Consultation

Question	Answer
Requested By	
Requested Reason	Agency is revising the department's Hazardous Materials Policy and asked me to review the revisions.
Consultation Summary	Agency sent me Policy 4006-93 with a revision date of July 15, 2020 that addresses hazardous materials and asked me to review it and determine if it covered all the required components. I reviewed the policy and and sent the agency an email on August 3, 2020 with my recommendations. I also stated that I would be available to discuss the policy further if needed and would be available to review any other revisions. The revised policy and my email are attached.
