Survey/Comments

We welcome and appreciate your suggestions for improving the state directory. To help us evaluate the usefulness of the directory, please complete the following survey and return this form to us.

Circle the rating for each item on a scale from 0 to 4.

1. Agency/Office Listings

Can't find	0	1	2	3	4	Easy to find
------------	---	---	---	---	---	--------------

2. Inclusion of Names of Key Personnel

Not Useful	0	1	2	3	4	Very Useful
------------	---	---	---	---	---	-------------

3. Usefulness of Numbers Listed

Not Useful	0	1	2	3	4	Very Useful
------------	---	---	---	---	---	-------------

Please place a check in the appropriate box.

4. What other sources do you use to find state telephone numbers?

- public telephone directories state directory assistance operators
 directory assistance Internet

5. How often do you use your state directory?

- daily monthly never
 weekly rarely

Comments:

Name:

Agency:

Telephone Number:

Remember: Do **not** use this form to report directory listing changes. All changes must be submitted in writing by your agency's telecommunications coordinator.

Please return this form by FAX to 225 342-7810. Or, you may mail the form to OTS Network Services, Information and Training, P.O. Box 94280, Baton Rouge, LA 70804-9280. You may also send comments to laura.matherne@la.gov.

Introduction

The Louisiana State Government Telephone Directory is divided into four sections:

The Information Section contains information concerning long distance dialing. It also contains a quick reference telephone list for access to key personnel and major sections at the Office of Technology Services Network Services (OTS Network Services).

The Listings Section contains telephone numbers for state agencies. These listings are arranged alphabetically by city and agency. Local dialing instructions can be found before the listings of each of the seven major metropolitan areas.

The Reference Section contains Executive Branch elected and appointed officials, telephone numbers for Louisiana's congressional delegation, state legislators, and a list of Louisiana colleges and universities.

The Telecommunications Coordinators Section explains the responsibilities of a state agency Telecommunications Coordinator.

The Louisiana State Government Telephone Directory is published by OTS Network Services (formerly the Office of Telecommunications Management) in an effort to provide an accurate, effective source of information to state agencies. The ability to provide correct information to state agencies, as well as to the general public, is directly related to the quality of telephone directory information furnished by state agencies. If corrections to any listing are necessary, please follow the procedures outlined in the Telecommunications Coordinators Section under "Directory Listings Changes."

The Louisiana State Government Telephone Directory is accessible online from www.doa.la.gov/doa/ots/services-we-provide/telephone-directories/state-government-telephone-directory/.

Any suggestions or ideas for enhancements to the directory may be forwarded to the OTS Network Services Information and Training Section using the survey included in the front of the directory.

For additional information about the Office of Technology Services, visit our website at www.doa.la.gov/doa/ots/.

Cover

Cover photograph courtesy of Louisiana Office of Tourism.

The cover photo features a Louisiana black bear. The Louisiana black bear (*Ursus americanus luteolus*) is Louisiana's official state mammal.

The Louisiana black bear is a subspecies of the American black bear, and they can live up to 18 years. Females average 120 to 200 pounds, and males can weigh more than twice that. Listed as a threatened species under the Endangered Species Act in 1992, the Louisiana black bear has recovered and was removed from the list in 2016.

More information about the Louisiana black bear is available from the Louisiana Department of Wildlife and Fisheries at www.wlf.louisiana.gov/subhome/louisiana-black-bear

State Government Directory Assistance

Please consult your State Government Telephone Directory before placing any calls to public assistance operators for state government listings as directory assistance calls may be billable.

If you are experiencing a problem reaching a number in this directory or if you require help in obtaining a state number not listed in this directory, contact the state government operators at one of the numbers listed below.

BATON ROUGE.....225 342-6600
STATEWIDE800 256-7777

Louisiana Relay Service

Louisiana Relay Service (711, or 800 846-5277 for TTY/TDD users or 800 947-5277 for voice users) is a 24-hour service that provides telephone communication between people who are deaf, hard of hearing, deaf-blind or speech disabled, through the use of specialized equipment to communicate freely with people who use a standard telephone.

During a relay call, an operator or communications assistant will voice everything typed by the TTY/TDD user and type everything said by the telephone user. In this way, the relay allows people who are deaf, hard of hearing or speech disabled to have a telephone conversation with anyone, anytime, even if the other person does not have special equipment. For more information on this or other Louisiana Relay Services and internet relay calling, visit their website at www.hamiltonrelay.com/state_711_relay/state.html.

Suicide Prevention and Mental Health Crisis Lifeline

The National Suicide Prevention and Mental Health Crisis Lifeline (988, or 800 273-8255) is a 24-hour service that provides free and confidential emotional support to people in suicidal crisis or emotional distress. The service operates through a national network of local crisis centers, combining custom local care and resources with national standards and best practices.

When calling 988, callers first hear a greeting while their call is routed to a trained crisis counselor in their local crisis center (based on the caller's area code). The counselor will listen to the caller, work to understand how the caller's concerns are affecting them, provide support, and share resources if needed. If the local crisis center is unable to take the call, the caller will be automatically routed to a national backup crisis center.

If you need suicide or mental health-related crisis support, or are worried about someone else, call 988 or 800 273-8255, or visit www.suicidepreventionlifeline.org to connect with a trained crisis counselor.

Long Distance Calls

Under most dial plans, authorized long distance users place long distance calls by dialing “1” then the area code and seven digit telephone number. Each agency is billed monthly for its actual usage.

Under the HVS dial plan, authorized long distance users place long distance calls by dialing the area code and seven digit telephone number (omit the “1”).

International Calls

To make business related international calls, the telephone must be unrestricted for international calling. Then—

- From an unrestricted AT&T Centrex station—
 - Dial 9 for an outside line then dial 0 + 11, the country code, city code, and the local number.
- From a unrestricted PBX station—
 - Obtain an outside line then dial 0 + 11, the country code, city code, and the local number.
- From an unrestricted business line, trunk, or HVS—
 - Dial 0 + 11, the country code, city code, and the local number.

State Government Dialing Instructions

State AT&T Centrex Service Users—

Major Metropolitan Abbreviated Dialing

- To reach another local State Government number with the same prefix, dial a designated code + last four digits.
- To reach a local non-state number
 - From a 225, 318, or 985 area code, dial 9 + seven digit telephone number.
 - From a 337 or 504 area code, dial 9 + ten digit telephone number.
- Dialing instructions are included before each of the major metropolitan areas listed in this directory. If further assistance is needed, contact the OTS Network Services System Projects Manager at 225 342-1419 to obtain the appropriate codes.

To make business related long distance calls anywhere in the Continental U.S. from an authorized station, dial “1” + area code + seven digit telephone number.

To place a toll free (800/888/877/866/855) call:

- Dial 9 + toll free number

State PBX Users—

- Contact your System Administrator for feature and dialing instructions.

Other State Users—

- Contact your agency’s Telecommunications Coordinator for feature and dialing instructions.

Three-Digit Abbreviated Dialing Codes

Three-digit dialing codes are used to provide easy access to key community services. Some locations may need to dial a number to reach an outside line before making a three-digit call. For example, Centrex users calling for emergency users will dial 9 + 911.

Three-Digit Dialing Code	Description (may not be available in all areas)
211	Community Information and Referral Services
311	Non-Emergency City Government Services
411	Directory Assistance (may be billable)
511	Travel Information (LaDOTD)
611	Telephone Company Customer Service and Repair
711	TDD and Relay Services for the Deaf and Hard of Hearing
811	Underground Public Utility Location (Call Before You Dig)
911	Emergency Services
988	National Suicide Prevention Hotline

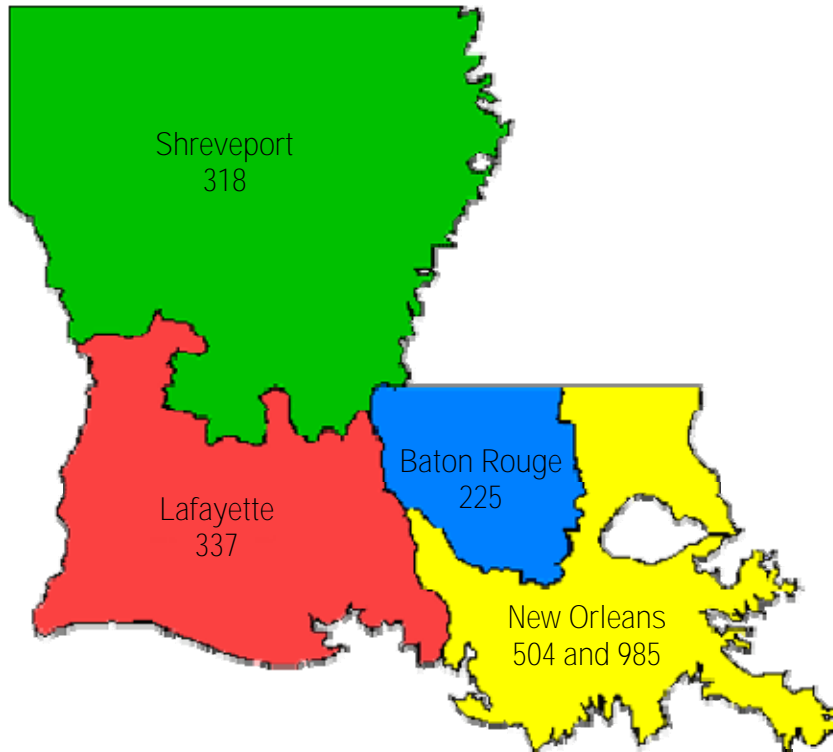

Using Voice Messaging Service

Voice Messaging Service (VMS) is a technology that can help you perform your job more effectively. It can minimize the problems associated with telephone tag, unanswered telephones, and the taking and distribution of internal messages. VMS answers calls, makes messages immediately available to the person called, and captures and delivers the complete message including the tone and mood of the caller.

For Your Personal Greetings—

- Be natural—Let your greeting reflect your personality. Be pleasant and friendly; the smile you record with your voice will be heard by your caller. Listen to your greeting and hear what the caller will hear; is it OK?
- Be distinct—Speak clearly and loudly enough for the caller to hear and understand your greeting. Don't ramble or detract from your greeting with “ums” and pauses. Unwanted background noise will be recorded with your greeting; so, make sure things are quiet while recording.
- Include main points—Tell the caller your name, department or agency affiliation, if you are in the office or not, and a time frame for your reply.
- Update your greeting—Change your greeting to reflect your daily schedule and keep callers up to date. Include instructions on how to use the system, especially those for how to reach a person.
- Check your messages frequently—Check for messages frequently. Be sure to act upon your messages and return calls. This leads to callers' positive acceptance of the technology and enables you to be more effective and provide better customer service.

Louisiana LATA Map

Repair and Trouble Reporting

In an effort to provide practicable operating telephone systems, OTS Network Services relies on state agencies to report telephone system problems. The following steps should be followed when experiencing a problem:

- Try to place the call or activate the feature a second time.
- Then, try to determine if the problem is in the telephone or in the telephone line or jack. With a plug-in telephone, unplug the telephone and cord and try a known working telephone and cord in the same jack. If the second telephone works properly, the problem may be with the telephone instrument. If the second telephone does not work properly, the problem may be with the telephone line or jack.
- After attempting to determine whether the problem is with the instrument or the line or jack, report this information to your agency Telecommunications Coordinator. Your Telecommunications Coordinator will report your problem to OTS Network Services Technical Support for resolution.

ABBREVIATED DIALING FOR BATON ROUGE (CENTREX)

The instructions below pertain to Centrex numbers only. The state is in the process of converting several state agencies from Centrex to Hosted Voice Services (HVS). Contact your local HVS administrator for assistance.

If you are dialing from a Baton Rouge state government number, you may be able to use abbreviated dialing to reach another local state government telephone number. Using the chart below, dial the one digit code + the last 4 digits of the desired telephone number. If no code is listed, dial 9 + the 7-digit telephone number. For all other local numbers, dial 9 + the 7-digit telephone number. These instructions pertain to Centrex numbers only.

Telecommunications Coordinators

All state agencies shall appoint one or more representatives to be designated as the agency Telecommunications Coordinator(s). The Telecommunications Coordinator is recognized by the Office of Technology Services as the agency's authorized representative for approving telecommunications matters, including service orders and expenditures, resulting from authorized agency telecommunications activity.

A list of current Telecommunications Coordinators for state agencies can be accessed from the OTS website at www.doa.la.gov/doa/ots/services-we-provide/various/telecom-coordinator/

Service Requests for Existing Systems

All requests for changes to existing telecommunications services and equipment must be submitted by your Telecommunications Coordinator to OTS as soon as a need is known or anticipated. Requests must be submitted on the appropriate form, which may be obtained from the OTS website at www.doa.la.gov/doa/ots/policies-and-forms/ or by calling Customer Service at 225 342-7720. The NS/S-1 Communications Service Request is a general form which may be used when no specific form is available for the requested service.

If additional information about telecommunications services and equipment is needed, please contact your agency's Telecommunications Coordinator.

Acquisition of Telecommunications Systems

The Office of Technology Services is responsible for assisting in identifying telecommunications needs and formulating procedures for acquiring telecommunications systems for state agencies. Agencies planning new facilities, relocations or renovations should notify OTS Network Services Project Requests Unit by submitting the NS-16 Project Request Form. For guidance, contact Customer Service by calling 225 342-7720.

Agencies experiencing severe or recurring problems with existing systems may submit a written request for a complete system evaluation to OTS. The NS-16 Project Request Form may be used for this purpose. If it is determined that an existing system is inadequate or that a new system is required, OTS Network Services will assist the agency in procuring an appropriate system in accordance with state procurement procedures.

Rate Requests

The telecommunications rates for equipment and services are published in the Office of Technology Services Catalog of Services at www.doa.la.gov/doa/ots/services-we-provide/by-category/. Inquiries concerning these rates should be directed to your Telecommunications Coordinator.

Telecommunications Charges

The Office of Technology Services Network Services (OTS NS) is responsible for coordinating the payment of all telecommunications costs incurred by agencies and provides for equitable billing to agencies for telecommunications services utilized.

All telecommunications systems and services are assigned a cost center for billing purposes. Telecommunications Coordinators are responsible for obtaining the proper account codes from departmental fiscal offices to insure charges are being applied correctly. OTS NS must be notified in writing by the Telecommunications Coordinator when an agency's cost center or billing address is to be changed.

State agencies should review and audit monthly invoices for billing and inventory discrepancies. Discrepancies found should be documented and forwarded through the Telecommunications Coordinator. OTS NS will review the documentation presented and make applicable adjustments.

Disputes concerning charges must be directed to the Division of Administration Office of Finance and Support Services (OFSS) OTS Network Services Support Section at 225 342-0700. Payment of bill must not be delayed. Adjustments will not be issued to accounts without proper information and documentation submitted with remittance. Any questions concerning account balances or payment should be directed to the OFSS General Accounting Unit at 225 342-0700.

Directory Listing Changes

To maintain accurate and current state government listings in both the public telephone directories and the State Government Telephone Directory, the Office of Technology Services Network Services must be notified in writing by the agency's Telecommunications Coordinator of all changes as they occur. The State Government Telephone Directory can be accessed online at www.doa.la.gov/media/ksia2ivj/state-phone-directory.pdf.

All requests for directory listings should be submitted by your agency's Telecommunications Coordinator to the OTS NS Information and Training Section at _doa-ots-ns-informationandtraining@la.gov. Detailed instructions pertaining to telephone listings additions, deletions, or changes should be included. Questions should be directed to the Network Services Information and Training Section at 225 342-1000.

Training

Telecommunications training is available for all state agencies through the Office of Technology Services Network Services. Instructions on dialing procedures, operation of various telephone systems and equipment, making the most of your telephone, and proper utilization of long distance service are some of the subjects for which training is available. . Questions should be directed to the OTS NS Information and Training Section at 225 342-1000.
