Narratives

Disaster Damage:

Hurricanes Katrina and Rita's legacy to coastal Louisiana was an unprecedented wake of death, destruction and devastation. Taken together, 1,464 people lost their lives, more than 200,000 homes and 18,000 businesses were destroyed and billions of dollars in property was impacted. Hurricane Katrina approached New Orleans and the Louisiana-Mississippi state border on August 29, 2005 at a Category 5 level, and the fifth-strongest ever recorded hurricane. Before reaching land it was downgraded to a Category 3, but caused massive destruction and severe damage up to 76 miles east of the storm's center. Orleans, Plaquemines, and St. Bernard Parishes suffered widespread flooding as a result of storm surge overtopping or breaching area levees. Along the north shore of Lake Pontchartrain, up to six feet of water inundated the cities of Mandeville and Slidell. The City of New Orleans was under a mandatory evacuation for more than a month. Less than a month later on September 24, Hurricane Rita, the second strongest ever to enter the Gulf of Mexico came ashore, also as a Category 3, and flooded the coastal areas of southwestern Louisiana in the area around Lake Charles, impacting nearly a half million households. Hurricane Katrina will most likely be categorized as the third deadliest and the costliest storm in U. S. history. While hurricane Rita exacted a lower death toll, taken together, these storms wrought catastrophic destruction on the Louisiana coastal areas, exacting an enormous toll on the material, financial and emotional resources of hundred's of thousands of Louisianans. While the impact was wide-spread and indiscriminate of income and social status, the impact of the hurricanes on the poor was particularly devastating, especially in Orleans Parish where the U.S. Census in 2000 reports only a 46.5% homeownership rate (compared to 67.9% in the State), a median household income of \$27,133 (compared to \$32,566 in the State), and a poverty rate of 27.9% (compared to a state rate of 19.6%). In contrast, while Calcasieu, Cameron, Plaquemines and St. Bernard Parishes sustained major damage, they had higher homeownership rates (ranging between 71% and 85%), higher median incomes (ranging between \$34,000 and \$38,000) and lower poverty rates (12% to 18%). The concentration and number of persons in extreme poverty neighborhoods exacerbated the negative impact on the poor principally in New Orleans. According to the Brookings Institution (October 2005), one out of every four neighborhoods in the city of New Orleans was classified as an "extreme-poverty" neighborhood, with at least 40% of its residents living below the federal poverty threshold. These 47 neighborhoods were home to nearly 100,000 residents and had an average household income which lagged the City's by over \$17,000. The Congressional Research Service (CRS) calculates that the poverty rate in the flooded and damaged areas in the State of Louisiana was 21.4%, confirming the widespread sentiment that high poverty neighborhoods were disproportionately flooded (CRS, November 4, 2005). The social impacts were also greater for those most vulnerable before the storms. These individuals were less connected to the workforce, had educational disadvantages, were elderly or disabled, or were children. Nearly 90,000 persons aged 65 and older were likely displaced by the storms, many of whom lived alone and had at least one disability. Displaced aged persons also were poor (an estimated 15%) and one quarter lacked vehicles. The child poverty rate in the areas affected by the hurricanes was over 30% (CRS, November 4, 2005). The fragility of the most affected populations places a greater burden on the federal, state and local resources available for recovery efforts. The poor standing of the impacted population before the hurricanes severely stretches Louisiana's state and local resources, making the need for federal assistance even more critical.

Recovery Needs:

The current and projected financial impact on Louisiana from Hurricanes Katrina and Rita has reached into the tens of billions of dollars, according to estimates from a number of groups, think tanks and government agencies. Given the extensiveness of the damage, there is a great deal of uncertainty regarding estimates of the impact on property, on governments and on the economy. The variation in the estimates of different organizations creates a greater challenge for the State in assessing its needs and the resources necessary to address those needs. For example, according to preliminary estimates from the Louisiana Recovery Authority (LRA), the Governor's State-wide coordinating body for all recovery efforts, the 2005 hurricanes had an impact of \$75 - \$100 billion on property and infrastructure and \$15 - \$20 billion in temporary

relief services. However, the Federal Emergency Management Agency (FEMA) projects an \$18 - \$25 billion impact on property and infrastructure. For the State's economy, the LRA states that the storms are expected to inflict from \$50 - \$70 billion in losses to Louisiana's economy (defined as nominal Gross State Product) and cause \$8 - \$10 billion in lost state and local revenue over the next five years. On the other hand, the Louisiana Legislative Fiscal Office projects a \$40 - \$60 billion impact on the economy and a \$4 - \$8 billion in lost revenues. Even before the hurricanes, the State was in a precarious situation, with many unmet needs in the areas of infrastructure, education, economic investment, health care and social services. The impact of the storms on the executive budget and on state revenues makes it even more difficult to deal with the critical needs caused by the hurricanes without substantial assistance from the federal government. According to FEMA, the total number of applicants for FEMA assistance related to hurricanes Katrina and Rita was 1.89 million as of January 10, 2006. These applicants have received individual level assistance such as clothing, food, and temporary housing as described below. Additional resources are needed for the estimated 900 families or 2,700 people that have exhausted the subsidized hotel room assistance as of February 7, 2006.

Overall Progress Narrative:

During the 2022 Q4, a total of \$4.1M in disaster recovery CDBG grant funds were expended on the Housing, Infrastructure, Economic Development, Planning and Technical Assistance Programs designed to assist Louisianans in the recovery from Hurricanes Katrina and Rita.

Approximately 34% of the total \$4.1M went to state administrative costs for 2022 Q4. However, overall administration costs remain well below 2% (at 1.2%). The current state administrative cost is higher than in previous years due to the increase in monitoring and compliance activities, as well as project closeout costs as these activities wind down. Details on project costs, beneficiary data, and performance measures can be found within this document.

Katrina/Rita grant funds totaling \$4,000,000.00 are used to fund NDR (National Disaster Resilience) programs. This money consists of \$3,025,561.85 from Katrina/Rita Grant 1 and \$974,438.15 from Katrina/Rita Grant 2 being used to fund the NDR Gretna Resilience District Kickstart Project in Jefferson parish. The use of funds between different grants has been approved by HUD.

Activity Description:

Before the disaster, a large portion of very low income working families resided in single-family homes, “doubles” and small, multi-family buildings that were owned and operated by small-scale landlords. Many of these properties were underinsured or uninsured, and no longer available for occupancy. The state proposes to provide up to \$869,000,000 in financial assistance to small rental property owners so that they effectively might return an estimated 18,000 affordable and ready-to-be-occupied units to the rental housing market.

A portion of the funds (\$40 million) is set aside as a pilot program to assist in the creation of homeownership opportunities for renters and will be administered by the Louisiana Housing Finance Agency. The primary purposes of this incentive program is to enable small-scale rental properties to return to the market while limiting the amount of debt (and therefore debt service) required for the properties, so that the owners will be

able to charge affordable rents. The program will, on a competitive basis, offer incentives in the form of forgivable loans to qualified owners who agree to offer apartments to be occupied by lower income households at affordable rents.. Subsidies will be provided on a sliding scale, and the minimum subsidy will be provided for units made available at affordable market rents to households with incomes at or below 80% of median. The maximum amount of subsidy will go to units affordable to families with incomes at or below 50% of AMI. In addition to funding incentives for providing affordable units in small rental properties, the program will, where practical, make funds available to improve building design and make properties less susceptible to damage from natural events. In general, higher per unit amounts will be available to property owners who agree to offer lower rents to reflect the lower amount of rental income the properties will receive. The assistance will be offered as deferred payment loans at zero percent interest, due only upon resale of the property or failure to comply with the agreed-upon restrictions on rents and household incomes. The program will, on a competitive basis, provide zero interest gap financing to restore units that are rented at affordable rates.

Higher funding amounts, up to \$100,000 per unit are available to qualified landlords who agree to offer lower rents, with the maximum amount of subsidy going for larger rental units where rents are for families with incomes at or below 50% area median income. This program is planned to create 18,000 units - 8,100 Low and 5,400 Moderate income; 13,500 affordable units - 8,100 Low and 5,400 Moderate income; 1,500 assisted units occupied by the low income elderly; 600 units subsidized with project based rental assistance; 4,500 lead safe units; and 1,500 units which meet Sec. 504 accessibility standards.

Activity Description:

This program will be funded with \$75M from unallocated Small Rental Program (SRP) funds for the purpose of promoting homeownership and to expand housing opportunities for existing LMI renter households(those earning less than 80% of the area median income), using the supply of Louisiana Land Trust (LLT) Properties. By targeting financial support to the redevelopment of these properties selected by the local governments, this program will also promote neighborhood revitalization in critical areas throughout the Louisiana Gulf Coast. Funding for this initiative will be subject to the guiding principles of the SRP. Specifically, all funding will be restricted to four unit properties and to restoring property that received severe or major damage through Hurricanes Rita or Katrina in the 13 Parishes suffering the most severe damage to their rental housing stocks. The process is designed to work as follows. Parish government officials will be asked to select a pool of LLT parcels to be targeted for re-development as first time homebuyer properties. These properties will be grouped together in clusters whenever possible in order to take advantage of economies of scale and to ensure that their development will have a significant positive impact on the area. The selected properties and commitments for any necessary CDBG subsidies will be offered through a competitive process to qualified developers, including nonprofit and for-profit organizations, that are able to provide a finished property that meets the Program's quality standards and is affordable to the pool on income eligible buyers. Upon completion, the

properties will be sold at a market price set at the full cost of development, but the actual cost to the qualified first time homebuyers will be significantly less. The difference or gap will be provided in the form of a no interest, soft second mortgage to the purchaser. The amount of the soft second loan will be scaled to ensure that the actual cost of purchasing the property is affordable to eligible buyers taking into consideration prevailing interest rates, construction and operating costs, and industry standards for affordability, such as 30% of income for housing costs. Funding for an LLT rental property would range from \$10,000 to \$100,000. This soft second loan will be forgiven over time for the period the purchaser remains in the home. However, the program will be structured to provide recapture of benefits in the event of sale. For instance, if the new homeowner sells the property before their soft second loan is completely forgiven, the outstanding principal or a portion of this principal will be due on sale depending on whether the owner has realized a gain over this initial investment, i.e. his equity and the amount of the first mortgage that he took on in order to purchase the property. Purchasers will be selected based on a lottery system. The Parish government may elect to provide priorities to select groups of eligible purchasers, e.g. uniformed workers. Where appropriate, Parish governments may also elect to select a pool of LLT properties to be developed as affordable rental housing, including rent to own developments. Again, any properties developed through an LLT rental initiative would also have to meet the basic requirements previously stated.

Activity Description:

This program will be funded with \$75M from unallocated Small Rental Program (SRP) funds for the purpose of promoting homeownership and to expand housing opportunities for existing LMI renter households(those earning less than 80% of the area median income), using the supply of Louisiana Land Trust (LLT) Properties. By targeting financial support to the redevelopment of these properties selected by the local governments, this program will also promote neighborhood revitalization in critical areas throughout the Louisiana Gulf Coast. Funding for this initiative will be subject to the guiding principles of the SRP. Specifically, all funding will be restricted to four unit properties and to restoring property that received severe or major damage through Hurricanes Rita or Katrina in the 13 Parishes suffering the most severe damage to their rental housing stocks. The process is designed to work as follows. Parish government officials will be asked to select a pool of LLT parcels to be targeted for re-development as first time homebuyer properties. These properties will be grouped together in clusters whenever possible in order to take advantage of economies of scale and to ensure that their development will have a significant positive impact on the area. The selected properties and commitments for any necessary CDBG subsidies will be offered through a competitive process to qualified developers, including nonprofit and for-profit organizations, that are able to provide a finished property that meets the Program's quality standards and is affordable to the pool on income eligible buyers. Upon completion, the

properties will be sold at a market price set at the full cost of development, but the actual cost to the qualified first time homebuyers will be significantly less. The difference or gap will be provided in the form of a no interest, soft second mortgage to the purchaser. The amount of the soft second loan will be scaled to ensure that the actual cost of purchasing the property is affordable to eligible buyers taking into consideration prevailing interest rates, construction and operating costs, and industry standards for affordability, such as 30% of income for housing costs. Activity Description:

Renovation of two vacant residential buildings in which 100% of the units will serve LMI individuals. The buildings were flooded by Hurricane Katrina and have been vacant ever since. The first floor has been gutted to the studs. The building will also have office space, meeting rooms, and a common multi-purpose room for residents in addition to the 54 residential units. \$500,000 for this project will be coming from K/R Grant 1. In total, 27 units for households under 30% AMI + 27 units for households under 60% AMI = 54 housing units total.

Activity Description:

The purpose of this project is to provide the Belle Chasse Primary School with essential infrastructure and site preparation needed to facilitate the new Pre-K through Grade 1 facility and maintain educational and health standards at the existing primary school. This project would include site preparation to include clearing and grading, elevation and drainage, and construction of a sewer treatment plant, extension of utilities to the facility, driveway, parking, sidewalks, site lighting, covered areas, playground equipment, and landscaping. This project is also part of a larger project located at Belle Chasse Primary School, which includes IEDU - 00053, IEDU - 00057, IEDU - 00070 and IEDU - 00100. The public facility is reported in this activity.

Location Description:

539 F. Edward Hebert Boulevard, Belle Chasse, LA 70037

Activity Progress Narrative:

Expenditures this quarter were for construction services performed by Thigpen Construction and engineering services performed by Meyer Engineers.

Activity Description:

The grantee is requesting the CDBG-DR funding to convert the former McDonogh No. 35 Senior High School into a state-of-the-art complex to house a career and technical education facility. The facility will provide physical infrastructure to support career readiness programming, and educational experience which will result in career readiness and ensure students are successful in pursuing college or career after graduation. The District's goal is to build a structure that will minimize damages caused by future storms and will provide a safe, high quality learning facility for future students.

Location Description:

1331 Kerlerec Street, New Orleans, La 70116

Activity Progress Narrative:

IEDU - 00117 budget and obligation reduced by 85K (from 20,718,164.33 to 20,633,164.33) to transfer to IEPD-00001 for PAE Task Order. IEPD - 00001 budget and obligation increased by 85K (from 680,329.75 to 765,329.75). CEA amended to allow for increase.

Activity Description:

This is a mixed-use historic redevelopment project located at the intersection of Onzaga Street, St. Bernard Avenue, and North Roman Street in New Orleans' historic 7th Ward. When the renovation is completed, it will include two ground level storefront businesses. This project will bring the family business back to its pre-Katrina location.

Location Description:

300 N. Broad Street, Suite 208, New Orleans, LA 70119

Activity Progress Narrative:

Expenditures this quarter were for retainage release.

Activity Description:

The Road Home Homeowner Assistance program provides financial compensation and advisory services will be available for homeowners who wish to select from one of the three following options: 1. Repair/Rebuild financial incentives to repair or reconstruct on the same site; 2. Sell and Relocate within the state purchase of the home by the program in exchange for an agreement to resettle in Louisiana; or 3. Sell and Relocate out of the state voluntary sale of the home with no expectation of resettlement in the state. The allocation for this program represents uses an estimated 55% benefit to low and moderate income citizens. This estimate is based on first and second quarter data which differs from the Road Home registry data. The registry data showed 76.2% of the 107,713 registrants earned at or below \$50,000. Since the registry did not collect data on

household size, it is impossible to estimate the number of low income households. This allocation amount and estimated performance will be continually modified as data on the actual applicants is collected. The amount allocated to LMI includes \$8,229,915 of Road Home start up costs that funded program design, the Road Home Registry call center and other start up costs.

Location Description:

The program will serve homeowners in at least 17 permanent and mobile homeowner assistance centers in disaster affected parishes and other areas in and out of state where concentrations of displaced citizens are located.

Activity Progress Narrative:

Program income received this quarter.

Activity Description:

The Gretna Resilience District Kickstart is an ambitious Resilient Infrastructure and Community Nonstructural Mitigation/Flood Risk Reduction project. LA SAFE funding will address the improvements to the park which include greater stormwater retention, enhanced entryways, pathways and signage, additional seating and pavilions, and the installation of a tiered dock that will connect visitors to the water.

These are all associated activities 26NSAF6601 - NDR (NDR grant), 26ISAF6601 - NDR (KR1), and 26I2AF6601 - NDR (KR2) because they are funded in part with NDR, in part with KR1 and in part with KR2 funds.

Location Description:

3099 Huey P. Long Ave., Gretna, LA 70054
