction:

(a). the numerator of which is the number of years (or part thereof, but not less than one year) of Service with the employer; and

(b). the denominator of which is 10.

b. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62 or after Age 65. Effective for benefits commencing in limitation years ending after December 31, 2001, the defined benefit dollar limitation shall be adjusted if the annuity starting date of the member's benefit is before age 62 or after age 65. If the annuity starting date is before age 62, the defined benefit dollar limitation shall be adjusted under Clause b.i of this Paragraph, as modified by Clause b.iii of this Paragraph. If the annuity starting date is after age 65, the defined benefit dollar limitation shall be adjusted under Clause b.ii of this Paragraph, as modified by Clause b.iii of this Paragraph.

i. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62

(a). Limitation Years Beginning before July 1, 2007. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under §401.F.10.a. for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate specified in R.S. 11:1171 and the mortality table (or other tabular factor) specified in R.S. 11:1171; or

(ii). a 5 percent interest rate assumption and the applicable mortality table as defined in R.S. 11:1171.

(b). Limitation Years Beginning on or After July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for the annuity starting date as defined in R.S. 11:1171 (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the lesser of the limitation determined under Division b.i.(b).(i) of this Paragraph and the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under the plan at age 62, both determined without applying the limitations of this article.

ii. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement after Age 65

(a). Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate specified in R.S. 11:1171 and the mortality table (or other tabular factor) specified in R.S. 11:1171; or

(ii). a 5-percent interest rate assumption and the applicable mortality table as defined in R.S. 11:1171.

(b). Limitation Years Beginning Before July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required), with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date as defined in R.S. 11:1171 (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the lesser of the limitation determined under §401.F.10.b.ii.(b).(i). and the defined benefit dollar limitation (adjusted under §401.F.10.a. for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the adjusted immediately commencing straight life annuity under the plan at age 65, both determined without applying

the limitations of this article. For this purpose, the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date is the annual amount of such annuity payable to the member, computed disregarding the member's accruals after age 65 but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the plan at age 65 is the annual amount of such annuity that would be payable under the plan to a hypothetical member who is age 65 and has the same accrued benefit as the member.

iii. Notwithstanding the other requirements of this Subparagraph F.10.b., no adjustment shall be made to the defined benefit dollar limitation to reflect the probability of a member's death between the annuity starting date and age 62, or between age 65 and the annuity starting date, as applicable, if benefits are not forfeited upon the death of the member prior to the annuity starting date. To the extent benefits are forfeited upon death before the annuity starting date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the member's death if the plan does not charge members for providing a qualified preretirement survivor annuity, as defined in section 417(c) of the *Internal Revenue Code*, upon the member's death.

c. Minimum Benefit Permitted. Notwithstanding anything else in this section to the contrary, the benefit otherwise accrued or payable to a member under this plan shall be deemed not to exceed the maximum permissible benefit if:

i. the retirement benefits payable for a limitation year under any form of benefit with respect to such member under this plan and under all other defined benefit plans (without regard to whether a plan has been terminated) ever maintained by the employer do not exceed \$10,000 multiplied by a fraction:

(a). the numerator of which is the member's number of years (or part thereof, but not less than one year) of service (not to exceed 10) with the employer; and

(b). the denominator of which is 10; and

ii. the employer (or a predecessor employer) has not at any time maintained a defined contribution plan in which the member participated (for this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under section 401(h), and accounts for postretirement medical benefits established under section 419A(d)(1) are not considered a separate defined contribution plan).

Predecessor Employer—if the employer maintains a plan that provides a benefit which the member accrued while performing services for a former employer, the former employer is a predecessor employer with respect to the member in the plan. A former entity that antedates the employer is also a predecessor employer with respect to a member if, under the facts and circumstances, the employer

constitutes a continuation of all or a portion of the trade or business of the former entity.

Severance from Employment—an employee has a severance from employment when the employee ceases to be an employee of the employer maintaining the plan. An employee does not have a severance from employment if, in connection with a change of employment, the employee's new employer maintains the plan with respect to the employee.

Year of Participation—the member shall be credited with a year of participation (computed to fractional parts of a year) for each accrual computation period for which the following conditions are met:

a. the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period; and

b. the member is included as a member under the eligibility provisions of the plan for at least one day of the accrual computation period. If these two conditions are met, the portion of a year of participation credited to the member shall equal the amount of benefit accrual service credited to the member for such accrual computation period. A member who is permanently and totally disabled within the meaning of section 415(c)(3)(C)(i) of the *Internal Revenue Code* for an accrual computation period shall receive a year of participation with respect to that period. In addition, for a member to receive a year of participation (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event shall more than one year of participation be credited for any 12-month period.

Year of Service—for purposes of Section 401.G, the member shall be credited with a year of service (computed to fractional parts of a year) for each accrual computation period for which the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period, taking into account only service with the employer or a predecessor employer.

G. Other Rules

1. **Benefits under Terminated Plans.** If a defined benefit plan maintained by the employer has terminated with sufficient assets for the payment of benefit liabilities of all plan members and a member in the plan has not yet commenced benefits under the plan, the benefits provided pursuant to the annuities purchased to provide the member's benefits under the terminated plan at each possible annuity starting date shall be taken into account in applying the limitations of this article. If there are not sufficient assets for the payment of all members' benefit liabilities, the benefits taken into account shall be the benefits that are actually provided to the member under the terminated plan.

2. **Benefits Transferred from the Plan.** If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are not treated as being provided under the transferor plan (but are taken into account as benefits provided under the transferee plan). If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan that is not maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are treated by the employer's plan as if such benefits were provided under annuities purchased to provide benefits under a plan maintained by the employer that terminated immediately prior to the transfer with sufficient assets to pay all members' benefit liabilities under the plan. If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan in a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the amount transferred is treated as a benefit paid from the transferor plan.

3. **Formerly Affiliated Plans of the Employer.** A formerly affiliated plan of an employer shall be treated as a plan maintained by the employer, but the formerly affiliated plan shall be treated as if it had terminated immediately prior to the cessation of affiliation with sufficient assets to pay members' benefit liabilities under the plan and had purchased annuities to provide benefits.

4. **Plans of a Predecessor Employer.** If the employer maintains a defined benefit plan that provides benefits accrued by a member while performing services for a predecessor employer, the member's benefits under a plan maintained by the predecessor employer shall be treated as provided under a plan maintained by the employer. However, for this purpose, the plan of the predecessor employer shall be treated as if it had terminated immediately prior to the event giving rise to the predecessor employer relationship with sufficient assets to pay members' benefit liabilities under the plan, and had purchased annuities to provide benefits; the employer and the predecessor employer shall be treated as if they were a single employer immediately prior to such event and as unrelated employers immediately after the event; and if the event giving rise to the predecessor relationship is a benefit transfer, the transferred benefits shall be excluded in determining the benefits provided under the plan of the predecessor employer.

5. **Special Rules.** The limitations of this chapter shall be determined and applied taking into account the rules in section 1.415(f)-1(d), (e) and (h) of the income tax regulations.

RETIREMENT

38:3241 (December 2012), amended by the Department of the Treasury, Board of Trustees of the School Employees' Retirement System, LR 43:1187 (June 2017).

§403. Required Minimum Distributions

A.1. Unless the member has elected otherwise on or before December 31, 1983, the entire benefit of a member shall be distributed over a period not longer than the longest of the following periods:

- a. the member's life;
- b. if the member is married, the life of the member's designated beneficiary;
- c. the member's life expectancy;
- d. the joint life and last survivor life expectancy of the member and his designated beneficiary.

2. If the member is married and his spouse survives him, the designated beneficiary for at least a qualified joint and survivor annuity and 50 percent of his deferred retirement option plan account shall be his spouse, unless such spouse has consented to the contrary in writing before a notary public. For purposes of this Paragraph, *spouse* shall mean that person who is married to the member under a legal regime of community of acquets and gains on his effective date of retirement or effective date of participation in the deferred retirement option plan, whichever is earlier.

3. If the member was a member on or before December 31, 1983, he shall be deemed to have made the election referred to herein. If a member dies after the commencement of his benefits, the remaining portion of his benefit shall be distributed at least as rapidly as before his death. Payment of survivor benefits shall not be considered to violate this provision.

B.1. If the member dies before his benefit has commenced the remainder of such interest shall be distributed to the member's beneficiary within five years after the date of such member's death.

2. Paragraph 1 of this Subsection shall not apply to any portion of a member's benefit which is payable to or for the benefit of a designated beneficiary or beneficiaries, over the life of or over the life expectancy of such beneficiary, so long as such distributions begin not later than one year after the date of the member's death, or, in the case of the member's surviving spouse, the date the member would have attained the age of 70 years and six months. If the designated beneficiary is a child of the member, for purposes of satisfying the requirement of Paragraph 1 of this Subsection, any amount paid to such child shall be treated as if paid to the member's surviving spouse if such amount would become payable to such surviving spouse, if alive, upon the child's reaching age eighteen or, if later, upon the child's completing a designated event. For purposes of the preceding sentence, a designated event shall be the later of the date the child is no longer disabled, or the date the child ceases to be a full-time student or attains age 23, if earlier.

3. Paragraph 1 of this Subsection shall not apply if the distribution of the member's interest has commenced and is

for a term certain over a period permitted in Subsection A of this Section.

4. Paragraph 1 of this Subsection shall not apply if the member has elected otherwise on or before December 31, 1983, or such later date to which such election period shall be subject under *Internal Revenue Code* section 401(a).

C. As to any benefit payable by the retirement system which is not optional as of December 31, 1983, the member shall be considered to have made the election referred to in Subsections A and B of this Section, if he was a member on or before such time.

D. If by operation of law or by action of the board of trustees, a survivor benefit is payable to a specified person or persons, the member shall be considered to have designated such person as an alternate beneficiary hereunder. If there is more than one such person, then the youngest disabled child shall be considered to have been so designated, or, if none, then the youngest person entitled to receive a survivor benefit shall be considered to have been so designated. The designation of a designated beneficiary hereunder shall not prevent payment to multiple beneficiaries but shall only establish the permitted period of payments.

E. Payment in accordance with the survivor benefit provisions of R.S. 11:1151 shall be deemed not to violate Subsections A and B of this Section.

F. This Section shall be effective for members of the system who complete any service under the system on or after July 1, 1992, with employers contributing to the system.

G. Distributions from the system shall be made in accordance with the requirements set forth in *Internal Revenue Code* section 401(a)(9), including the minimum distribution incidental benefit rules applicable thereunder.

H.1. A member's benefits shall commence to be paid on or before the required beginning date.

2. The required beginning date shall be April 1 of the calendar year following the later of the calendar year in which the member attains 70 1/2 years of age, or the calendar year in which the employee retires. Effective for plan years beginning on or after January 1, 1998, the required beginning date shall be April 1 of the year following the later of the year the member attained 70 1/2 or the year he terminated employment.

§405. Direct Rollovers

A. Notwithstanding any other provision of law to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by the board of trustees, to have any portion of an "eligible rollover distribution", as specified by

the distributee, paid directly to an “eligible retirement plan”, as those terms are defined below.

B. The following definitions shall apply.

Eligible Rollover Distribution—any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

a. any distribution that is one of a series of substantially equal periodic payments, not less frequently than annually, made for the life or life expectancy of the member, or the joint lives or joint life expectancies of the member and the member's designated beneficiary, or for a specified period of ten years or more;

b. any distribution to the extent that such distribution is required under section 401(a)(9) of the United States *Internal Revenue Code*; and

c. any distribution which is made upon hardship of the employee.

Eligible Retirement Plan—any of the following:

b. an individual retirement annuity described in section 408(b) of the *Internal Revenue Code*;

c. an annuity plan described in section 403(a) of the *Internal Revenue Code*;

d. a qualified trust as described in section 401(a) of the *Internal Revenue Code*, provided that such trust accepts the member's eligible rollover distribution;

e. an eligible deferred compensation plan described in section 457(b) of the *Internal Revenue Code* that is maintained by an eligible governmental employer, provided the plan contains provisions to account separately for amounts transferred into such plan; and

f. an annuity contract described in section 403(b) of the *Internal Revenue Code*.

Distributee—shall include:

a. a member or former member;

b. the member's or former member's surviving spouse, or the member's or former member's former spouse with whom a benefit or a return of employee contributions is to be divided pursuant to R.S. 11:291(B), with reference to an interest of the member or former spouse;

c. the member's or former member's non-spouse beneficiary, provided the specified distribution is to an eligible retirement plan as defined in Subparagraphs a and b of the definition of *eligible retirement plan* in this Section.

Direct Rollover—a payment by the system to the eligible retirement plan specified by the distributee.

§407. Annual Compensation Limitation

A. Unless otherwise provided in this Chapter, the accrued benefit of each *section 401(a)(17) employee* as that term is defined below shall be the greater of the following:

1. The employee's accrued benefit determined with respect to the benefit formula applicable for the plan year beginning on or after January 1, 1996, as applied to the employee's total years of service taken into account for purposes of benefit accruals.

2. The sum of:

a. the employee's accrued benefit as of the last day of the last plan year beginning before January 1, 1996, frozen in accordance with the provisions of section 1.401(a)(4)-1 through 1.401(a)(4)-13 of the Code of Federal Regulations;

b. the employee's accrued benefit determined under the benefit formula applicable for the plan year beginning on or after January 1, 1996, as applied to the employee's years of service credited to the employee for plan years beginning on or after January 1, 1996, for purposes of benefit accruals.

B. A *section 401(a)(17) employee* shall mean any employee whose current accrued benefit, as of a date on or after the first day of the first plan year beginning on or after January 1, 1996, is based on compensation for a year beginning prior to the first day of the first plan year beginning on or after January 1, 1996, that exceeded \$150,000.

C. If an employee is not a “Section 401(a)(17) employee”, his accrued benefit in this system shall not be based upon compensation in excess of the annual limit of Section 401(a)(17) of the United States *Internal Revenue Code* as amended and revised.

by executing appropriate participation and/or adoption agreements with the trustee(s) of the group trust(s).

B. For purposes of transferring assets of the retirement system to a trustee(s) of any current or future group trust(s), by the execution of such group trust's participation agreement(s), the board of trustees specifically adopts the trustee's declaration of the group trust as part the retirement system to the extent of its interest in the group trust, or as is required by applicable law, for the purposes of such investment and compliance with Revenue Ruling 81-100, 1981-1 CB 326 (as clarified and modified by Revenue Ruling 2004-67, 2004-2 CB 28, and modified by Revenue Ruling 2011-1, 2011-2 IRB 251, or any subsequent guidance).

C. Chapter 2. Internal Revenue Code Provisions

§201. Limitation on Benefits

A. The limitations of this Chapter shall apply in limitation years beginning on or after July 1, 2007, except as otherwise provided herein.

B. The annual benefit otherwise payable to a member under the plan at any time shall not exceed the maximum permissible benefit. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

C. If the member is, or has ever been, a member in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible benefit.

D. The application of the provisions of this Chapter shall not cause the maximum permissible benefit for any member to be less than the member's accrued benefit under all the defined benefit plans of the employer or a predecessor employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to section 415 of the *Internal Revenue Code* in effect as of the end of the last limitation year

beginning before July 1, 2007, as described in section 1.415(a)-1(g)(4) of the income tax regulations.

E. The limitations of this Chapter shall be determined and applied taking into account the rules in Subsection G.

F. Definitions

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this article. For a member who has or will have distributions commencing at more than one annuity starting date, the *annual benefit* shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Chapter as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to section 1.401(a)-20, Q and A 10(d), and with regard to section 1.415(b)1(b)(1)(iii)(B) and (C) of the income tax regulations.

a. No actuarial adjustment to the benefit shall be made for:

i. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the member's benefit were paid in another form;

ii. benefits that are not directly related to retirement benefits (such as a disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

iii. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to section 417(e)(3) of the *Internal Revenue Code* and would otherwise satisfy the limitations of this Chapter, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Chapter applicable at the annuity starting date, as increased in subsequent years pursuant to section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form. The determination of the *annual benefit* shall take into account social security supplements described in section 411(a)(9) of the *Internal Revenue Code* and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant to

section 1.411(d)-4, Q and A-3(c), of the income tax regulations, but shall disregard benefits attributable to employee contributions or rollover contributions. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with §201.F.1.b or F.1.c.

b. Benefit Forms Not Subject to Section 417(e)(3)

i. The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this Subparagraph b, if the form of the member's benefit is either:

(a). a non-decreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the member (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse); or

(b). an annuity that decreases during the life of the member merely because of:

(i). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(ii). the cessation or reduction of Social Security supplements or qualified disability payments [as defined in section 401(a)(11)].

ii. Limitation Years Beginning before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(a). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

(b). a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

iii. Limitation Years Beginning on or after July 1, 2007. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

(a). the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the member's form of benefit; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

c. Benefit Forms Subject to Section 417(e)(3). The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this Paragraph if the form of the member's benefit is other than a benefit form described in §201.F.1.b. In this case, the actuarially equivalent straight life annuity shall be determined as follows.

i. Annuity Starting Date in Plan Years Beginning After 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning after 2005, the actuarially equivalent straight life annuity is equal to the greatest of:

(a). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of computed using the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5.5 percent interest rate assumption and the applicable mortality table; and

(c). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the applicable interest rate and the applicable mortality table, divided by 1.05.

ii. Annuity Starting Date in Plan Years Beginning in 2004 or 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning in 2004 or 2005, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greater annual amount:

(a). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

(b). a 5.5 percent interest rate assumption and the applicable mortality table. If the annuity starting date of the member's benefit is on or after the first day of the first plan year beginning in 2004 and before December 31, 2004, the application of this §201.F.1.c. shall not cause the amount payable under the member's form of benefit to be less than the benefit calculated under the plan, taking into account the limitations of this Chapter, except that the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greatest annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form;

(ii). the applicable interest rate and the applicable mortality table; and

(iii). the applicable interest rate (as in effect on the last day of the last plan year beginning before January 1, 2004, under provisions of the plan then adopted and in effect) and the applicable mortality table.

Applicable Interest Rate—the rate of interest on 30 year Treasury securities (or any subsequent rate used under section 417(e) of the *Internal Revenue Code*) as specified by the Internal Revenue Service for the lookback month. The lookback month applicable to the stability period is the second calendar month preceding the first day of the stability period. The stability period is the plan year that contains the annuity starting date for the distribution and for which the *applicable interest rate* remains constant.

Applicable Mortality Table—the *applicable mortality table* within the meaning of section 417(e)(3)(B) of the *Internal Revenue Code*.

415 Safe-Harbor Compensation—

a. *compensation*—wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (including, but not limited to, commissions paid salespersons, *compensation* for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, and reimbursements, or other expense allowances under a nonaccountable plan (as described in section 1.62-2(c) of the income tax regulations), and excluding the following:

i. employer contributions [other than elective contributions described in section 402(e)(3), section 408(k)(6), section 408(p)(2)(A)(i), or section 457(b)] to a plan of deferred *compensation* (including a simplified employee pension described in section 408(k) or a simple retirement account described in section 408(p), and whether or not qualified) to the extent such contributions are not includible in the member's gross income for the taxable year in which contributed, and any distributions (whether or not includible in gross income when distributed) from a plan of deferred *compensation* (whether or not qualified);

ii. amounts realized from the exercise of a nonstatutory stock option (that is, an option other than a statutory stock option as defined in section 1.421-1(b) of the income tax regulations), or when restricted stock (or property) held by the member either becomes freely transferable or is no longer subject to a substantial risk of forfeiture;

iii. amounts realized from the sale, exchange or other disposition of stock acquired under a statutory stock option;

iv. other amounts that receive special tax benefits, such as premiums for group-term life insurance (but only to

the extent that the premiums are not includible in the gross income of the member and are not salary reduction amounts that are described in section 125);

v. other items of remuneration that are similar to any of the items listed in Clauses i-iv above;

b. for any self-employed individual:

i. *compensation*—earned income;

c. except as provided herein, for limitation years beginning after December 31, 1991, *compensation* for a limitation year is the *compensation* actually paid or made available during such limitation year;

d. for limitation years beginning on or after July 1, 2007, *compensation* for a limitation year shall also include *compensation* paid by the later of 2 1/2 months after an member's severance from employment with the employer maintaining the plan or the end of the limitation year that includes the date of the member's severance from employment with the employer maintaining the plan, if:

i. the payment is regular *compensation* for services during the member's regular working hours, or *compensation* for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer;

ii. the payment is for unused accrued bona fide sick, vacation or other leave that the member would have been able to use if employment had continued; or

iii. the payment is received by the member pursuant to a nonqualified unfunded deferred *compensation* plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income;

e. any payments not described above shall not be considered *compensation* if paid after severance from employment, even if they are paid by the later of 2 1/2 months after the date of severance from employment or the end of the limitation year that includes the date of severance from employment. Back pay, within the meaning of section 1.415(c)-2(g)(8), shall be treated as *compensation* for the limitation year to which the back pay relates to the extent the back pay represents wages and *compensation* that would otherwise be included under this definition;

f. for limitation years beginning after December 31, 1997, *compensation* paid or made available during such limitation year shall include amounts that would otherwise be included in *compensation* but for an election under sections 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b);

g. for limitation years beginning after December 31, 2000, *compensation* shall also include any elective amounts that are not includible in the gross income of the member by reason of section 132(f)(4).

Defined Benefit Compensation Limitation—100 percent of a member's high three-year average compensation, payable in the form of a straight life annuity. In the case of a member who is rehired after a severance from employment, the *defined benefit compensation limitation* is the greater of 100 percent of the member's high three-year average compensation, as determined prior to the severance from employment or 100 percent of the member's high three-year average compensation, as determined after the severance from employment under §201.G.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, the *defined benefit dollar limitation* is \$160,000, automatically adjusted under section 415(d) of the *Internal Revenue Code*, effective January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity. The new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year.

Employer (for purposes of this Chapter)—the *employer* that adopts this plan, and all members of a controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), all commonly controlled trades or businesses [as defined in section 414(c), as modified, except in the case of a brother-sister group of trades or businesses under common control, by section 415(h)], or affiliated service groups [as defined in section 414(m)] of which the adopting *employer* is a part, and any other entity required to be aggregated with the *employer* pursuant to section 414(o) of the *Internal Revenue Code*.

Formerly Affiliated Plan of the Employer—a plan that, immediately prior to the cessation of affiliation, was actually maintained by the employer and, immediately after the cessation of affiliation is not actually maintained by the employer. For this purpose:

a. *cessation of affiliation*—the event that causes an entity to no longer be considered the employer, such as the sale of a member controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), to an unrelated corporation, or that causes a plan to not actually be maintained by the employer, such as transfer of plan sponsorship outside a controlled group.

High Three-Year Average Compensation—the average compensation for the three consecutive years of service (or, if the member has less than three consecutive years of service, the member's longest consecutive period of service, including fractions of years, but not less than one year) with the employer that produces the highest average. In the case of a member who is rehired by the employer after a severance from employment, the member's *high three-year average compensation* shall be calculated by excluding all years for which the member performs no services for and receives no compensation from the employer (the break period) and by treating the years immediately preceding and following the break period as consecutive. A member's

compensation for a year of service shall not include compensation in excess of the limitation under section 401(a)(17) of the *Internal Revenue Code* that is in effect for the calendar year in which such year of service begins.

Limitation Year—a fiscal year, from July 1 to June 31. All qualified plans maintained by the employer must use the same *limitation year*. If the *limitation year* is amended to a different 12-consecutive month period, the new *limitation year* must begin on a date within the *limitation year* in which the amendment is made.

Maximum Permissible Benefit—the lesser of the defined benefit dollar limitation or the defined benefit compensation limitation (both adjusted where required, as provided below).

a. Adjustment for Less than 10 Years of Participation or Service. If the member has less than 10 years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction:

i. the numerator of which is the number of years (or part thereof, but not less than one year) of participation in the plan; and

ii. the denominator of which is 10. In the case of a member who has less than 10 years of service with the employer, the defined benefit compensation limitation shall be multiplied by a fraction:

(a). the numerator of which is the number of years (or part thereof, but not less than one year) of Service with the employer; and

(b). the denominator of which is 10.

b. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62 or after Age 65. Effective for benefits commencing in limitation years ending after December 31, 2001, the defined benefit dollar limitation shall be adjusted if the annuity starting date of the member's benefit is before age 62 or after age 65. If the annuity starting date is before age 62, the defined benefit dollar limitation shall be adjusted under Clause b.i of this Paragraph, as modified by Clause b.iii of this Paragraph. If the annuity starting date is after age 65, the defined benefit dollar limitation shall be adjusted under Clause b.ii of this Paragraph, as modified by Clause b.iii of this Paragraph.

i. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62

(a). Limitation Years Beginning before July 1, 2007. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under §201.F.11.a. for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; or

(ii). a 5 percent interest rate assumption and the applicable mortality table.

(b). Limitation Years Beginning on or After July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for the annuity starting date (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the lesser of the limitation determined under Division b.i.(b).(i) of this Paragraph and the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under the plan at age 62, both determined without applying the limitations of this article.

ii. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement after Age 65

(a). Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial

equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; or

(ii). a 5 percent interest rate assumption and the applicable mortality table.

(b). Limitation Years Beginning Before July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required), with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the lesser of the limitation determined under §201.F.11.b.ii.(b).(i) and the defined benefit dollar limitation (adjusted under §201.F.11.a for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the adjusted immediately commencing straight life annuity under the plan at age 65, both determined without applying the limitations of this article. For this purpose, the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date is the annual amount of such annuity payable to the member, computed disregarding the member's accruals after age 65 but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the plan at age 65 is the annual amount of such annuity that would be payable under the plan to a hypothetical member who is age 65 and has the same accrued benefit as the member.

RETIREMENT

iii. Notwithstanding the other requirements of this Subparagraph F.10.b., no adjustment shall be made to the defined benefit dollar limitation to reflect the probability of a member's death between the annuity starting date and age 62, or between age 65 and the annuity starting date, as applicable, if benefits are not forfeited upon the death of the member prior to the annuity starting date. To the extent benefits are forfeited upon death before the annuity starting date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the member's death if the plan does not charge members for providing a qualified preretirement survivor annuity, as defined in section 417(c) of the *Internal Revenue Code*, upon the member's death.

c. Minimum Benefit Permitted. Notwithstanding anything else in this Section to the contrary, the benefit otherwise accrued or payable to a member under this plan shall be deemed not to exceed the *maximum permissible benefit* if:

i. the retirement benefits payable for a limitation year under any form of benefit with respect to such member under this plan and under all other defined benefit plans (without regard to whether a plan has been terminated) ever maintained by the employer do not exceed \$10,000 multiplied by a fraction:

(a). the numerator of which is the member's number of years (or part thereof, but not less than 1 year) of service (not to exceed 10) with the employer; and

(b). the denominator of which is 10; and

ii. the employer (or a predecessor employer) has not at any time maintained a defined contribution plan in which the member participated (for this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under section 401(h), and accounts for postretirement medical benefits established under section 419A(d)(1) are not considered a separate defined contribution plan).

Predecessor Employer—if the employer maintains a plan that provides a benefit which the member accrued while performing services for a former employer, the former employer is a *predecessor employer* with respect to the member in the plan. A former entity that antedates the employer is also a *predecessor employer* with respect to a member if, under the facts and circumstances, the employer constitutes a continuation of all or a portion of the trade or business of the former entity.

Severance from Employment—an employee has a *severance from employment* when the employee ceases to be an employee of the employer maintaining the plan. An employee does not have a *severance from employment* if, in connection with a change of employment, the employee's new employer maintains the plan with respect to the employee.

Year of Participation—the member shall be credited with a *year of participation* (computed to fractional parts of

a year) for each accrual computation period for which the following conditions are met:

a. the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period; and

b. the member is included as a member under the eligibility provisions of the plan for at least one day of the accrual computation period. If these two conditions are met, the portion of a *year of participation* credited to the member shall equal the amount of benefit accrual service credited to the member for such accrual computation period. A member who is permanently and totally disabled within the meaning of section 415(c)(3)(C)(i) of the *Internal Revenue Code* for an accrual computation period shall receive a *year of participation* with respect to that period. In addition, for a member to receive a *year of participation* (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event shall more than one *year of participation* be credited for any 12-month period.

Year of Service—for purposes of Subsection G of this Section, the member shall be credited with a *year of service* (computed to fractional parts of a year) for each accrual computation period for which the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period, taking into account only service with the employer or a predecessor employer.

G. Other Rules

1. Benefits under Terminated Plans. If a defined benefit plan maintained by the employer has terminated with sufficient assets for the payment of benefit liabilities of all plan members and a member in the plan has not yet commenced benefits under the plan, the benefits provided pursuant to the annuities purchased to provide the member's benefits under the terminated plan at each possible annuity starting date shall be taken into account in applying the limitations of this article. If there are not sufficient assets for the payment of all members' benefit liabilities, the benefits taken into account shall be the benefits that are actually provided to the member under the terminated plan.

2. Benefits Transferred from the Plan. If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are not treated as being provided under the transferor plan (but are taken into account as benefits provided under the transferee plan). If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan that is not maintained by the employer and the transfer is not a transfer

of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are treated by the employer's plan as if such benefits were provided under annuities purchased to provide benefits under a plan maintained by the employer that terminated immediately prior to the transfer with sufficient assets to pay all members' benefit liabilities under the plan. If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan in a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the amount transferred is treated as a benefit paid from the transferor plan.

3. Formerly Affiliated Plans of the Employer. A formerly affiliated plan of an employer shall be treated as a plan maintained by the employer, but the formerly affiliated plan shall be treated as if it had terminated immediately prior to the cessation of affiliation with sufficient assets to pay members' benefit liabilities under the plan and had purchased annuities to provide benefits.

4. Plans of a Predecessor Employer. If the employer maintains a defined benefit plan that provides benefits accrued by a member while performing services for a predecessor employer, the member's benefits under a plan maintained by the predecessor employer shall be treated as provided under a plan maintained by the employer. However, for this purpose, the plan of the predecessor employer shall be treated as if it had terminated immediately prior to the event giving rise to the predecessor employer relationship with sufficient assets to pay members' benefit liabilities under the plan, and had purchased annuities to provide benefits; the employer and the predecessor employer shall be treated as if they were a single employer immediately prior to such event and as unrelated employers immediately after the event; and if the event giving rise to the predecessor relationship is a benefit transfer, the transferred benefits shall be excluded in determining the benefits provided under the plan of the predecessor employer.

5. Special Rules. The limitations of this Chapter shall be determined and applied taking into account the rules in section 1.415(f)-1(d), (e) and (h) of the income tax regulations.

§202. Required Minimum Distributions

A.1. Unless the member has elected otherwise on or before December 31, 1983, the entire benefit of a member shall be distributed over a period not longer than the longest of the following periods:

- a. the member's life;
- b. if the member is married, the life of the member's designated beneficiary;
- c. the member's life expectancy;

d. the joint life and last survivor life expectancy of the member and his designated beneficiary.

2. If the member is married and his spouse survives him, the designated beneficiary for at least a qualified joint and survivor annuity and 50 percent of his deferred retirement option plan account shall be his spouse, unless such spouse has consented to the contrary in writing before a notary public. For purposes of this Paragraph:

a. *spouse*—that person who is married to the member under a legal regime of community of acquets and gains on his effective date of retirement or effective date of participation in the deferred retirement option plan, whichever is earlier.

3. If the member was a member on or before December 31, 1983, he shall be deemed to have made the election referred to herein. If a member dies after the commencement of his benefits, the remaining portion of his benefit shall be distributed at least as rapidly as before his death. Payment of survivor benefits shall not be considered to violate this provision.

B.1. If the member dies before his benefit has commenced the remainder of such interest shall be distributed to the member's beneficiary within five years after the date of such member's death.

2. Paragraph 1 of this Subsection shall not apply to any portion of a member's benefit which is payable to or for the benefit of a designated beneficiary or beneficiaries, over the life of or over the life expectancy of such beneficiary, so long as such distributions begin not later than one year after the date of the member's death, or, in the case of the member's surviving spouse, the date the member would have attained the age of 70 years and 6 months. If the designated beneficiary is a child of the member, for purposes of satisfying the requirement of Paragraph 1 of this Subsection, any amount paid to such child shall be treated as if paid to the member's surviving spouse if such amount would become payable to such surviving spouse, if alive, upon the child's reaching age eighteen or, if later, upon the child's completing a designated event. For purposes of the preceding sentence, a designated event shall be the later of the date the child is no longer disabled, or the date the child ceases to be a full-time student or attains age 23, if earlier.

3. Paragraph 1 of this Subsection shall not apply if the distribution of the member's interest has commenced and is for a term certain over a period permitted in Subsection A of this Section.

4. Paragraph 1 of this Subsection shall not apply if the member has elected otherwise on or before December 31, 1983, or such later date to which such election period shall be subject under *Internal Revenue Code* section 401(a).

C. As to any benefit payable by the retirement system which is not optional as of December 31, 1983, the member shall be considered to have made the election referred to in Subsections A and B of this Section, if he was a member on or before such time.

D. If by operation of law or by action of the board of trustees, a survivor benefit is payable to a specified person or persons, the member shall be considered to have designated such person as an alternate beneficiary hereunder. If there is more than one such person, then the youngest disabled child shall be considered to have been so designated, or, if none, then the youngest person entitled to receive a survivor benefit shall be considered to have been so designated. The designation of a designated beneficiary hereunder shall not prevent payment to multiple beneficiaries but shall only establish the permitted period of payments.

E. Payment in accordance with the survivor benefit provisions of R.S. 11:1316-1323.1 shall be deemed not to violate Subsections A and B of this Section.

F. This Section shall be effective for members of the system who complete any service under the system on or after July 1, 1992, with employers contributing to the system.

G. Distributions from the system shall be made in accordance with the requirements set forth in *Internal Revenue Code* section 401(a)(9), including the minimum distribution incidental benefit rules applicable thereunder.

H.1.A member's benefits shall commence to be paid on or before the required beginning date.

2. The required beginning date shall be April 1 of the calendar year following the later of the calendar year in which the member attains 70 1/2 years of age, or the calendar year in which the employee retires. Effective for plan years beginning on or after January 1, 1998, the required beginning date shall be April 1 of the year following the later of the year the member attained 70 1/2 or the year he terminated employment.

§203. Direct Rollovers

A. Notwithstanding any other provision of law to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by the board of trustees, to have any portion of an "eligible rollover distribution," as specified by the distributee, paid directly to an "eligible retirement plan," as those terms are defined below.

B. The following definitions shall apply.

- f. an annuity contract described in section 403(b) of the *Internal Revenue Code*.

Eligible Rollover Distribution—any distribution of all or any portion of the balance to the credit of the distributee, except that an *eligible rollover distribution* does not include:

- a. any distribution that is one of a series of substantially equal periodic payments, not less frequently than annually, made for the life or life expectancy of the member, or the joint lives or joint life expectancies of the member and the member's designated beneficiary, or for a specified period of ten years or more;
- b. any distribution to the extent that such distribution is required under section 401(a)(9) of the United States *Internal Revenue Code*; and

B. A *section 401(a)(17) employee* shall mean any employee whose current accrued benefit, as of a date on or after the first day of the first plan year beginning on or after January 1, 1996, is based on compensation for a year beginning prior to the first day of the first plan year beginning on or after January 1, 1996, that exceeded \$150,000.

C. If an employee is not a section 401(a)(17) employee, his accrued benefit in this system shall not be based upon compensation in excess of the annual limit of section 401(a)(17) of the United States *Internal Revenue Code* as amended and revised.

B. The retirement benefit earned by a member shall be fully vested and nonforfeitable no later than the date he becomes eligible to retire. Benefits of affected members shall also become vested and nonforfeitable to the extent funded, upon the termination or partial termination of the system's pension plan or the complete discontinuance of contributions thereto.

C. Forfeitures resulting from a termination of employment or a withdrawal of a member's own contributions may not be used to increase benefits to remaining members. This shall not preclude an increase in benefits by amendment to the benefit formula made possible by favorable investment results or for any other reason.

Title 58

RETIREMENT

Part XI. Parochial Employees' Retirement System

Chapter 1. General Provisions

§103. Definitions

A. The following definitions shall apply in this Part.

Direct Rollover—a payment by the plan to the eligible retirement plan specified by the distributee.

Distributee—includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternative payee under a qualified domestic relations order, as defined in *Internal Revenue Code* Section 414(p), are distributees with regard to the interest of the spouse or former spouse.

Eligible Retirement Plan—an individual retirement account described in *Internal Revenue Code* Section 408(a), an individual retirement annuity described in Section 408(b), an annuity plan described in *Internal Revenue Code* Section 403(a), or a qualified trust described in *Internal Revenue Code* Section 401(a), that accepts the distributee's eligible rollover distributions. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an Individual Retirement Account or individual retirement annuity. An eligible retirement plan shall also mean an annuity contract described in *Internal Revenue Code* Section 403(b) and an eligible plan under *Internal Revenue Code* Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this system. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order.

Eligible Rollover Distribution—

a.i. any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

ii. any distribution that is one of a series of substantially equal periodic payments, not less frequently than annually, made for the life, or life expectancy, of the distributee or the joint lives, or joint life expectancies, of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more;

iii. any distribution to the extent such distribution is required under *Internal Revenue Code* Section 401(a)(9);

iv. the portion of any distribution that is not includable in gross income, determined without regard to the exclusion for net unrealized appreciation with respect to employer securities;

v. a hardship distribution.

b. A portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be paid only to an individual retirement account or annuity described in Section 408(a) or (b) of the Code, or to a qualified defined contribution or qualified defined benefit plan described in Code Section 401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includable in gross income and the portion of such distribution which is not so includable.

Chapter 3. Eligibility

§301. Persons Not Eligible for Membership; Leased Employees

A. Leased employees or persons considered by the system as leased employees of an employer shall not be eligible to participate. Leased employee shall mean any person who is not employed by an employer and pursuant to an agreement between the employer and any other person or entity ("leasing organization") has performed services for the employer (or for related persons determined in accordance with Section 414(n)(6) of the *Internal Revenue Code*) on a substantially full-time basis for a period of at least one year, and such services are performed under primary direction or control by the employer.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1931.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Parochial Employees' Retirement System, LR 30:1492 (July 2004).

§303. Creditable Service; Uniformed Services Employment and Reemployment Rights Act

A. If a member takes a leave of absence to serve in the U.S. armed services, the terms of which are governed by the Uniformed Services Employment and Reemployment Rights Act (USERRA), then upon the member's return to employment with the employer within five years from the leave of absence, the member shall be permitted to make the member contributions called for under the system as if the member had continued employment, and if so made, the member shall be given creditable service under the system

for that period of time. The member contributions to the system as permitted under this Section shall be made ratably over a period of time equaling the period the member was in the U.S. armed services, but in no event shall such period exceed five years. If the returning member makes the member contribution, the employer shall be required to make an employer contribution to fund the employer's portion of the creditable service given to the returning member. The amount of the member's contribution and the employer's contribution shall be determined by the system's actuary. A member who does not return to employment with his employer shall not be affected by this provision.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1931.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Parochial Employees' Retirement System, LR 30:1492 (July 2004).

Chapter 5. Scope of Benefits

§501. Limitation on Payment of Benefits

A.1. Unless the member has elected otherwise on or before December 31, 1983, the entire benefit of a member shall be distributed over a period not longer than the longest of the following periods:

- a. the member's life;
- b. the life of the member's designated beneficiary or the joint and last survivor lives of the member and his designated beneficiary;
- c. the member's life expectancy;
- d. the joint life and last survivor life expectancy of the member and his designated beneficiary.

2. If the member is married and his spouse survives him, the designated beneficiary shall be his spouse. If a member dies after the commencement of his benefits, the remaining portion of his benefit shall be distributed at least as rapidly as before his death.

B.1. If the member dies before his benefit has commenced, the remainder of such interest shall be distributed to the member's beneficiary within five years after the date of such member's death.

2. Paragraph 1 shall not apply to any portion of a member's benefit which is payable to or for the benefit of a designated beneficiary or beneficiaries, over the life of or over the life expectancy of such beneficiary, so long as such distributions begin not later than one year after the date of the member's death, or, in the case of the member's surviving spouse, the date the member would have attained the age of 70 1/2 years. If the designated beneficiary is the member's surviving spouse and if the surviving spouse dies before the distribution of benefits commences, then Paragraph 1 shall be applied as if the surviving spouse were the member. If the designated beneficiary is a child of the member, for purposes of satisfying the requirement of Paragraph 1, any amount paid to such child shall be treated as if paid to the member's surviving spouse if such amount would become payable to such surviving spouse, if alive, upon the child's reaching age 18.

3. Paragraph 1 shall not apply if the distribution of the member's interest has commenced and is for a term certain over a period permitted in Subsection B.

C. If a survivor benefit is payable to a specified person or persons or if a benefit is payable at death under an option elected pursuant to R.S. 11:1932, the member shall be considered to have designated such person as a designated beneficiary hereunder. If there is more than one such person, then the oldest such person shall be considered to have been so designated, or, if none, then the oldest person entitled to receive a survivor benefit shall be considered to have been so designated. The designation of a designated beneficiary hereunder shall not prevent payment to multiple beneficiaries but shall only establish the permitted period of payments.

D. Distributions from the system shall be made in accordance with the requirements set forth in *Internal Revenue Code* Section 401(a)(9), including the minimum distribution incidental benefit rules applicable thereunder.

E.1. A member's benefits shall commence to be paid on or before the required beginning date.

2. The required beginning date shall be April 1 of the calendar year following the later of the calendar year in which the member attains 70 1/2 years of age, or the calendar year in which the employee retires. Effective for plan years beginning on or after January 1, 1998, the required beginning date shall be April 1 of the year following the later of the year the member attained 70 1/2 or the year he terminated employment.

F. The provisions of this Section shall be effective July 1, 1987.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1931.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Parochial Employees' Retirement System, LR 30:508 (March 2004), amended LR 30:1492 (July 2004).

§503. Early Payment of Benefits

A. In the event of plan termination, the benefit of any highly compensated employee including an active highly compensated employee and a former employee who was a highly compensated employee, is limited to a benefit that is nondiscriminatory under *Internal Revenue Code*, Section 401(a)(4) (see 26 U.S.C. 401 et seq.)

B.1. For plan years beginning on or after January 1, 1991, benefits distributed to any of the 25 most highly compensated active and former highly compensated employees are restricted such that the annual payments are no greater than an amount equal to the payment that would be made on behalf of the employee under a single life annuity that is the actuarial equivalent of the sum of the employee's accrued benefit and the employee's other benefits under the plan.

2. Subsection A of this Section shall not apply if:

- a. after the payment of the benefit to an employee described in Paragraph 1 of this Subsection, the value of

plan assets equals or exceeds 110 percent of the value of current liabilities as defined in *Internal Revenue Code* Section 412(1)(7); or

b. the value of the benefits for an employee described above is less than 1 percent of the value of current liabilities.

3. For purposes of this Section, benefit includes loans in excess of the amount set forth in *Internal Revenue Code* Section 72(p)(2)(A), any periodic income, any withdrawal values payable to a living employee, and any death benefits not provided for by insurance on the employee's life.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1931.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Parochial Employees' Retirement System, LR 30:509 (March 2004).

§505. Compensation Limited

A. In addition to other applicable limitations set forth in the plan, and notwithstanding any other provisions of the plan to the contrary, for plan years beginning on or after January 1, 1994 and before January 1, 2002, the annual compensation of each employee taken into account under the plan shall not exceed the Omnibus Budget Reconciliation Act of 1993 annual compensation limit. The Omnibus Budget Reconciliation Act of 1993 annual compensation limit is \$150,000, as adjusted by the commissioner of Internal Revenue for increases in the cost of living in accordance with Section 401(a)(17)(B) of the *Internal Revenue Code* (see 26 U.S.C. 401 et seq.). The cost-of-living adjustment in effect for a calendar year applies to any period, not exceeding 12 months, over which compensation is determined (determination period) beginning in such calendar year. If a determination period consists of fewer than 12 months, the Omnibus Budget Reconciliation Act of 1993 annual compensation limit will be multiplied by a fraction, the numerator of which is the number of months in the determination period, and the denominator of which is 12.

B. For plan years beginning on or after January 1, 1994 and before January 1, 2002, any reference in this plan to the limitations under *Internal Revenue Code* Section 401(a)(17) shall mean the Omnibus Budget Reconciliation Act of 1993 annual compensation limit set forth in this Section.

C. If compensation for a prior determination period is taken into account in determining an employee's benefits accruing in the current plan year, the compensation for that prior determination period is subject to the Omnibus Budget Reconciliation Act of 1993 annual compensation limit in effect for that prior determination period. For this purpose, for determination periods beginning before the first day of the first plan year beginning on or after January 1, 1994, the Omnibus Budget Reconciliation Act of 1993 annual compensation limit is \$150,000.

D. For plan years beginning on or after January 1, 2002, the annual compensation limitation (Section 401(a)(17) of the *Internal Revenue Code*) for the determination of a

retirement allowance shall not exceed \$200,000, as adjusted for cost-of-living under Paragraph 401(a)(17)(B) of the *Internal Revenue Code*. If compensation for a prior period is taken into account in determining a member's benefits accruing in the current plan year, the compensation for the prior period shall be subject to the compensation limit for the current year.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1931.

HISTORICAL NOTE: Promulgated by the Department of the Treasury, Board of Trustees of the Parochial Employees' Retirement System, LR 30:510 (March 2004), amended LR 30:1492 (July 2004).

§507. Transfer of Benefits

A. This Section applies to distributions made on or after January 1, 1993. Notwithstanding any provisions of the plan to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by the plan administrator, to have any portion of an eligible rollover distribution paid directly to a retirement plan specified by the distributee in a direct rollover.

B. If a distribution is one to which Sections 401(a)(11) and 417 of the *Internal Revenue Code* (see 26 U.S.C. 401 et seq.) do not apply, such distribution may commence less than 30 days after the notice required under Section 1.411(a)-11(c) of the federal income tax regulations is given, provided that:

1. the plan administrator clearly informs the participant that the participant has a right to a period of at least 30 days after receiving the notice to consider the decision of whether or not to elect a distribution (and, if applicable, a particular distribution option); and

2. the participant, after receiving the notice, affirmatively elects a distribution.

C. The following definitions shall apply.

Direct Rollover—a payment by the plan to the eligible retirement plan specified by the distributee.

Distributee—includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternative payee under a qualified domestic relations order, as defined in *Internal Revenue Code* Section 414(p), are *distributees* with regard to the interest of the spouse or former spouse.

Eligible Retirement Plan—an individual retirement account described in *Internal Revenue Code* Section 408(a), an individual retirement annuity described in Section 408(b), an annuity plan described in *Internal Revenue Code* Section 403(a), or a qualified trust described in *Internal Revenue Code* Section 401(a), that accepts the distributee's eligible rollover distributions. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.

RETIREMENT

Eligible Rollover Distribution—any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

a. any distribution that is one of a series of substantially equal periodic payments, not less frequently than annually, made for the life, or life expectancy, of the distributee or the joint lives, or joint life expectancies, of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more;

b. any distribution to the extent such distribution is required under *Internal Revenue Code* Section 401(a)(9);

c. the portion of any distribution that is not includable in gross income, determined without regard to the exclusion for net unrealized appreciation with respect to employer securities.

§509. Computation of Retirement Benefits

A. This Section is intended to comply with *Internal Revenue Code* Section 415. It shall cover only those who become members for the first time on or after January 1, 1990, and those qualified participants for whom the benefit is increased after October 14, 1987, to the extent of the benefit increase after October 14, 1987, including cost-of-living adjustments on any such increase.

B. The normal retirement benefit of a member of Plan A shall not exceed the amount set forth in R.S. 11:1942, the normal retirement benefit of a member of Plan B shall not exceed the amount set forth in R.S. 11:1962, and the normal retirement benefit of a member of Plan C shall not exceed the amount set forth in R.S. 11:1972.

C.1. Qualified Participant shall mean a member of the system who first became a member before January 1, 1990. In the case of the merger of, or transfer of assets and benefits of a member or members from, another plan maintained by an employer which joins this system, the accrued benefit under such predecessor plan shall be the accrued benefit referred to above, and the member shall be considered a qualified participant if his participation in such predecessor or merged plan commenced on or before January 1, 1990.

2. All employers contributing to the system on behalf of their employees, and all employers who may join the system, as a condition of such joining, shall elect, and such election is hereby implemented, to have the limitations of *Internal Revenue Code* Section 415(b) other than Paragraph 2G thereof applied without regard to Paragraph 2F thereof, which limitations are set forth in Subsection D. Such limitations shall apply to all members who are not qualified participants as described herein and to qualified participants to the extent of the benefit increase after October 14, 1987, including cost-of-living adjustments on any such increase.

D. The retirement benefit of any member of the retirement system who is not a qualified participant, as defined in Paragraph C.1 and which is not attributable to the member's after-tax employee contribution, when expressed as an annual benefit may not exceed the lesser of \$90,000 per year or 100 percent of such member's average compensation for his highest three years. For purposes of determining whether a member's benefit exceeds this limitation, the following shall apply.

1. Adjustment if Benefit Not Single Life Annuity

a. If the normal form of benefit is other than a single life annuity, such form shall be adjusted actuarially to the equivalent of a single life annuity. This single life annuity shall not exceed the maximum dollar or percent limitations outlined above.

b. No adjustment is required for the following:

- i. qualified joint and survivor annuity benefits;
- ii. pre-retirement disability benefits;
- iii. pre-retirement death benefits.

2. A member's retirement allowance shall be limited to \$160,000. The \$160,000 amount shall be adjusted for members retiring before age 62 or after age 65 under *Internal Revenue Code* Section 415(b)(2). The benefit limitation in the foregoing sentence shall be further adjusted by multiplying such limitation by the cost of living adjustment factor prescribed by the secretary of the Treasury under *Internal Revenue Code* Section 415(d) in such manner as the secretary shall prescribe. The new limitation will apply to limitation years ending within the calendar year of the date of the adjustment.

3. Adjustment for Less than 10 Years of Creditable Service

a. If retirement benefits are payable under this retirement system to a member who has less than 10 years of creditable service in the retirement system, the dollar limitation referred to in the first Paragraph of this Subsection (\$90,000) will be multiplied by a fraction, the numerator of which is the member's number of years of creditable service in the system (not greater than 10), and the denominator of which is 10.

i. Effective for plan years beginning on or after January 1, 2002, "\$160,000" will be substituted for "\$90,000" above.

4. Annual Adjustment. The limitation provided in this Subsection shall be adjusted annually to the maximum dollar limits allowable by the secretary of the Treasury of the United States under *Internal Revenue Code* Section 415(d), such adjustments not to take effect until the first day of the fiscal year following December 31, 1987. The adjustment shall not exceed the adjustment in effect for the calendar year in which the fiscal year of the system begins. The adjusted earlier limitation is applicable to employees who are members of the system and to members who have retired or otherwise terminated their service under the system with a

nonforfeitable right to accrued benefits, regardless of whether they have actually begun to receive benefits. This system shall be considered specifically to provide for such post-retirement adjustments. For any limitation year beginning after separation from service occurs, the annual adjustment factor is a fraction, the numerator of which is the adjusted dollar limitation for the limitation year in which the compensation limitation is being adjusted and the denominator of which is the adjusted dollar limitation for the limitation year in which the member separated from service. No adjustment shall be permitted with respect to limitations applicable after October 14, 1987.

5. Member or Participant in More than One Plan. If a member is a member or participant in more than one defined benefit pension plan maintained by the state, its agencies, or its political subdivisions, then such member's benefit, considered in the aggregate after taking into account the benefits provided by all such retirement plans, shall not exceed the limits provided in this Subsection.

6. Total Annual Benefits Not in Excess of \$10,000. Notwithstanding the preceding provisions of this Subsection, the benefits payable with respect to a participant under any defined benefit plan shall be deemed not to exceed the limitations of this Subsection if:

- a. the retirement benefits payable with respect to such participant under such plan and under all other defined benefit plans of the employer do not exceed \$10,000 for the plan year, or for any prior plan year; and
- b. the employer has not at any time maintained a defined contribution plan in which the participant participated.

7. Average Compensation

a. For purposes of R.S. 11:1942, 1962, and 1972, average compensation shall include any amounts properly considered as the regular rate of pay of the member, as defined in R.S. 11:231 and unreduced by amounts excluded from income for federal income tax purposes by reason of 26 U.S.C.A. §§125, 132(f), 402(a)(8), 402(h)(1)(B), 403(b), 414(h), or 457 or any other provision of federal law of similar effect.

b. For purposes of Subsection D, average compensation shall include total compensation payable by the employer and included in the employee's income for federal income tax purposes and shall exclude amounts not includable in the member's gross income by reason of 26 U.S.C.A. §§125, 132(f), 402(a)(8), 402(h)(1)(B), 403(b), 414(h) and 457 or any other provision of federal law. A

member's highest three years shall be the period of consecutive calendar years (not more than three) during which the member both was an active participant in the plan and had the greatest aggregate compensation from the employer.

8. Treasury Regulation Applicable. That portion of the benefit designated herein which is attributable to member contributions shall be determined in accordance with Treasury Regulations §1.415-3(d)(1).

E. All member contributions required to be made to this system shall be considered for tax purposes as contributions made pursuant to *Internal Revenue Code* Section 414(h)(2).

A. Procedures for Determination of the Unfunded Accrued Liability under R.S. 11:1903(F) of Parochial Employees' Retirement System of Louisiana

1. The unfunded accrued liability calculated pursuant to R.S. 11:1903(F) shall be determined in a manner consistent with statement 68 of the Governmental Accounting Standards Board.

2. That is the following: the portion of the unfunded accrued liability attributable to the employer's termination shall be a pro rata portion of the allocated share of the net pension liability (as per statement 68) for the prospective termination of the December 31 immediately preceding the date of termination. The pro rata share shall be determined as one minus the ratio of the present value of future salaries for the current active members of the terminating entity to the present value of future salaries of the active group assuming replacement of terminated employees based on a general increase in payroll as a function of the inflation assumption implicit in the valuation assumptions.

Chapter 2. Internal Revenue Code Provisions

§201. Limitation on Benefits

A. The limitations of this Chapter shall apply in limitation years beginning on or after July 1, 2007, except as otherwise provided herein.

B. The annual benefit otherwise payable to a member under the plan at any time shall not exceed the maximum permissible benefit. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

C. If the member is, or has ever been, a member in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible benefit.

D. The application of the provisions of this chapter shall not cause the maximum permissible benefit for any member to be less than the member's accrued benefit under all the defined benefit plans of the employer or a predecessor employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to section 415 of the *Internal Revenue Code* in effect as of the end of the last limitation year beginning before July 1, 2007, as described in section 1.415(a)-1(g)(4) of the income tax regulations.

E. The limitations of this Chapter shall be determined and applied taking into account the rules in Subsection G.

F. Definitions

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this article. For a member who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this chapter as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to section 1.401(a)-20, Q and A 10(d), and with regard to section 1.415(b)-1(b)(1)(iii)(B) and (C) of the income tax regulations.

a. No actuarial adjustment to the benefit shall be made for:

i. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the member's benefit were paid in another form;

ii. benefits that are not directly related to retirement benefits (such as a disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

iii. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to section 417(e)(3) of the *Internal Revenue Code* and would otherwise satisfy the limitations of

this Chapter, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Chapter applicable at the annuity starting date, as increased in subsequent years pursuant to section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form. The determination of the annual benefit shall take into account Social Security supplements described in section 411(a)(9) of the *Internal Revenue Code* and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, but shall disregard benefits attributable to employee contributions or rollover contributions. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with §201.F.1.b or F.1.c.

b. Benefit Forms Not Subject to Section 417(e)(3)

i. The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this Subparagraph F.1.b, if the form of the member's benefit is either:

(a). a non-decreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the member (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse); or

(b). an annuity that decreases during the life of the member merely because of:

(i). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(ii). the cessation or reduction of Social Security supplements or qualified disability payments [as defined in section 401(a)(11)].

ii. Limitation Years beginning before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(a). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

(b). a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

iii. Limitation Years beginning on or after July 1, 2007. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

(a). the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the member's form of benefit; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

c. Benefit Forms Subject to Section 417(e)(3). The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this paragraph if the form of the member's benefit is other than a benefit form described in §201.F.1.b. In this case, the actuarially equivalent straight life annuity shall be determined as follows.

i. Annuity Starting Date in Plan Years Beginning After 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning after 2005, the actuarially equivalent straight life annuity is equal to the greatest of:

(a). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5.5 percent interest rate assumption and the applicable mortality table; and

(c). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the applicable interest rate and the applicable mortality table, divided by 1.05.

ii. Annuity Starting Date in Plan Years Beginning in 2004 or 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning in 2004 or 2005, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greater annual amount:

(a). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

(b). a 5.5 percent interest rate assumption and the applicable mortality table. If the annuity starting date of the member's benefit is on or after the first day of the first plan year beginning in 2004 and before December 31, 2004, the application of this §201.F.1.c. shall not cause the amount

payable under the member's form of benefit to be less than the benefit calculated under the plan, taking into account the limitations of this chapter, except that the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greatest annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form;

(ii). the applicable interest rate and the applicable mortality table; and

(iii). the applicable interest rate (as in effect on the last day of the last plan year beginning before January 1, 2004, under provisions of the plan then adopted and in effect) and the applicable mortality table.

Applicable Interest Rate—the rate of interest on 30 year Treasury securities (or any subsequent rate used under section 417(e) of the *Internal Revenue Code*) as specified by the Internal revenue service for the lookback month. The lookback month applicable to the stability period is the second calendar month preceding the first day of the stability period. The stability period is the plan year that contains the annuity starting date for the distribution and for which the applicable interest rate remains constant.

Applicable Mortality Table—the applicable mortality table within the meaning of section 417(e)(3)(B) of the *Internal Revenue Code*.

415 Safe-Harbor Compensation—

a. *compensation*—wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (including, but not limited to, commissions paid salespersons, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, and reimbursements, or other expense allowances under a nonaccountable plan (as described in section 1.62-2(c) of the income tax regulations), and excluding the following:

i. employer contributions [other than elective contributions described in section 402(e)(3), section 408(k)(6), section 408(p)(2)(A)(i), or section 457(b)] to a plan of deferred compensation (including a simplified employee pension described in section 408(k) or a simple retirement account described in section 408(p), and whether or not qualified) to the extent such contributions are not includible in the member's gross income for the taxable year in which contributed, and any distributions (whether or not includible in gross income when distributed) from a plan of deferred compensation (whether or not qualified);

RETIREMENT

ii. amounts realized from the exercise of a nonstatutory stock option (that is, an option other than a statutory stock option as defined in section 1.421-1(b) of the income tax regulations), or when restricted stock (or property) held by the member either becomes freely transferable or is no longer subject to a substantial risk of forfeiture;

iii. amounts realized from the sale, exchange or other disposition of stock acquired under a statutory stock option;

iv. other amounts that receive special tax benefits, such as premiums for group-term life insurance (but only to the extent that the premiums are not includible in the gross income of the member and are not salary reduction amounts that are described in section 125);

v. other items of remuneration that are similar to any of the items listed in Clauses i-iv above.

b. For any self-employed individual, compensation shall mean earned income.

c. Except as provided herein, for limitation years beginning after December 31, 1991, compensation for a limitation year is the compensation actually paid or made available during such limitation year.

d. For limitation years beginning on or after July 1, 2007, compensation for a limitation year shall also include compensation paid by the later of 2 1/2 months after an member's severance from employment with the employer maintaining the plan or the end of the limitation year that includes the date of the member's severance from employment with the employer maintaining the plan, if:

i. the payment is regular compensation for services during the member's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer;

ii. the payment is for unused accrued bona fide sick, vacation or other leave that the member would have been able to use if employment had continued; or

iii. the payment is received by the member pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

e. Any payments not described above shall not be considered compensation if paid after severance from employment, even if they are paid by the later of 2 1/2 months after the date of severance from employment or the end of the limitation year that includes the date of severance from employment. Back pay, within the meaning of section 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the

back pay represents wages and compensation that would otherwise be included under this definition.

f. For limitation years beginning after December 31, 1997, compensation paid or made available during such limitation year shall include amounts that would otherwise be included in compensation but for an election under sections 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

g. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the member by reason of section 132(f)(4).

Defined Benefit Compensation Limitation—100 percent of a member's high three-year average compensation, payable in the form of a straight life annuity. In the case of a member who is rehired after a severance from employment, the defined benefit compensation limitation is the greater of 100 percent of the member's high three-year average compensation, as determined prior to the severance from employment or 100 percent of the member's high three-year average compensation, as determined after the severance from employment under §201.G.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, the defined benefit dollar limitation is \$160,000, automatically adjusted under section 415(d) of the *Internal Revenue Code*, effective January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity. The new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year.

Employer—for purposes of this chapter, employer shall mean the employer that adopts this plan, and all members of a controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), all commonly controlled trades or businesses [as defined in section 414(c), as modified, except in the case of a brother-sister group of trades or businesses under common control, by section 415(h)], or affiliated service groups [as defined in section 414(m)] of which the adopting employer is a part, and any other entity required to be aggregated with the employer pursuant to section 414(o) of the *Internal Revenue Code*.

Formerly Affiliated Plan of the Employer—a plan that, immediately prior to the cessation of affiliation, was actually maintained by the employer and, immediately after the cessation of affiliation is not actually maintained by the employer. For this purpose, cessation of affiliation means the event that causes an entity to no longer be considered the employer, such as the sale of a member controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), to an unrelated corporation, or that causes a plan to not actually be maintained by the employer, such as transfer of plan sponsorship outside a controlled group.

High Three-Year Average Compensation—the average compensation for the three consecutive years of service (or, if the member has less than three consecutive years of service, the member's longest consecutive period of service, including fractions of years, but not less than one year) with the employer that produces the highest average. In the case of a member who is rehired by the employer after a severance from employment, the member's high three-year average compensation shall be calculated by excluding all years for which the member performs no services for and receives no compensation from the employer (the break period) and by treating the years immediately preceding and following the break period as consecutive. A member's compensation for a year of service shall not include compensation in excess of the limitation under section 401(a)(17) of the *Internal Revenue Code* that is in effect for the calendar year in which such year of service begins.

Limitation Year—a fiscal year, from July 1 to June 31. All qualified plans maintained by the employer must use the same limitation year. If the limitation year is amended to a different 12-consecutive month period, the new limitation year must begin on a date within the limitation year in which the amendment is made.

Maximum Permissible Benefit—the lesser of the defined benefit dollar limitation or the defined benefit compensation limitation (both adjusted where required, as provided below).

a. Adjustment for Less than 10 Years of Participation or Service. If the member has less than 10 years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction:

i. the numerator of which is the number of years (or part thereof, but not less than one year) of participation in the plan; and

ii. the denominator of which is 10. In the case of a member who has less than 10 years of service with the employer, the defined benefit compensation limitation shall be multiplied by a fraction:

(a). the numerator of which is the number of years (or part thereof, but not less than one year) of Service with the employer; and

(b). the denominator of which is 10.

b. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62 or after Age 65. Effective for benefits commencing in limitation years ending after December 31, 2001, the defined benefit dollar limitation shall be adjusted if the annuity starting date of the member's benefit is before age 62 or after age 65. If the annuity starting date is before age 62, the defined benefit dollar limitation shall be adjusted under Clause b.i of this Paragraph, as modified by Clause b.iii of this Paragraph. If the annuity starting date is after age 65, the defined benefit dollar limitation shall be adjusted under Clause b.ii of this Paragraph, as modified by Clause b.iii of this Paragraph.

i. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62

(a). Limitation Years Beginning before July 1, 2007. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under §201.F.11.a. for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; or

(ii). a 5 percent interest rate assumption and the applicable mortality table.

(b). Limitation Years Beginning on or After July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for the annuity starting date (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the lesser of the limitation determined under Division b.i.(b).(i) of this Paragraph and the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under

the plan at age 62, both determined without applying the limitations of this article.

ii. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement after Age 65

(a). Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; or

(ii). a 5-percent interest rate assumption and the applicable mortality table.

(b). Limitation Years Beginning Before July 1, 2007

(i) Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required), with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the lesser of the limitation determined under §201.F.11.b.ii.(b).(i). and the defined benefit dollar limitation (adjusted under §201.F.11.a. for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the plan at the

member's annuity starting date to the annual amount of the adjusted immediately commencing straight life annuity under the plan at age 65, both determined without applying the limitations of this article. For this purpose, the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date is the annual amount of such annuity payable to the member, computed disregarding the member's accruals after age 65 but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the plan at age 65 is the annual amount of such annuity that would be payable under the plan to a hypothetical member who is age 65 and has the same accrued benefit as the member.

iii. Notwithstanding the other requirements of this Subparagraph F.10.b., no adjustment shall be made to the defined benefit dollar limitation to reflect the probability of a member's death between the annuity starting date and age 62, or between age 65 and the annuity starting date, as applicable, if benefits are not forfeited upon the death of the member prior to the annuity starting date. To the extent benefits are forfeited upon death before the annuity starting date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the member's death if the plan does not charge members for providing a qualified preretirement survivor annuity, as defined in section 417(c) of the *Internal Revenue Code*, upon the member's death.

c. Minimum Benefit Permitted. Notwithstanding anything else in this Section to the contrary, the benefit otherwise accrued or payable to a member under this plan shall be deemed not to exceed the maximum permissible benefit if:

i. the retirement benefits payable for a limitation year under any form of benefit with respect to such member under this plan and under all other defined benefit plans (without regard to whether a plan has been terminated) ever maintained by the employer do not exceed \$10,000 multiplied by a fraction:

(a). the numerator of which is the member's number of years (or part thereof, but not less than one year) of service (not to exceed 10) with the employer; and

(b). the denominator of which is 10; and

ii. the employer (or a predecessor employer) has not at any time maintained a defined contribution plan in which the member participated (for this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under Section 401(h), and accounts for postretirement medical benefits established under section 419A(d)(1) are not considered a separate defined contribution plan).

Predecessor Employer—if the employer maintains a plan that provides a benefit which the member accrued while performing services for a former employer, the former employer is a predecessor employer with respect to the member in the plan. A former entity that antedates the

employer is also a predecessor employer with respect to a member if, under the facts and circumstances, the employer constitutes a continuation of all or a portion of the trade or business of the former entity.

Severance from Employment—an employee has a severance from employment when the employee ceases to be an employee of the employer maintaining the plan. An employee does not have a severance from employment if, in connection with a change of employment, the employee's new employer maintains the plan with respect to the employee.

Year of Participation—the member shall be credited with a year of participation (computed to fractional parts of a year) for each accrual computation period for which the following conditions are met:

a. the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period; and

b. the member is included as a member under the eligibility provisions of the plan for at least one day of the accrual computation period. If these two conditions are met, the portion of a year of participation credited to the member shall equal the amount of benefit accrual service credited to the member for such accrual computation period. A member who is permanently and totally disabled within the meaning of section 415(c)(3)(C)(i) of the *Internal Revenue Code* for an accrual computation period shall receive a year of participation with respect to that period. In addition, for a member to receive a year of participation (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event shall more than one year of participation be credited for any 12-month period.

Year of Service—for purposes of Subsection 201.G, the member shall be credited with a year of service (computed to fractional parts of a year) for each accrual computation period for which the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period, taking into account only service with the employer or a predecessor employer.

G. Other Rules

1. **Benefits under Terminated Plans.** If a defined benefit plan maintained by the employer has terminated with sufficient assets for the payment of benefit liabilities of all plan members and a member in the plan has not yet commenced benefits under the plan, the benefits provided pursuant to the annuities purchased to provide the member's benefits under the terminated plan at each possible annuity starting date shall be taken into account in applying the limitations of this article. If there are not sufficient assets for the payment of all members' benefit liabilities, the benefits

taken into account shall be the benefits that are actually provided to the member under the terminated plan.

2. **Benefits Transferred from the Plan.** If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are not treated as being provided under the transferor plan (but are taken into account as benefits provided under the transferee plan). If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan that is not maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are treated by the employer's plan as if such benefits were provided under annuities purchased to provide benefits under a plan maintained by the employer that terminated immediately prior to the transfer with sufficient assets to pay all members' benefit liabilities under the plan. If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan in a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the amount transferred is treated as a benefit paid from the transferor plan.

3. **Formerly Affiliated Plans of the Employer.** A formerly affiliated plan of an employer shall be treated as a plan maintained by the employer, but the formerly affiliated plan shall be treated as if it had terminated immediately prior to the cessation of affiliation with sufficient assets to pay members' benefit liabilities under the plan and had purchased annuities to provide benefits.

4. **Plans of a Predecessor Employer.** If the employer maintains a defined benefit plan that provides benefits accrued by a member while performing services for a predecessor employer, the member's benefits under a plan maintained by the predecessor employer shall be treated as provided under a plan maintained by the employer. However, for this purpose, the plan of the predecessor employer shall be treated as if it had terminated immediately prior to the event giving rise to the predecessor employer relationship with sufficient assets to pay members' benefit liabilities under the plan, and had purchased annuities to provide benefits; the employer and the predecessor employer shall be treated as if they were a single employer immediately prior to such event and as unrelated employers immediately after the event; and if the event giving rise to the predecessor relationship is a benefit transfer, the transferred benefits shall be excluded in determining the benefits provided under the plan of the predecessor employer.

5. **Special Rules.** The limitations of this chapter shall be determined and applied taking into account the rules in section 1.415(f)-1(d), (e) and (h) of the income tax regulations.

§202. Required Minimum Distributions

A.1. Unless the member has elected otherwise on or before December 31, 1983, the entire benefit of a member shall be distributed over a period not longer than the longest of the following periods:

- a. the member's life;
- b. if the member is married, the life of the member's designated beneficiary;
- c. the member's life expectancy;
- d. the joint life and last survivor life expectancy of the member and his designated beneficiary.

2. If the member is married and his spouse survives him, the designated beneficiary for at least a qualified joint and survivor annuity and 50 percent of his deferred retirement option plan account shall be his spouse, unless such spouse has consented to the contrary in writing before a notary public. For purposes of this Paragraph:

Spouse—that person who is married to the member under a legal regime of community of acquets and gains on his effective date of retirement or effective date of participation in the deferred retirement option plan, whichever is earlier.

3. If the member was a member on or before December 31, 1983, he shall be deemed to have made the election referred to herein. If a member dies after the commencement of his benefits, the remaining portion of his benefit shall be distributed at least as rapidly as before his death.

B.1. If the member dies before his benefit has commenced the remainder of such interest shall be distributed to the member's beneficiary within five years after the date of such member's death.

2. Paragraph 1 of this Subsection shall not apply to any portion of a member's benefit which is payable to or for the benefit of a designated beneficiary or beneficiaries, over the life of or over the life expectancy of such beneficiary, so long as such distributions begin not later than one year after the date of the member's death, or, in the case of the member's surviving spouse, the date the member would have attained the age of 70 years and six months. If the designated beneficiary is a child of the member, for purposes of satisfying the requirement of Paragraph 1 of this Subsection, any amount paid to such child shall be treated as if paid to the member's surviving spouse if such amount would become payable to such surviving spouse, if alive, upon the child's reaching age eighteen or, if later, upon the child's completing a designated event. For purposes of the preceding sentence, a designated event shall be the later of the date the child is no longer disabled, or the date the child ceases to be a full-time student or attains age 23, if earlier.

3. Paragraph 1 of this Subsection shall not apply if the distribution of the member's interest has commenced and is for a term certain over a period permitted in Subsection A of this Section.

4. Paragraph 1 of this Subsection shall not apply if the member has elected otherwise on or before December 31, 1983, or such later date to which such election period shall be subject under *Internal Revenue Code* section 401(a).

C. As to any benefit payable by the retirement system which is not optional as of December 31, 1983, the member shall be considered to have made the election referred to in Subsections A and B of this Section, if he was a member on or before such time.

D. If by operation of law or by action of the board of trustees, a survivor benefit is payable to a specified person or persons, the member shall be considered to have designated such person as an alternate beneficiary hereunder. If there is more than one such person, then the youngest disabled child shall be considered to have been so designated, or, if none, then the youngest person entitled to receive a survivor benefit shall be considered to have been so designated. The designation of a designated beneficiary hereunder shall not prevent payment to multiple beneficiaries but shall only establish the permitted period of payments.

E. Payment in accordance with the survivor benefit provisions of R.S. 11:2077 shall be deemed not to violate Subsections A and B of this Section.

F. This Section shall be effective for members of the system who complete any service under the system on or after July 1, 1992, with employers contributing to the system.

G. Distributions from the system shall be made in accordance with the requirements set forth in *Internal Revenue Code* section 401(a)(9), including the minimum distribution incidental benefit rules applicable thereunder.

H.1. A member's benefits shall commence to be paid on or before the required beginning date.

2. The required beginning date shall be April 1 of the calendar year following the later of the calendar year in which the member attains 70 1/2 years of age, or the calendar year in which the employee retires. Effective for plan years beginning on or after January 1, 1998, the required beginning date shall be April 1 of the year following the later of the year the member attained 70 1/2 or the year he terminated employment.

- f. an annuity contract described in section 403(b) of the *Internal Revenue Code*.

Eligible Rollover Distribution—any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

- a. any distribution that is one of a series of substantially equal periodic payments, not less frequently than annually, made for the life or life expectancy of the member, or the joint lives or joint life expectancies of the member and the member's designated beneficiary, or for a specified period of ten years or more;
- b. any distribution to the extent that such distribution is required under section 401(a)(9) of the United States *Internal Revenue Code*; and

C. If an employee is not a section 401(a)(17) employee, his accrued benefit in this system shall not be based upon compensation in excess of the annual limit of section 401(a)(17) of the United States *Internal Revenue Code* as amended and revised.

C. Forfeitures resulting from a termination of employment or a withdrawal of a member's own contributions may not be used to increase benefits to remaining members. This shall not preclude an increase in benefits by amendment to the benefit formula made possible by favorable investment results or for any other reason.

Title 58

RETIREMENT

Part XVIII. Municipal Police Employees' Retirement System

Chapter 1. *Internal Revenue Code* Provisions

§101. Limitation on Benefits

A. The limitations of this Chapter shall apply in limitation years beginning on or after July 1, 2007, except as otherwise provided herein.

B. The annual benefit otherwise payable to a member under the plan at any time shall not exceed the maximum permissible benefit. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

C. If the member is, or has ever been, a member in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible benefit.

D. The application of the provisions of this Chapter shall not cause the maximum permissible benefit for any member to be less than the member's accrued benefit under all the defined benefit plans of the employer or a predecessor employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to Section 415 of the *Internal Revenue Code* in effect as of the end of the last limitation year beginning before July 1, 2007, as described in Section 1.415(a)-1(g)(4) of the income tax regulations.

E. The limitations of this Chapter shall be determined and applied taking into account the rules in section G.

F. Definitions

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this article. For a member who has or will have distributions commencing at more than one annuity starting date, the

annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Chapter as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to section 1.401(a)-20, Q and A 10(d), and with regard to section 1.415(b)-1(b)(1)(iii)(B) and (C) of the income tax regulations.

a. No actuarial adjustment to the benefit shall be made for:

i. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the member's benefit were paid in another form;

ii. benefits that are not directly related to retirement benefits (such as a disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

iii. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to section 417(e)(3) of the *Internal Revenue Code* and would otherwise satisfy the limitations of this Chapter, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Chapter applicable at the annuity starting date, as increased in subsequent years pursuant to section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form. The determination of the annual benefit shall take into account Social Security supplements described in section 411(a)(9) of the *Internal Revenue Code* and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, but shall disregard benefits attributable to employee contributions or rollover contributions. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with §§101.F.1.b or 101.F.1.c.

b. Benefit Forms Not Subject to Section 417(e)(3)

i. The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this Subparagraph F.1.b, if the form of the member's benefit is either:

(a). a non-decreasing annuity (other than a straight life annuity) payable for a period of not less than the

RETIREMENT

life of the member (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse); or

(b). an annuity that decreases during the life of the member merely because of:

(i). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(ii). the cessation or reduction of Social Security supplements or qualified disability payments (as defined in section 401(a)(11)).

ii. Limitation years beginning before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:

(a). the interest rate specified in La. R.S. 11:2225(D)(5) and the mortality table (or other tabular factor) specified in La. R.S. 11:2225(D)(5) for adjusting benefits in the same form; and

(b). a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

iii. Limitation Years beginning on or after July 1, 2007. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

(a). the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the member's form of benefit; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date.

c. Benefit Forms Subject to Section 417(e)(3). The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this Paragraph if the form of the member's benefit is other than a benefit form described in §101.F.1.b. In this case, the actuarially equivalent straight life annuity shall be determined as follows.

i. Annuity Starting Date in Plan Years Beginning After 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning after 2005, the actuarially equivalent straight life annuity is equal to the greatest of:

(a). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of

computed using the interest rate specified in La. R.S. 11:2225(D)(5) and the mortality table (or other tabular factor) specified in La. R.S. 11:2225(D)(5) for adjusting benefits in the same form; and

(b). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5.5 percent interest rate assumption and the applicable mortality table; and

(c). the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the applicable interest rate and the applicable mortality table, divided by 1.05.

ii. Annuity Starting Date in Plan Years Beginning in 2004 or 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning in 2004 or 2005, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greater annual amount:

(a). the interest rate specified in La. R.S. 11:2225(D)(5) and the mortality table (or other tabular factor) specified in La. R.S. 11:2225(D)(5) for adjusting benefits in the same form; and

(b). a 5.5 percent interest rate assumption and the applicable mortality table. If the annuity starting date of the member's benefit is on or after the first day of the first plan year beginning in 2004 and before December 31, 2004, the application of this §101.F.1.c shall not cause the amount payable under the member's form of benefit to be less than the benefit calculated under the plan, taking into account the limitations of this Chapter, except that the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greatest annual amount:

(i). the interest rate specified in La. R.S. 11:2225(D)(5) and the mortality table (or other tabular factor) specified in La. R.S. 11:2225(D)(5) for adjusting benefits in the same form;

(ii). the applicable interest rate and the applicable mortality table; and

(iii). the applicable interest rate (as in effect on the last day of the last plan year beginning before January 1, 2004, under provisions of the plan then adopted and in effect) and the applicable mortality table.

Applicable Interest Rate—the rate of interest on 30-year treasury securities (or any subsequent rate used under section 417(e) of the *Internal Revenue Code*) as specified by the Internal Revenue Service for the lookback month. The lookback month applicable to the stability period is the

second calendar month preceding the first day of the stability period. The stability period is the plan year that contains the annuity starting date for the distribution and for which the *applicable interest rate* remains constant.

Applicable Mortality Table—the *applicable mortality table* within the meaning of section 417(e)(3)(B) of the *Internal Revenue Code*.

415 Safe-Harbor Compensation—

a. *Compensation* is defined as wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (including, but not limited to, commissions paid salespersons, *compensation* for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, and reimbursements, or other expense allowances under a nonaccountable plan (as described in section 1.62-2(c) of the income tax regulations), and excluding the following.

i. Employer contributions (other than elective contributions described in section 402(e)(3), section 408(k)(6), section 408(p)(2)(A)(i), or section 457(b)) to a plan of deferred *compensation* (including a simplified employee pension described in section 408(k) or a simple retirement account described in section 408(p), and whether or not qualified) to the extent such contributions are not includible in the member's gross income for the taxable year in which contributed, and any distributions (whether or not includible in gross income when distributed) from a plan of deferred *compensation* (whether or not qualified).

ii. Amounts realized from the exercise of a nonstatutory stock option (that is, an option other than a statutory stock option as defined in section 1.421-1(b) of the income tax regulations), or when restricted stock (or property) held by the member either becomes freely transferable or is no longer subject to a substantial risk of forfeiture.

iii. Amounts realized from the sale, exchange or other disposition of stock acquired under a statutory stock option.

iv. Other amounts that receive special tax benefits, such as premiums for group-term life insurance (but only to the extent that the premiums are not includible in the gross income of the member and are not salary reduction amounts that are described in section 125).

v. Other items of remuneration that are similar to any of the items listed in Clauses i-iv above.

b. For any self-employed individual, *compensation* shall mean earned income.

c. Except as provided herein, for limitation years beginning after December 31, 1991, *compensation* for a limitation year is the *compensation* actually paid or made available during such limitation year.

d. For limitation years beginning on or after July 1, 2007, *compensation* for a limitation year shall also include *compensation* paid by the later of 2 1/2 months after an member's severance from employment with the employer maintaining the plan or the end of the limitation year that includes the date of the member's severance from employment with the employer maintaining the plan, if:

i. the payment is regular *compensation* for services during the member's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer;

ii. the payment is for unused accrued bona fide sick, vacation or other leave that the member would have been able to use if employment had continued; or

iii. the payment is received by the member pursuant to a nonqualified unfunded deferred *compensation* plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

e. Any payments not described above shall not be considered *compensation* if paid after severance from employment, even if they are paid by the later of 2 1/2 months after the date of severance from employment or the end of the limitation year that includes the date of severance from employment. Back pay, within the meaning of section 1.415(c)-2(g)(8), shall be treated as *compensation* for the limitation year to which the back pay relates to the extent the back pay represents wages and *compensation* that would otherwise be included under this definition.

f. For limitation years beginning after December 31, 1997, compensation paid or made available during such limitation year shall include amounts that would otherwise be included in *compensation* but for an election under sections 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

g. For limitation years beginning after December 31, 2000, *compensation* shall also include any elective amounts that are not includible in the gross income of the member by reason of section 132(f)(4).

Defined Benefit Compensation Limitation—100 percent of a member's high three-year average compensation, payable in the form of a straight life annuity. In the case of a member who is rehired after a severance from employment, the *defined benefit compensation limitation* is the greater of 100 percent of the member's high three-year average compensation, as determined prior to the severance from employment or 100 percent of the member's high three-year average compensation, as determined after the severance from employment under §101.G.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, the *defined benefit dollar limitation* is \$160,000, automatically adjusted under section 415(d) of the *Internal Revenue Code*, effective

January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity. The new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year.

Employer—for purposes of this Chapter, *employer* shall mean the *employer* that adopts this plan, and all members of a controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), all commonly controlled trades or businesses (as defined in section 414(c), as modified, except in the case of a brother-sister group of trades or businesses under common control, by section 415(h)), or affiliated service groups (as defined in section 414(m)) of which the adopting *employer* is a part, and any other entity required to be aggregated with the employer pursuant to section 414(o) of the *Internal Revenue Code*.

Formerly Affiliated Plan of the Employer—a plan that, immediately prior to the cessation of affiliation, was actually maintained by the employer and, immediately after the cessation of affiliation is not actually maintained by the employer. For this purpose, *cessation of affiliation* means the event that causes an entity to no longer be considered the employer, such as the sale of a member controlled group of corporations, as defined in section 414(b) of the *Internal Revenue Code*, as modified by section 415(h), to an unrelated corporation, or that causes a plan to not actually be maintained by the employer, such as transfer of plan sponsorship outside a controlled group.

High Three-Year Average Compensation—the average compensation for the three consecutive years of service (or, if the member has less than three consecutive years of service, the member's longest consecutive period of service, including fractions of years, but not less than one year) with the employer that produces the highest average. In the case of a member who is rehired by the employer after a severance from employment, the member's *high three-year average compensation* shall be calculated by excluding all years for which the member performs no services for and receives no compensation from the employer (the break period) and by treating the years immediately preceding and following the break period as consecutive. A member's compensation for a year of service shall not include compensation in excess of the limitation under section 401(a)(17) of the *Internal Revenue Code* that is in effect for the calendar year in which such year of service begins.

Limitation Year—a fiscal year, from July 1 to June 31. All qualified plans maintained by the employer must use the same *limitation year*. If the *limitation year* is amended to a different 12-consecutive month period, the new *limitation year* must begin on a date within the *limitation year* in which the amendment is made.

Maximum Permissible Benefit—the lesser of the defined benefit dollar limitation or the defined benefit compensation limitation (both adjusted where required, as provided below).

a. Adjustment for Less than 10 Years of Participation or Service. If the member has less than 10 years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction:

i. the numerator of which is the number of years (or part thereof, but not less than one year) of participation in the plan; and

ii. the denominator of which is 10. In the case of a member who has less than 10 years of service with the employer, the defined benefit compensation limitation shall be multiplied by a fraction:

(a). the numerator of which is the number of years (or part thereof, but not less than one year) of Service with the employer; and

(b). the denominator of which is 10.

b. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62 or after Age 65. Effective for benefits commencing in limitation years ending after December 31, 2001, the defined benefit dollar limitation shall be adjusted if the annuity starting date of the member's benefit is before age 62 or after age 65. If the annuity starting date is before age 62, the defined benefit dollar limitation shall be adjusted under Clause b.i of this Paragraph, as modified by Clause b.iii of this Paragraph. If the annuity starting date is after age 65, the defined benefit dollar limitation shall be adjusted under Clause b.ii of this Paragraph, as modified by Clause b.iii of this Paragraph.

i. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement before Age 62

(a). Limitation Years Beginning before July 1, 2007. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under §101.F.11.a. for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; or

(ii). a 5 percent interest rate assumption and the applicable mortality table.

(b). Limitation Years Beginning on or After July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately

commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for the annuity starting date (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 62 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the lesser of the limitation determined under Division b.i.(b).(i) of this Paragraph and the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under the plan at age 62, both determined without applying the limitations of this article.

ii. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement after Age 65

(a). Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

(i). the interest rate and the mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; or

(ii). a 5-percent interest rate assumption and the applicable mortality table.

(b). Limitation Years Beginning Before July 1, 2007

(i). Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and

occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under Subparagraph a of this Paragraph for years of participation less than 10, if required), with actuarial equivalence computed using a 5 percent interest rate assumption and the applicable mortality table for that annuity starting date (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii). Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age 65 and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age 65 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the lesser of the limitation determined under §101.F.11.b.ii.(b).(i) and the defined benefit dollar limitation (adjusted under §101.F.11.a for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the adjusted immediately commencing straight life annuity under the plan at age 65, both determined without applying the limitations of this article. For this purpose, the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date is the annual amount of such annuity payable to the member, computed disregarding the member's accruals after age 65 but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the plan at age 65 is the annual amount of such annuity that would be payable under the plan to a hypothetical member who is age 65 and has the same accrued benefit as the member.

iii. Notwithstanding the other requirements of this Subparagraph F.10.b, no adjustment shall be made to the defined benefit dollar limitation to reflect the probability of a member's death between the annuity starting date and age 62, or between age 65 and the annuity starting date, as applicable, if benefits are not forfeited upon the death of the member prior to the annuity starting date. To the extent benefits are forfeited upon death before the annuity starting date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the member's death if the plan does not charge members for providing a qualified preretirement survivor annuity, as defined in section 417(c) of the *Internal Revenue Code*, upon the member's death.

RETIREMENT

c. Minimum Benefit Permitted. Notwithstanding anything else in this section to the contrary, the benefit otherwise accrued or payable to a member under this plan shall be deemed not to exceed the *maximum permissible benefit* if:

i. the retirement benefits payable for a limitation year under any form of benefit with respect to such member under this plan and under all other defined benefit plans (without regard to whether a plan has been terminated) ever maintained by the employer do not exceed \$10,000 multiplied by a fraction:

(a). the numerator of which is the member's number of years (or part thereof, but not less than 1 year) of service (not to exceed 10) with the employer; and

(b). the denominator of which is 10; and

ii. the employer (or a predecessor employer) has not at any time maintained a defined contribution plan in which the member participated (for this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under section 401(h), and accounts for postretirement medical benefits established under section 419A(d)(1) are not considered a separate defined contribution plan).

Predecessor Employer—if the employer maintains a plan that provides a benefit which the member accrued while performing services for a former employer, the former employer is a *predecessor employer* with respect to the member in the plan. A former entity that antedates the employer is also a *predecessor employer* with respect to a member if, under the facts and circumstances, the employer constitutes a continuation of all or a portion of the trade or business of the former entity.

Severance from Employment—an employee has a *severance from employment* when the employee ceases to be an employee of the employer maintaining the plan. An employee does not have a *severance from employment* if, in connection with a change of employment, the employee's new employer maintains the plan with respect to the employee.

Year of Participation—the member shall be credited with a *year of participation* (computed to fractional parts of a year) for each accrual computation period for which the following conditions are met:

a. the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period; and

b. the member is included as a member under the eligibility provisions of the plan for at least one day of the accrual computation period. If these two conditions are met, the portion of a *year of participation* credited to the member shall equal the amount of benefit accrual service credited to the member for such accrual computation period. A member who is permanently and totally disabled within the meaning

of section 415(c)(3)(C)(i) of the *Internal Revenue Code* for an accrual computation period shall receive a *year of participation* with respect to that period. In addition, for a member to receive a *year of participation* (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event shall more than 1 *year of participation* be credited for any 12-month period.

Year of Service—for purposes of Subsection 101.G, the member shall be credited with a *year of service* (computed to fractional parts of a year) for each accrual computation period for which the member is credited with at least the number of hours of service (or period of service if the elapsed time method is used) for benefit accrual purposes, required under the terms of the plan in order to accrue a benefit for the accrual computation period, taking into account only service with the employer or a predecessor employer.

G. Other Rules

1. Benefits under Terminated Plans. If a defined benefit plan maintained by the employer has terminated with sufficient assets for the payment of benefit liabilities of all plan members and a member in the plan has not yet commenced benefits under the plan, the benefits provided pursuant to the annuities purchased to provide the member's benefits under the terminated plan at each possible annuity starting date shall be taken into account in applying the limitations of this article. If there are not sufficient assets for the payment of all members' benefit liabilities, the benefits taken into account shall be the benefits that are actually provided to the member under the terminated plan.

2. Benefits Transferred from the Plan. If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are not treated as being provided under the transferor plan (but are taken into account as benefits provided under the transferee plan). If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan that is not maintained by the employer and the transfer is not a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the transferred benefits are treated by the employer's plan as if such benefits were provided under annuities purchased to provide benefits under a plan maintained by the employer that terminated immediately prior to the transfer with sufficient assets to pay all members' benefit liabilities under the plan. If a member's benefits under a defined benefit plan maintained by the employer are transferred to another defined benefit plan in a transfer of distributable benefits pursuant section 1.411(d)-4, Q and A-3(c), of the income tax regulations, the amount transferred is treated as a benefit paid from the transferor plan.

3. Formerly Affiliated Plans of the Employer. A formerly affiliated plan of an employer shall be treated as a plan maintained by the employer, but the formerly affiliated plan shall be treated as if it had terminated immediately prior to the cessation of affiliation with sufficient assets to pay members' benefit liabilities under the plan and had purchased annuities to provide benefits.

4. Plans of a Predecessor Employer. If the employer maintains a defined benefit plan that provides benefits accrued by a member while performing services for a predecessor employer, the member's benefits under a plan maintained by the predecessor employer shall be treated as provided under a plan maintained by the employer. However, for this purpose, the plan of the predecessor employer shall be treated as if it had terminated immediately prior to the event giving rise to the predecessor employer relationship with sufficient assets to pay members' benefit liabilities under the plan, and had purchased annuities to provide benefits; the employer and the predecessor employer shall be treated as if they were a single employer immediately prior to such event and as unrelated employers immediately after the event; and if the event giving rise to the predecessor relationship is a benefit transfer, the transferred benefits shall be excluded in determining the benefits provided under the plan of the predecessor employer.

5. Special Rules. The limitations of this Chapter shall be determined and applied taking into account the rules in section 1.415(f)-1(d), (e) and (h) of the income tax regulations.

§102. Required Minimum Distributions

A.1. Unless the member has elected otherwise on or before December 31, 1983, the entire benefit of a member shall be distributed over a period not longer than the longest of the following periods:

- a. the member's life;
- b. if the member is married, the life of the member's designated beneficiary;
- c. the member's life expectancy;
- d. the joint life and last survivor life expectancy of the member and his designated beneficiary.

2. If the member is married and his spouse survives him, the designated beneficiary for at least a qualified joint and survivor annuity and 50 percent of his deferred retirement option plan account shall be his spouse, unless such spouse has consented to the contrary in writing before a notary public. For purposes of this Paragraph, *spouse* shall mean that person who is married to the member under a legal regime of community of acquets and gains on his effective date of retirement or effective date of participation in the deferred retirement option plan, whichever is earlier.

3. If the member was a member on or before December 31, 1983, he shall be deemed to have made the election referred to herein. If a member dies after the commencement of his benefits, the remaining portion of his benefit shall be distributed at least as rapidly as before his death. Payment of survivor benefits shall not be considered to violate this provision.

B.1. If the member dies before his benefit has commenced the remainder of such interest shall be distributed to the member's beneficiary within five years after the date of such member's death.

2. Paragraph 1 of this Subsection shall not apply to any portion of a member's benefit which is payable to or for the benefit of a designated beneficiary or beneficiaries, over the life of or over the life expectancy of such beneficiary, so long as such distributions begin not later than one year after the date of the member's death, or, in the case of the member's surviving spouse, the date the member would have attained the age of 70 1/2. If the designated beneficiary is the member's surviving spouse and if the surviving spouse dies before the distribution of benefits commences, then Paragraph 1 of this Subsection shall be applied as if the surviving spouse were the member. If the designated beneficiary is a child of the member, for purposes of satisfying the requirement of Paragraph 1 of this Subsection, any amount paid to such child shall be treated as if paid to the member's surviving spouse if such amount would become payable to such surviving spouse, if alive, upon the child's reaching age eighteen or, if later, upon the child's completing a designated event. For purposes of the preceding sentence, a designated event shall be the later of the date the child is no longer disabled, or the date the child ceases to be a full-time student or attains age 23, if earlier.

3. Paragraph 1 of this Subsection shall not apply if the distribution of the member's interest has commenced and is for a term certain over a period permitted in Subsection A of this Section.

4. Paragraph 1 of this Subsection shall not apply if the member has elected otherwise on or before December 31, 1983, or such later date to which such election period shall be subject under *Internal Revenue Code* section 401(a).

C. As to any benefit payable by the retirement system which is not optional as of December 31, 1983, the member shall be considered to have made the election referred to in Subsections A and B of this Section, if he was a member on or before such time.

D. If by operation of law or by action of the board of trustees, a survivor benefit is payable to a specified person or persons, the member shall be considered to have designated such person as an alternate beneficiary hereunder. If there is more than one such person, then the youngest disabled child shall be considered to have been so designated, or, if none, then the youngest person entitled to receive a survivor benefit shall be considered to have been so designated. The designation of a designated beneficiary hereunder shall not prevent payment to multiple beneficiaries but shall only establish the permitted period of payments.

RETIREMENT

E. Payment in accordance with the survivor benefit provisions of R.S. 11:2220.4 and 2222 shall be deemed not to violate Subsections A and B of this Section.

F. This Section shall be effective for members of the system who complete any service under the system on or after July 1, 1992, with employers contributing to the system.

G. Distributions from the system shall be made in accordance with the requirements set forth in *Internal Revenue Code* section 401(a)(9), including the minimum distribution incidental benefit rules applicable thereunder.

H.1. A member's benefits shall commence to be paid on or before the required beginning date.

2. The required beginning date shall be April 1 of the calendar year following the later of the calendar year in which the member attains 70 1/2 years of age, or the calendar year in which the employee retires. Effective for plan years beginning on or after January 1, 1998, the required beginning date shall be April 1 of the year following the later of the year the member attained 70 1/2 or the year he terminated employment.

§103. Direct Rollovers

A. Notwithstanding any other provision of law to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by the board of trustees, to have any portion of an "eligible rollover distribution," as specified by the distributee, paid directly to an "eligible retirement plan", as those terms are defined below.

B. The following definitions shall apply.

Direct Rollover—a payment by the system to the eligible retirement plan specified by the distributee.

Distributee—shall include:

- a. a member or former member;
- b. the member's or former member's surviving spouse, or the member's or former member's former spouse with whom a benefit or a return of employee contributions is to be divided pursuant to R.S. 11:291(B), with reference to an interest of the member or former spouse;
- c. the member's or former member's non-spouse beneficiary, provided the specified distribution is to an eligible retirement plan as defined in Subparagraphs a and b of the definition of eligible retirement plan in this Section.

Eligible Retirement Plan—any of the following:

- d. a qualified trust as described in section 401(a) of the *Internal Revenue Code*, provided that such trust accepts the member's eligible rollover distribution;

- e. an eligible deferred compensation plan described in section 457(b) of the *Internal Revenue Code* that is maintained by an eligible governmental employer, provided the plan contains provisions to account separately for amounts transferred into such plan; and

- f. an annuity contract described in section 403(b) of the *Internal Revenue Code*.

Eligible Rollover Distribution—any distribution of all or any portion of the balance to the credit of the distributee, except that an *eligible rollover distribution* does not include:

- a. any distribution that is one of a series of substantially equal periodic payments, not less frequently than annually, made for the life or life expectancy of the member, or the joint lives or joint life expectancies of the member and the member's designated beneficiary, or for a specified period of ten years or more;

- b. any distribution to the extent that such distribution is required under section 401(a)(9) of the United States *Internal Revenue Code*; and

- c. any distribution which is made upon hardship of the employee.

§104. Annual Compensation Limitation

A. Unless otherwise provided in this Chapter, the accrued benefit of each "section 401(a)(17) employee" as that term is defined below shall be the greater of the following:

1. The employee's accrued benefit determined with respect to the benefit formula applicable for the plan year beginning on or after January 1, 1996, as applied to the employee's total years of service taken into account for purposes of benefit accruals.

2. The sum of:

- a. the employee's accrued benefit as of the last day of the last plan year beginning before January 1, 1996, frozen in accordance with the provisions of section 1.401(a)(4)-1 through 1.401(a)(4)-13 of the *Code of Federal Regulations*;

- b. the employee's accrued benefit determined under the benefit formula applicable for the plan year beginning on or after January 1, 1996, as applied to the employee's years

of service credited to the employee for plan years beginning on or after January 1, 1996, for purposes of benefit accruals.

B. A *section 401(a)(17) employee* shall mean any employee whose current accrued benefit, as of a date on or after the first day of the first plan year beginning on or after January 1, 1996, is based on compensation for a year beginning prior to the first day of the first plan year beginning on or after January 1, 1996, that exceeded \$150,000.

C. If an employee is not a “section 401(a)(17) employee”, his accrued benefit in this system shall not be based upon compensation in excess of the annual limit of section 401(a)(17) of the United States *Internal Revenue Code* as amended and revised.

1. for investment purposes, transfer assets of the retirement system to, and pool such assets in, one or more group trust(s); and

2. adopt one or more group trust(s), and/or the terms of such group trust(s), as part of the retirement system to the extent necessary to meet the requirements of applicable law, by executing appropriate participation and/or adoption agreements with the trustee(s) of the group trust(s).

B. For purposes of transferring assets of the retirement system to a trustee(s) of any current or future group trust(s), by the execution of such group trust’s participation agreement(s), the board of trustees specifically adopts the trustee’s declaration of the group trust as part the retirement system to the extent of its interest in the group trust, or as is required by applicable law, for the purposes of such investment and compliance with Revenue Ruling 81-100, 1981-1 CB 326 (as clarified and modified by Revenue Ruling 2004-67, 2004-2 CB 28, and modified by Revenue

B. No disability benefits will be considered certified by the board of trustees until the board-designated physician provides sufficient information for the executive director to determine whether the applicant is eligible for disability benefits and the percentage of average final compensation

due to the applicant. If the member qualifies for any exemption from the provisions of R.S. 11:221(A) through (C), findings of fact supporting the qualification for the exemption shall be included in the certification by the board-designated physician. C. When evaluating a mental disorder, the board-designated physician shall physically examine the patient, and the physician's diagnosis shall conform to the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-5), American Psychiatric Association (2013) or any subsequent revision thereof.

F. If the board-designated physician's final certification decision is submitted when there are more than thirty days until the next board meeting, the executive director may, in his sole discretion, approve the disability retirement or file a written appeal on behalf of the board of trustees with the applicant. The executive director shall apply this procedure in a manner consistent with his fiduciary duty and shall report any approvals or appeals to the board of trustees at the next board meeting.

G. Payments to any disability beneficiary who has not yet attained the equivalent age of regular retirement who refuses to submit to a required medical examination by a medical board physician designated by the board of trustees, shall be discontinued until the beneficiary complies. Failure to comply within one year of the request shall result in revocation of benefits by the board of trustees via written notification sent to the disability beneficiary by the executive director.

The disability beneficiary must explain why any paperwork required was not submitted by the due date. All retroactive payments must be approved by the board of trustees. No retroactive payments shall be made to disability beneficiaries whose benefits were revoked.

J. Any disability beneficiary subject to R.S. 11:221(D)(1) who receives a financial award solely as a result of his disability shall be required to provide proof of the gross financial award, along with all legal and court costs associated with the settlement. The system staff shall request the actuary to convert the lump sum financial award, net of any related legal fees and court costs, into a whole life annuity equivalent based upon board-approved interest, mortality, and unisex assumptions. The recipient's disability benefit shall be offset by an amount equal to the difference between the inflation-adjusted final average compensation used to determine the disability benefit and the sum of the maximum monthly benefit, whole life annuity equivalent, and other outside earnings under R.S. 11:221. Disability applicants shall disclose any financial awards or pending claims for financial award on the application for disability retirement or within three days of filing a claim. Disability beneficiaries shall submit information regarding financial awards on the notarized annual earnings statement. Disability beneficiaries' benefits shall be reviewed annually for offset until the earlier of the beneficiaries' date of death or date of conversion to a regular retirement benefit. The monthly benefit of any disability beneficiary who is overpaid due to failure to report outside benefits or awards subject to R.S. 11:221(D) shall cease until fully recouped by the system, including interest at the actuarial assumed rate of return and actuarial fees paid by the system in the calculation or collection of amounts.

D. IRC §415 Compensation Paid After Severance from Employment

1. Adjusted Compensation. IRC §415 compensation shall be adjusted for the following types of compensation paid after a participant's severance from employment with the employer maintaining the plan (or any other entity that is treated as the employer pursuant to IRC §414(b), (c), (m) or (o)). Any other payment of compensation paid after severance from employment that is not described in the following types of compensation is not considered IRC §415 compensation within the meaning of IRC §415(c)(3), even if payment is made within the time period specified above.

RETIREMENT

b. the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if:

i. the payment would have been paid at the same time if the participant had continued in employment with the employer and only to the extent that the payment is includible in the participant's gross income.

5. Qualified Military Service. IRC §415 compensation does not include payments to an individual who does not currently perform services for the employer by reason of qualified military service (as that term is used in IRC §414(u)(1)) to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

8. Lost Wages. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate an employee for lost wages are IRC §415 compensation for the limitation year to which the back pay relates, but only to the extent

such payments represent wages and compensation that would otherwise be included in IRC §415 compensation.

Distributee—

a. a person who is distributed benefits from the plan and shall include an employee or former employee. In addition:

i. the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in IRC §414(p), are *distributees* with regard to the interest of the spouse or former spouse;

ii. a nonspouse beneficiary as designated by the member.

Eligible Retirement Plan—

b. shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order.

Eligible Rollover Distribution—any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

a.i. any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary; or

ii. for a specified period of 10 years or more;

b. any distribution to the extent such distributions is required under IRC §401(a)(9);

B. Eligible Retirement Plan

1. Effective for distributions on or after January 1, 2007:

a. eligible retirement plan shall include the individual retirement account or annuity in the name of the deceased participant for the benefit of a nonspouse beneficiary, who receives an eligible rollover distribution from the plan on account of the death of a participant, provided that the individual retirement account or annuity is treated as an inherited IRA and that the minimum distribution rules applicable in the event the IRA owner dies before the entire interest is distributed shall apply to the transferee IRA and the transferee IRA does not provide the beneficiaries with the special rules for surviving spouse beneficiaries;

b. a Roth IRA is an eligible retirement plan with respect to distributions from the Fund that do not consist of

designated Roth accounts, so long as the restrictions that apply to a transfer from a traditional IRA (non-Roth) to a Roth IRA are satisfied.

C. Eligible Rollover Distribution

1. If any portion of an eligible rollover distribution is attributable to payments or distributions from a designated Roth account, an eligible retirement plan with respect to such portion shall include only another designated Roth account of the individual from whose account the payments or distributions were made, or a Roth IRA of such individual.

2. Effective January 1, 2003, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in IRC §408(a) or (b), or to a qualified defined contribution plan described in IRC §401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includible in gross income and the portion of such distribution that is not so includible.

3. Effective January 1, 2007, eligible rollover distributions shall include:

a. a distribution to a nonspouse beneficiary on account of the participant's death, so long as any rollover distribution is transferred to an individual retirement account or annuity that is treated as an inherited account of the deceased participant;

4. Effective January 1, 2007, distributions from the plan that do not consist of designated Roth accounts shall be eligible rollover distributions with respect to a Roth IRA and may be rolled over to a Roth IRA, subject to the restrictions that apply to a transfer from a traditional (non-Roth) IRA to a Roth IRA.

5. During 2009, 2009 RMDs shall be treated as eligible rollover distributions for purposes of making available the direct rollover of eligible rollover distributions that include such amount, but not for purposes of withholding federal income taxes on the amount when it is distributed.

§505. Benefit Limitations

A. As provided under R.S. 11:1458, the following provisions shall apply for limitation years beginning on or after July 1, 2007.

1. **Annual Benefit—Maximum Permissible Benefit.** The annual benefit, otherwise payable to a participant under the plan, at any time shall not exceed the maximum permissible benefit. If the benefit the participant would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, then the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

2. **Adjustment if in Two Defined Benefit Plans.** If the participant is, or has ever been, a participant in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the participant's annual benefit from all such plans may not exceed the maximum permissible benefit. Where the participant's employer-provided benefits under all such defined benefit plans (determined as of the same age) would exceed the maximum permissible benefit applicable at that age, the employer shall limit a participant's benefit in accordance with the terms of the plans.

3. **Limits Grandfathered prior to July 1, 2007**

a. The following sentence in Clause i of this Subparagraph applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to IRC § 415 in effect as of the end of the last limitation year beginning before July 1, 2007, as described in U.S. Treasury regulations § 1.415(a)-1(g)(4).

i. The application of the provisions of this Part shall not cause the maximum permissible benefit for any participant to be less than the participant's accrued benefit under all the defined benefit plans of the employer or a predecessor employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007.

Chapter 7. Accumulated Contributions

§701. Benefit Limitations

A. **Definitions.** For purposes of Chapter 7, the following definitions apply.

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, \$160,000, automatically adjusted under IRC §415(d), effective January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity:

a. the new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year;

b. the automatic annual adjustment of the defined benefit dollar limitation under IRC §415(d) shall apply to participants who have had a separation from employment.

B. Annual Benefit Determination

1. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Part.

2. For a participant who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Part as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates.

a. For this purpose, the determination of whether a new annuity starting date has occurred shall be made:

i. without regard to U.S. Treasury regulations §1.401(a)-20, Q and A-10(d); and

ii. with regard to U.S. Treasury regulations §1.415(b)1(b)(1)(iii)(B) and (C).

3. The determination of the annual benefit shall take into account Social Security supplements described in IRC §411(a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant to U.S. Treasury regulations § 1.411(d)-4, Q and A-3(c), but shall disregard benefits attributable to employee contributions or rollover contributions.

C. **Actuarial Adjustment.** No actuarial adjustment to the benefit shall be made for:

1. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the participant's benefit were paid in another form;

2. benefits that are not directly related to retirement benefits (such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

3. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to IRC §417(e)(3) and would otherwise satisfy the limitations of this Part, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Part applicable at the annuity starting date, as increased in subsequent years pursuant to IRC §415(d);

RETIREMENT

a. for this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

D. Actuarial Equivalent—Straight Life Annuity

1. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with Subparagraph a of this Paragraph.

a. The straight life annuity that is actuarially equivalent to the participant's form of benefit shall be determined under this Subparagraph if the form of the participant's benefit is either:

i. a nondecreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the participant (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse); or

ii. an annuity that decreases during the life of the participant merely because of:

(a). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(b). the cessation or reduction of Social Security supplements or qualified disability payments (as defined in IRC §401(a)(1)).

2. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit computed using whichever of the following produces the greater annual amount:

a. the interest rate and mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

b. 5 percent interest rate assumption and the applicable mortality table defined in the plan for that annuity starting date.

3. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

a. the annual amount of the straight life annuity (if any) payable to the participant under the plan commencing at the same annuity starting date as the participant's form of benefit; and

b. the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table defined in the plan for that annuity starting date.

1. distributee, eligible retirement plan and eligible rollover distribution shall be defined in provisions adopted by the board pursuant to R.S. 11:1457;

2. an eligible rollover distribution shall be transferred in a direct rollover to an eligible retirement plan if so directed by the distributee. The board shall provide distributees with the opportunity to direct such direct rollover.

Chapter 1. General Provisions

§101. Compensation

A. Definitions. As provided under R.S. 11:1581(5), effective for limitation years beginning on or after July 1, 2007, compensation is hereby defined as follows.

Compensation—the regular pay of the member, not including any overtime or bonuses.

DARS—the District Attorneys' Retirement System, as set forth in R.S. 11:1581 through 1702 and this Part.

IRC §415 Compensation—wages, tips and other compensation required to be reported under §§6041, 6051 and 6052 of the *Internal Revenue Code* (IRC) (wages, tips and other compensation box on IRS Form W-2), during the calendar year of the plan (the plan year or determination period).

B. Exclusions from Compensation. Compensation shall not include:

1. any amounts that are not includible in IRC §415 compensation;

2. employer contributions to a plan of deferred compensation to the extent contributions are not included in gross income of the employee for the taxable year in which contributed, or on behalf of an employee to a simplified employee pension plan and any distributions form a plan of deferred compensation;

3. amounts realized from the exercise of a non-qualified stock option, or when restricted stock (or property) held by an employee becomes freely transferable or is no longer subject to a substantial risk of forfeitures;

4. amounts realized from the sale, exchange or other disposition of stock acquired under a qualified stock option;

5. other amounts that receive special tax benefits, or contributions made by an employer (whether or not under a salary reduction agreement) towards the purchase of a IRC §403(b) annuity contract (whether or not the contributions are excludible from the gross income of the employee); and

6. pre-tax amounts contributed by the employee to an IRC §125 cafeteria plan.

C. Determination of IRC §415 Compensation. IRC §415 compensation must be determined without regard to any rules under IRC §3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in IRC §3401(a)(2)).

1. For plan years beginning on and after January 1, 2001:

- a. IRC §415 compensation shall include elective amounts that are not includible in the gross income of the employee under IRC §§125, 132(f)(4), 402(e)(3), 402(h), 403(b) or 457.

2. For any plan year beginning after December 31, 2001:

- a. IRC §415 compensation shall not exceed the maximum amount of compensation permitted to be taken into account under IRC §401(a)(17), \$200,000 adjusted for the cost of living increases in accordance with IRC §401(a)(17)(B).

- i. The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

3. If a determination period consists of fewer than 12 months, as a result of a change in plan year or in the year of the termination of the plan.

- a. The IRC §415 compensation limit is an amount equal to the otherwise applicable IRC §415 compensation limit multiplied by a fraction, the numerator of which is the number of months in the short determination period, and the denominator of which is 12.

4. If IRC §415 compensation for any prior determination period is taken into account in determining a participant's benefit for the current plan year, the IRC §415 compensation for such prior determination period is subject to the applicable IRC §415 compensation limit in effect for that prior period.

D. IRC §415 Compensation Paid After Severance from Employment

1. Adjusted Compensation. IRC §415 compensation shall be adjusted for the following types of compensation paid after a participant's severance from employment with the employer maintaining the plan (or any other entity that is treated as the employer pursuant to IRC §414(b), (c), (m) or (o)). However, amounts described in Paragraphs 2-8 of this Subsection may only be included in IRC §415 compensation to the extent such amounts are paid by the later of 2 1/2 months after severance from employment or by the end of the limitation year that includes the date of such severance from employment. Any other payment of compensation paid after severance from employment that is not described in the following types of compensation is not considered IRC §415 compensation within the meaning of IRC §415(c)(3), even if payment is made within the time period specified above.

RETIREMENT

2. Regular Pay. IRC §415 compensation shall include regular pay after severance from employment if:

a. the payment is regular compensation for services during the participant's regular working hours, or compensation for services outside the participant's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments; and

b. the payment would have been paid to the participant prior to a severance from employment if the participant had continued in employment with the employer.

3. Leave Cashouts. Leave cashouts shall be included in IRC §415 compensation if:

a. those amounts would have been included in the definition of IRC §415 compensation if they were paid prior to the participant's severance from employment; and

b. the amounts are payment for unused accrued bona fide sick, vacation, or other leave, but only if:

i. the participant would have been able to use the leave if employment had continued.

4. Deferred Compensation. IRC §415 compensation will include deferred compensation if the compensation would have been included in the definition of IRC §415 compensation and if:

a. it had been paid prior to the participant's severance from employment; and

b. the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if:

i. the payment would have been paid at the same time if the participant had continued in employment with the employer and only to the extent that the payment is includible in the participant's gross income.

5. Qualified Military Service. IRC §415 compensation does not include payments to an individual who does not currently perform services for the employer by reason of qualified military service (as that term is used in IRC §414(u)(1)) to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

6. Permanently and Totally Disabled. IRC §415 compensation does not include compensation paid to a participant who is permanently and totally disabled (as defined in IRC §22(e)(3)).

7. Amounts Earned but not Paid. IRC §415 compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

8. Lost Wages. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate an employee for lost wages are IRC §415 compensation for the limitation year to which the back pay relates, but only to the extent

such payments represent wages and compensation that would otherwise be included in IRC §415 compensation.

E. Limitation Year

1. The limitation year:

a. shall be the calendar year;

b. is the period that is used to apply the limitations of IRC §415.

2. The limitation year may only be changed by amendment to DARS. Furthermore, if DARS is terminated effective as of a date other than the last day of DARS's limitation year, then DARS is treated as if DARS had been amended to change its limitation year.

a. For single life option factors, mortality rates shall be based on the RP-2000 combined healthy table with white collar adjustment with no setback for males and with 1 year setback for females and unisex based on 80 percent males and 20 percent females. For joint life option factors, mortality rates shall be based on the RP-2000 combined healthy tables with white color adjustment with no setback for males and with a 1 year setback for females and unisex based on 95 percent males and 5 percent females for retirees and 5 percent males and 95 percent females for beneficiaries.

b. For disability award lifetime equivalences, mortality rates shall be based on the RP-2000 disabled lives tables set back 5 years for males and set back 3 years for females unisex based on 80 percent males and 20 percent females.

D. After July 1, 2016, the interest and mortality rate assumptions shall be as adopted by resolution of the board. The board shall consult with its actuary with regard to the proper rates to use.

E. For purposes of comparing the benefits of the forms of distribution with the maximum limitation on benefits, the applicable mortality tables described in IRC §417(e)(3)(B) shall be used.

§105. Accumulated Contributions, Rollovers

A. Definitions. As provided in R.S. 11:1635(E), the following definitions are provided or revised.

2009 RMDs of a Participant or Beneficiary—amounts that the participant or beneficiary would have been required to receive as a required minimum distribution under IRC §401(a)(9) for the 2009 distribution calendar year.

Eligible Retirement Plan—shall include, in addition to the plans and accounts described in R.S. 11:1635(D)(3), the following.

a. Effective for distributions on or after January 1, 2007, eligible retirement plan shall include the individual retirement account or annuity in the name of the deceased participant for the benefit of a nonspouse beneficiary, who receives an eligible rollover distribution from the plan on account of the death of a participant, provided that the individual retirement account or annuity is treated as an inherited IRA and that the minimum distribution rules applicable in the event the IRA owner dies before the entire interest is distributed shall apply to the transferee IRA and

the transferee IRA does not provide the beneficiary with the special rules for surviving spouse beneficiaries.

b. If any portion of an eligible rollover distribution is attributable to payments or distributions from a designated Roth account, an eligible retirement plan with respect to such portion shall include only another designated Roth account of the individual from whose account the payments of distributions were made, or a Roth IRA of such individual. Effective January 1, 2007, a Roth IRA is an eligible retirement plan with respect to distributions from this plan that do not consist of designated Roth accounts, so long as the restrictions that apply to a transfer from a traditional IRA (non-Roth) to a Roth IRA are satisfied.

Eligible Rollover Distribution—shall include, in addition to the events set forth in R.S. 11:1635(D)(4), the following.

a. Effective January 1, 2003, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in §408(a) or (b) of the *Internal Revenue Code*, or a Roth individual retirement account or annuity described in §408A of the *Internal Revenue Code* (a "Roth IRA") or to a qualified defined contribution plan described in §§401(a) or 403(a) of the *Internal Revenue Code* that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includible in gross income and the portion of such distribution that is not so includible.

b. Effective January 1, 2007, eligible rollover distributions shall include a distribution to a nonspouse beneficiary on account of the participant's death, so long as any rollover distribution is transferred to an individual retirement account or annuity that is treated as an inherited account of the deceased participant, or Roth IRA established on behalf of the nonspouse designated beneficiary for the purpose of receiving the distribution. Effective January 1, 2007, early rollover distribution shall include after-tax contributions held in a plan qualified under §401(a) of the *Internal Revenue Code*. Effective January 1, 2007, distributions from the plan that do not consist of designated Roth accounts shall be eligible rollover distributions with respect to a Roth IRA and may be rolled over to a Roth IRA, subject to the restrictions that apply to a transfer from a traditional (non-Roth) IRA to a Roth IRA.

c. During 2009, 2009 RMDs shall be treated as eligible rollover distributions for purposes of making available the direct rollover of eligible rollover distributions that include such amount, but not for purposes of withholding federal income taxes on the amount when it is distributed.

B. Rollover of Returned Contributions. As provided in R.S. 11:1635(E):

RETIREMENT

1. distributee, eligible retirement plan and eligible rollover distribution shall be defined as provided in Subsection A of this Section;

2. an eligible rollover distribution shall be transferred in a direct rollover to an eligible retirement plan if so directed by the distributee. The board shall provide distributees with the opportunity to direct such direct rollover by written notice at least 30 and not longer than 180 days prior to the distribution;

3. this rollover right shall apply to any eligible rollover distribution, including distributions of accumulated contributions, DROP accounts and back-DROP accounts.

C. Eligible Retirement Plan

1. Effective for distributions on or after January 1, 2007:

a. eligible retirement plan shall include the individual retirement account or annuity in the name of the deceased participant for the benefit of a nonspouse beneficiary, who receives an eligible rollover distribution from the plan on account of the death of a participant, provided that the individual retirement account or annuity is treated as an inherited IRA and that the minimum distribution rules applicable in the event the IRA owner dies before the entire interest is distributed shall apply to the transferee IRA and the transferee IRA does not provide the beneficiaries with the special rules for surviving spouse beneficiaries;

b. a Roth IRA is an eligible retirement plan with respect to distributions from the fund that do not consist of designated Roth accounts, so long as the restrictions that apply to a transfer from a traditional IRA (non-Roth) to a Roth IRA are satisfied.

D. Eligible Rollover Distribution

1. If any portion of an eligible rollover distribution is attributable to payments or distributions from a designated Roth account, an eligible retirement plan with respect to such portion shall include only another designated Roth account of the individual from whose account the payments or distributions were made, or a Roth IRA of such individual.

2. Effective January 1, 2003, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in IRC §408(a) or (b), or to a qualified defined contribution plan described in IRC §§401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includible in gross income and the portion of such distribution that is not so includible.

3. Effective January 1, 2007, eligible rollover distributions shall include:

a. a distribution to a nonspouse beneficiary on account of the participant's death, so long as any rollover distribution is transferred to an individual retirement account or annuity that is treated as an inherited account of the deceased participant;

b. after-tax contributions held in a plan qualified under IRC §401(a).

4. Effective January 1, 2007, distributions from the plan that do not consist of designated Roth accounts shall be eligible rollover distributions with respect to a Roth IRA and may be rolled over to a Roth IRA, subject to the restrictions that apply to a transfer from a traditional (non-Roth) IRA to a Roth IRA.

5. During 2009, 2009 RMDs shall be treated as eligible rollover distributions for purposes of making available the direct rollover of eligible rollover distributions that include such amount, but not for purposes of withholding federal income taxes on the amount when it is distributed.

E. Payment for Age Discrimination Service Credit

1. As provided in R.S. 11:1617(B), payment may be made directly by the member or may be made on the member's behalf in a single sum payment by:

a. an individual retirement account; or

b. an individual retirement annuity; or

c. a plan qualified under IRC §§401(a), 403(a), 403(b), or 457(g).

2. Source of Contribution. Amounts contributed under Paragraph 1 of this Subsection shall not consist of amounts for which additional recordkeeping is required, such as after tax or Roth accounts. The trustees shall have discretion whether to accept contributions in any particular form.

AUTHORITY NOTE: Promulgated in accordance with the provisions of R.S. 11:1588(A), R.S. 11:1617(B), and the Administrative Procedure Act, R.S. 49:950 et seq.

§107. Repayment of Withdrawn Accumulated Contributions

A. Withdrawn Accumulated Contributions May be Repaid

1. Repayment Permitted

a. Member contributions that have been refunded to the member upon his termination of employment before qualifying for retirement benefits under the DARS may be repaid to DARS by the member upon his reemployment by a participating employer and his participation in and contributing to DARS for a minimum of six months, provided such repayment is made prior to any application by the member for retirement.

2. Amount of Repayment

a. Repayment of a refund shall include the amount refunded plus interest thereon. The trustees shall determine the interest rate applicable to each period during which the accumulated contributions have been refunded and ending with the date of repayment. Such interest shall be determined on a consistent basis and shall apply to all members. Installments shall not be permitted. If funds used for repayment originate from multiple sources, all funds due must be received by DARS within 45 days of each other. Service credit shall not be restored until full payment has been received.

3. Sources of Payment

a. The member shall be responsible for certifying and demonstrating the amount of any refund from a source for which taxes have been paid by the member. Amounts received in a rollover, whether a direct rollover or 60-day rollover will be presumed not to have been taxed; however, the trustees or their delegates may offer the member the opportunity to demonstrate that part or all of the rollover is of after-tax funds, subject to any administrative requirements that the trustees regard as reasonable to demonstrate proof of the after-tax status of the funds. DARS will maintain records of after-tax amounts held for the benefit of the member.

4. Distribution of Refund Amounts

a. Any distribution of amounts repaid by the member that includes after-tax payments shall include the allocable portion of the after-tax payment. Determination of the allocable portion of each payment shall be in accordance with federal income tax rules and the policies and procedures of the trustees.

B. Service Credited Upon Repayment

1. Service Credited

a. All creditable service forfeited upon refund shall be restored upon full repayment of the refund plus interest in accordance with Subsection A above. The accrual rate of such service shall be the applicable rate in place at the time the service was initially earned.

AUTHORITY NOTE: Promulgated in accordance with the provisions of R.S. 11:1588(A) and R.S. 11:1617(B).

Chapter 3. Creditable Service

§301. Benefits for Qualified Military Service

A. Death and Disability. As provided under R.S. 11:1614(F), the following shall apply.

1. In the case of a death or disability occurring on or after January 1, 2007, if a member dies or becomes disabled while performing qualified military service (as defined in IRC §414(u)), the member or the member's beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the plan as if the participant had resumed and then terminated employment on account of death.

a. Moreover, the plan will credit the member's qualified military service as service for vesting purposes, as though the member had resumed employment under USERRA immediately prior to the member's death.

B. Differential Wage Payments. If the member's employer makes differential wage payments during the member's qualified military service, then the member shall be credited with compensation for purposes of the system.

C. Qualified Military Service—any service in the uniformed services (as defined in chapter 43 of title 38, *United States Code*), by any individual if such individual is entitled to reemployment rights under such chapter with respect to such service.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588(A), R.S. 11:1614(F), and the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

Chapter 5. Limitation on Payment of Benefits

§501. Suspension of Benefits

A. As provided in R.S. 11:1631(E) and (F), if a member has commenced to receive distributions under R.S. 11:1632 or 1633, then benefits to such member shall be suspended upon his reemployment by a contributing employer to the system, and the suspension shall continue so long as he is still employed. If such member later terminates employment, he shall commence to receive minimum distributions again and shall be entitled to elect the method of receiving such distributions, with his required beginning date to be determined based on the date of his termination of employment.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588(A) and R.S. 49:950 et seq.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the District Attorneys' Retirement System, LR 41:2315 (November 2015).

§503. Definitions

A. Definitions. For purposes of this Title, the following definitions apply.

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, \$160,000, automatically adjusted under IRC §415(d), effective January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity:

a. the new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year;

b. the automatic annual adjustment of the defined benefit dollar limitation under IRC §415(d) shall apply to participants who have had a separation from employment.

Required Beginning Date of a Member—April 1 of the calendar year following the year in which the plan member terminated employment with the employers that contribute to the system. Any required beginning date occurring in 2009 shall be extended for one year.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588(A) and R.S. 49.950 et seq.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the District Attorneys' Retirement System, LR 41:2315 (November 2015).

§505. Benefit Limitations

A. Maximum Permissible Benefit. As provided under R.S. 11:1632, the following provisions shall apply for limitation years beginning on or after July 1, 2007.

1. Annual Benefit—Maximum Permissible Benefit. The annual benefit, otherwise payable to a participant under the plan, at any time shall not exceed the maximum permissible benefit. If the benefit the participant would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, then the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

2. Adjustment if in Two Defined Benefit Plans. If the participant is, or has ever been, a participant in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the participant's annual benefit from all such plans may not exceed the maximum permissible benefit. Where the participant's employer-provided benefits under all such defined benefit plans (determined as of the same age) would exceed the maximum permissible benefit applicable at that age, the employer shall limit a participant's benefit in accordance with the terms of the plans.

3. Limits Grandfathered prior to July 1, 2007

a. The following sentence in Clause i of this Subparagraph applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to IRC §415 in effect as of the end of the last limitation year beginning before July 1, 2007, as described in U.S. Treasury regulations §1.415(a)-1(g)(4).

i. The application of the provisions of this Part shall not cause the maximum permissible benefit for any participant to be less than the participant's accrued benefit under all the defined benefit plans of the employer or a predecessor employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007.

B. Annual Benefit Determination

1. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Part.

2. For a participant who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Part as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates.

a. For this purpose, the determination of whether a new annuity starting date has occurred shall be made:

i. without regard to U.S. Treasury regulations §1.401(a)-20, Q and A-10(d); and

ii. with regard to U.S. Treasury regulations §1.415(b)(1)(iii)(B) and (C).

3. The determination of the annual benefit shall take into account Social Security supplements described in IRC §411(a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant to U.S. Treasury regulations §1.411(d)-4, Q and A-3(c), but shall disregard benefits attributable to employee contributions or rollover contributions.

C. Actuarial Adjustment. No actuarial adjustment to the benefit shall be made for:

1. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the participant's benefit were paid in another form;

2. benefits that are not directly related to retirement benefits (such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

3. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to IRC §417(e)(3) and would otherwise satisfy the limitations of this Part, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Part applicable at the annuity starting date, as increased in subsequent years pursuant to IRC §415(d).

a. For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

D. Actuarial Equivalent—Straight Life Annuity

1. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with Subparagraph a of this Paragraph.

a. The straight life annuity that is actuarially equivalent to the participant's form of benefit shall be determined under this Subparagraph if the form of the participant's benefit is either:

i. a nondecreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the participant (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse); or

ii. an annuity that decreases during the life of the participant merely because of:

(a). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(b). the cessation or reduction of Social Security supplements or qualified disability payments (as defined in IRC §401(a)(11)).

2. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit computed using whichever of the following produces the greater annual amount:

a. the interest rate and mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

b. 5 percent interest rate assumption and the applicable mortality table defined in the plan for that annuity starting date.

3. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

a. the annual amount of the straight life annuity (if any) payable to the participant under the plan commencing at the same annuity starting date as the participant's form of benefit; and

b. the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table defined in the plan for that annuity starting date.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588(A) and 11:1632(F).

HISTORICAL NOTE: Promulgated by the Board of Trustees of the District Attorneys' Retirement System, LR 41:2315 (November 2015).

Chapter 7. Required Minimum Distributions

§701. Required Beginning Date

A. Definition

Required Beginning Date of a Participant who is a 5 Percent Owner of an Adopting Employer—the first day of April of the calendar year following the calendar year in which the participant attains age 70 1/2. The required beginning date for benefit distributions to a participant other than a 5 percent owner shall be the first day of April of the calendar year following the calendar year in which the later of the following occurs: the participant attains age 70 1/2, or the participant retires. Once distributions have begun to a 5 percent owner under this Section, they must continue to be distributed, even if the participant ceases to be a 5 percent owner in a subsequent year.

B. Annuity Distributions

1. Benefits due to a member who is eligible for retirement under R.S. 11:1632, 1633, or 1634 shall commence on or before the required beginning date.

2. Death before Date Distributions Begin. If the member dies before distribution of his or her interest begins, distribution of the member's interest in the applicable account(s) will be distributed or begin to be distributed, no later than as follows.

a. Member Survived by Designated Beneficiary. If the member dies before the date distributions begin and there is a designated beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the member's death is the quotient obtained by dividing the member's account balance by the remaining life expectancy of the member's designated beneficiary.

b. No Designated Beneficiary. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's interest in the applicable account(s) will be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

c. Death of Surviving Spouse Before Distributions to Surviving Spouse Are Required to Begin. If the member dies before the date distributions begin, the member's surviving spouse is the member's sole designated beneficiary, and the surviving spouse dies before distributions are required to begin to the surviving spouse under Paragraph C.6 of this Section, this Section will apply as if the surviving spouse were the member.

d. For purposes of this Section, any amount paid to a child of the member will be treated as if it had been paid to the surviving spouse if the amount becomes payable to the surviving spouse when the child reaches the age of majority.

e. For the purposes of this Section, distribution of a member's interest in the applicable account(s) is considered to begin on the member's required beginning date (or, if Subparagraph c of this Paragraph is applicable, the date distribution is required to begin to the surviving spouse pursuant to Subparagraph a of this Paragraph).

C. Applicable Accounts

RETIREMENT

1. This Subsection shall apply with respect to any account that is part of the system that is considered to be a defined contribution account within the system. This Subsection shall apply to the refund of accumulated contributions as provided in R.S. 11:1635 (hereinafter referred to as "applicable account").

2. The applicable account(s) of a member must be distributed or begin to be distributed no later than the member's required beginning date. The first distribution calendar year shall be the calendar year in which the member attains age 70 1/2 or has a severance from employment with the employer maintaining this system, if later. Distribution shall be made over a period not longer than that provided under this Subsection.

3. Death of Member before Distributions Begin. If the member dies before distributions begin, the member's applicable account(s) will be distributed, or begin to be distributed, no later than as follows.

a. If the member's surviving spouse is the member's sole designated beneficiary, then distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained age 70 1/2, if later.

b. If the member's surviving spouse is not the member's sole designated beneficiary, then distributions to the designated beneficiary will be made or will begin by December 31 of the calendar year immediately following the calendar year in which the member died.

c. If there is no designated beneficiary as of September 30 of the year following the year of the member's death, the member's applicable account will be distributed by December 31 of the calendar year containing the fifth anniversary of the member's death.

d. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to the surviving spouse are required to begin, this Subsection (other than Subparagraph a of this Paragraph) will apply as if the surviving spouse were the member. For purposes of this Subsection, distributions are considered to begin on the member's required beginning date, or if applicable, on the date distributions are required to begin to the surviving spouse. The date distributions are considered to begin is the date distributions actually commence.

4. Forms of Distribution. Unless the member's interest is distributed in a single-sum on or before the required beginning date, as of the first distribution calendar year, distributions will be made in accordance with this Subsection.

5. Required Minimum Distribution for each Distribution Calendar Year. If the member's interest in the applicable account(s) is to be distributed in other than a single sum, the following minimum distribution rules shall apply on or after the required beginning date.

a. During the member's lifetime, the minimum amount that will be distributed for each distribution calendar year is the lesser of:

i. the quotient obtained by dividing the member's account balance by the distribution period in the uniform lifetime table set forth in 26 CFR §1.401(a)(9)-9, Q and A-2, using the member's age as of the member's birthday in the distribution calendar year; or

ii. if the member's sole designated beneficiary for the distribution calendar year is the member's spouse, the quotient obtained by dividing the member's account balance by the number in the joint and last survivor table set forth in 26 CFR §1.401(a)(9)-9, Q and A-3, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the distribution calendar year.

b. Required minimum distributions will be determined under this Section beginning with the first distribution calendar year and continuing up to, and including, the distribution calendar year that includes the member's date of death.

c. *Member's Benefit*—the account balance of the applicable account or accounts as of the last valuation date in the calendar year immediately preceding the distribution calendar year increased by the amount of any contributions allocated to the applicable account balance as of dates in the distribution calendar year with respect to the first distribution year, after the valuation date and decreased by distributions made in the distribution calendar year after the valuation date.

i. For purposes of Subparagraph c of this Paragraph, if any portion of the minimum distribution for the first distribution calendar year is made in the second distribution calendar year on or before the required beginning date, the amount of the minimum distribution made in the second distribution calendar year shall be treated as if it had been in the immediately preceding distribution calendar year.

6. Required Minimum Distributions after Member's Death. If the member dies after distribution of his or her applicable account(s) has begun, the remaining portion of such account(s) will continue to be distributed at least as rapidly as under the method of distribution being used prior to the member's death.

a. Member is Survived by Designated Beneficiary. If the member dies on or after the date distributions begin and there is a designated beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the member's death is the quotient obtained by dividing the member's account balance by the longer of the remaining life expectancy of the member or the remaining life expectancy of the member's designated beneficiary, determined as follows.

i. The member's remaining life expectancy is calculated using the age of the member in the year of death, reduced by one for each subsequent year.

ii. If the member's surviving spouse is the member's sole designated beneficiary, the remaining life expectancy of the surviving spouse is calculated for each distribution calendar year after the year of the member's death using the surviving spouse's age as of the spouse's birthday in that year. For distribution calendar years after the year of the surviving spouse's death, the remaining life expectancy of the surviving spouse is calculated using the age of the surviving spouse as of the spouse's birthday in the calendar year of the spouse's death, reduced by one for each subsequent calendar year.

iii. If the member's surviving spouse is not the member's sole designated beneficiary, the designated beneficiary's remaining life expectancy is calculated using the age of the beneficiary in the year following the year of the member's death, reduced by one for each subsequent year.

b. No Designated Beneficiary. If the member dies on or after the date distributions begin and there is no designated beneficiary as of September 30 of the year after the year of the member's death, the minimum amount that will be distributed for each distribution calendar year after the year of the member's death is the quotient obtained by dividing the member's account balance by the member's remaining life expectancy calculated using the age of the member in the year of death, reduced by one for each subsequent year.

D. Deferred Retirement Option Plan (DROP) and Back-Deferred Retirement Option Plan (Back-DROP)

1. Required Beginning Date

a. The DROP account and/or Back-DROP account of a member shall be distributed, or commence to be distributed, on or before the member's required beginning date.

2. Minimum Required Distribution (MRD)

a. Unless a greater amount is elected by the member for a calendar year, the amount to be distributed as the minimum required distribution shall be determined by annuitizing the DROP account and/or back-DROP account of the member over the period equal to the number of years beginning with the first distribution calendar year and continuing for the period equal to the number of whole years of the member's life expectancy measured from the first distribution calendar year as determined under the uniform

lifetime table in 26 C.F.R. §1.401(a)(9)-9. The board shall have authority to designate the interest rate for purposes of calculating the periodic payments. Notwithstanding the foregoing, all payments shall be made from the DROP account or back-DROP account of the member, and no amount shall be paid that is not accrued for the member's benefit under such account.

3. Right to Accelerate Payments

a. The member shall have the right to accelerate payments and to receive a distribution of the entire DROP account or back-DROP account in a lump sum.

4. Rollover

a. If a distribution is made that includes the minimum required distribution for a calendar year, then that minimum required distribution may not be rolled over; however, any amount distributed in excess of the minimum required distribution for any calendar year shall be an eligible rollover distribution and may be rolled over into an eligible retirement plan.

AUTHORITY NOTE: Promulgated in accordance with the provisions of R.S. 11:1588(A), R.S. 11:1635, and the Administrative Procedure Act, R.S. 49:950 et seq.
